Littlejohns, Sara Soncini, 2007 *Myths of Europe* focuses on the identity of Europe seeking to re assess its cultural literary and political traditions in the context of the 21st century Over 20 authors historians political scientists literary scholars art and cultural historians from five countries here enter into a debate How far are the myths by which Europe has defined itself for centuries relevant to its role in global politics after 9 11 Can Old Europe maintain its traditional identity now that the European Union includes countries previously supposed to be on its periphery How has Europe handled relations with the non European Other in the past and how is it reacting now to an influx of immigrants and asylum seekers It becomes clear that founding myths such as Hamlet and St Nicholas have helped construct the European consciousness but also that these and other European myths have disturbing Eurocentric implications Are these myths still viable today and if so to what extent and for what purpose This volume sits on the interface between culture and politics and is important reading for all those interested in the transmission of myth and in both the past and the future of Europe **Imperial Fictions** Rana

Kabbani, 1994 Rana Kabbani unravels Western fantasies and myths about the East which were woven over the ages Devised during the Crusades to combat Islam then confirmed by centuries of Western writers and artists these myths fostered racial and sexual stereotypes that became vital to imperial designs In Orientalist travelogues and paintings the British and the French conceived of an erotic and sinister East one that they believed to be morally inferior and dangerous and therefore ripe for colonisation Such perceptions remain very much apparent today fuelling the tension between East and West *Imperial Fictions* now a classic is an erudite analysis of Europe's fabricated Orient as expressed in its writings and illustrated in its paintings **Women and Islam: Images and realities** Haideh Moghissi, 2005 This three volume interdisciplinary

The Politics of Culture in the Shadow of Capital Lisa Lowe,David Lloyd,1997-11-17 Global in scope but refusing a familiar totalizing theoretical framework the essays in The Politics of Culture in the Shadow of Capital demonstrate how localized and resistant social practices including anticolonial and feminist struggles peasant revolts labor organizing and various cultural movements challenge contemporary capitalism as a highly differentiated mode of production Reworking Marxist critique these essays on Asia Latin America the Caribbean North America and Europe advance a new understanding of cultural politics within the context of transnational neocolonial capitalism This perspective contributes to an overall critique of traditional approaches to modernity development and linear liberal narratives of culture history and democratic institutions It also frames a set of alternative social practices that allows for connections to be made between feminist politics among immigrant women in Britain women of color in the United States and Muslim women in Iran Egypt Pakistan and Canada the work of subaltern studies in India the Philippines and Mexico and antiracist social movements in North and South America the Caribbean and Europe These connections displace modes of opposition traditionally defined in relation to the modern state and enable a rethinking of political practice in the era of global capitalism Contributors Tani E Barlow Nandi Bhatia Dipesh Chakrabarty Chungmoo Choi Clara Connolly Angela Davis Arturo Escobar Grant Farred Homa Hoodfar Reynaldo C Iletto George Lipsitz David Lloyd Lisa Lowe Martin F Manalansan IV Aihwa Ong Pragna Patel Jos Rabasa Maria Josefina Salda a Portillo Jaqueline Urla **Music and Orientalism in the British Empire, 1780s-1940s** Bennett Zon,2017-07-05 Filling

a significant gap in current scholarship the fourteen original essays that make up this volume individually and collectively reflect on the relationship between music and Orientalism in the British Empire over the course of the long nineteenth century The book is in four themed sections Portrayal of the East traces the routes from encounter to representation and restores the Orient to its rightful place in histories of Orientalism Interpreting Concert Music looks at one of the principal forms in which Orientalism could be brought to an eager and largely receptive yet sometimes resistant mass market Words and Music investigates the confluence of musical and Orientalist themes in different genres of writing including criticism fiction and travel writing Finally The Orientalist Stage discusses crucial sites of Orientalist representation music theatre and opera as well as tracing similar phenomena in twentieth century Hindi cinema These final chapters examine the rendering of the East as unachievable and unrecognizable for the consuming gaze of the western spectator *Intercultural Exchange in Southeast Asia* Tara Alberts,D. R. M. Irving,2013-09-25 At the dawn of European colonialism the Southeast Asian region encompassed some of the most diverse and influential cultures in early modern history The circulation of people commodities ideas and beliefs along the key trading routes from the eastern edge of the Mughal empire to the southern Chinese border

stimulated some of the great cultural and political achievements of the age This volume highlights the multifarious dimensions of exchange in eight fascinating case studies written by leading experts from the fields of History Anthropology Musicology and Art History Intercultural Exchange in Southeast Asia explores religious change at both ends of the social spectrum examining the factors which led to or impeded the conversion of kings to new faiths as well as those which affected the conversion of the marginal communities of mercenaries and renegades The artistic and cultural refashioning of new religions such as Christianity to suit local needs and sensibilities is highlighted in the Philippines Siam Vietnam and the Malay world while detailed analyses of scientific exchanges in maritime southeast Asia highlight the role of local agents especially women in the transmission of knowledge and beliefs The articulation and cultural expression of power relations is addressed in chapters on colonial urban design and the use of music in diplomatic exchanges This book utilises rare and unpublished sources to shed new light on the processes strategies and consequences of exchanges between cultures societies and individuals and will be essential reading for those interested in the cultural and political origins of modern Asia

The Balkan Wars from Contemporary Perception to Historic Memory Katrin Boeckh, Sabine Rutar, 2017-01-10 This book explores the historical role of the Balkan Wars In Eastern Europe the two Balkan Wars of 1912-13 had greater importance than the First World War for the construction of nations and states This volume shows how these short wars profoundly changed the sociopolitical situation in the Balkans with consequences that are still felt today More than one hundred years later the successors of the belligerent states in Southeastern Europe memorialize the wars as heroic highlights of their respective pasts Furthermore the metaphor that the Balkans were Europe's powder keg perpetuated at the beginning of the twentieth century in the face of these wars was reactivated in both the West and the East up through the Yugoslav wars of the 1990s The authors entangle the hitherto exclusive national master narratives and analyse them cogently and trenchantly for an international readership They make an indispensable contribution to the proper integration of the Balkan Wars into the European historical memory of twentieth century warfare

The Astronomer's Chair Omar W. Nasim, 2021-09-21 The astronomer's observing chair as both image and object and the story it tells about a particular kind of science and a particular view of history The astronomer's chair is a leitmotif in the history of astronomy appearing in hundreds of drawings prints and photographs from a variety of sources Nineteenth century stargazers in particular seemed eager to display their observing chairs task specific often mechanically adjustable observatory furniture designed for use in conjunction with telescopes But what message did they mean to send with these images In *The Astronomer's Chair* Omar W. Nasim considers these specialized chairs as both image and object offering an original framework for linking visual and material cultures Observing chairs Nasim ingeniously argues showcased and embodied forms of scientific labor personae and bodily practice that appealed to bourgeois sensibilities Viewing image and object as connected parts of moral epistemic and visual economies of empire Nasim shows that nineteenth century science was represented in terms of comfort and energy and that

manly postures of Western astronomers at work in specialized chairs were contrasted pointedly with images of effete and cross legged Oriental astronomers Extending his historical analysis into the twentieth century Nasim reexamines what he argues to be a famous descendant of the astronomer s chair Freud s psychoanalytic couch which directed observations not outward toward the stars but inward toward the stratified universe of the psyche But whether in conjunction with the mind or the heavens the observing chair was a point of entry designed for specialists that also portrayed widely held assumptions about who merited epistemic access to these realms in the first place With more than 100 illustrations many in color flexibound The Cambridge Companion to Travel Writing Peter Hulme,Tim Youngs,2002-11-21 Table of contents

Gender, Religion and Diversity Ursula King,Tina Beattie,2005-12-01 Gender Religion and Diversity provides an introduction to some of the most challenging perspectives in the contemporary study of gender and religion In recent years women s and gender studies have transformed the international study of religion through the use of interdisciplinary and cross cultural methodologies which have opened up new and highly controversial issues challenging previous paradigms and creating fresh fields of study As this book shows gender studies in religion raises new and difficult questions about the gendered nature of religious phenomena the relationship between power and knowledge the authority of religious texts and institutions and the involvement and responsibility of the researcher undertaking such studies as a gendered subject This book is the outcome of an international collaboration between a wide range of researchers from different countries and fields of religious studies The range and diversity of their contributions is the very strength of this book for it shows how gendering works in studying different religious materials whether foundational texts from the Bible or Koran philosophical ideas about truth essentialism history or symbolism the impact of French feminist thinkers such as Irigaray or Kristeva or again critical perspectives dealing with the impact of race gender and class on religion or by deconstructing religious data from a postcolonial critical standpoint or examining the impact of imperialism and orientalism on religion and gender **Sex, Sailors and Colonies** Hélène de Burgh,2005 Focusing on the work of 19th century author Pierre Loti the pseudonym of naval captain Julian Viaud the author suggests a new reading of Loti s literature that positions his texts within the critical theoretical paradigms of postcolonialism and queer theory *Gendering Orientalism* Reina Lewis,2013-06-17 In contrast to most cultural histories of imperialism which analyse Orientalist images of rather than by women Gendering Orientalism focuses on the contributions of women themselves Drawing on the little known work of Henriette Browne other lost women Orientalist artists and the literary works of George Eliot Reina Lewis challenges masculinist assumptions relating to the stability and homogeneity of the Orientalist gaze Gendering Orientalism argues that women did not have a straightforward access to an implicitly male position of western superiority Their relationship to the shifting terms of race nation and gender produced positions from which women writers and artists could articulate alternative representations of racial difference It is this different and often less degrading gaze on the Orientalized Other that is analysed in this book By revealing the extent of

women's involvement in the popular field of visual Orientalism and highlighting the presence of Orientalist themes in the work of Browne Eliot and Charlotte Brontë. Lewis uncovers women's roles in imperial culture and discourse. Gendering Orientalism will appeal to students, lecturers and researchers in cultural studies, literature, art history, women's studies and anthropology.

Europe, Empire, and Spectacle in Nineteenth-Century British Music Julian Rushton, 2017-07-05. This volume illuminates musical connections between Britain and the continent of Europe and Britain and its Empire. The seldom recognized vitality of musical theatre and other kinds of spectacle in Britain itself and also the flourishing concert life of the period indicates a means of defining tradition and identity within nineteenth century British musical culture. The objective of the volume has been to add significantly to the growing literature on these topics. It benefits not only from new archival research but also from fresh musicological approaches and interdisciplinary methods that recognize the integral role of music within a wider culture including religious, political and social life. The essays are by scholars from the USA, Britain and Europe covering a wide range of experience. Topics range from the reception of Bach, Mozart and Liszt in England, a musical response to Shakespeare, Italian opera in Dublin, exoticism, gender, black musical identities, British musicians in Canada and uses of music in various theatrical genres and state ceremony and in articulating the politics of the Union and Empire.

Orientalist Poetics Emily A. Haddad, 2017-03-02. *Orientalist Poetics* is the only book on literary orientalism that spans the nineteenth century in both England and France with particular attention to poetry and poetics. It convincingly demonstrates orientalism's centrality to the evolution of poetry and poetics in both nations and provides a singularly comprehensive and definitive analysis of the aesthetic impact of orientalism on nineteenth century poetry. Because it examines the poetry of the entire century across both national literatures, the book is in a unique position to articulate the essential part orientalism plays in major developments of nineteenth century poetics. Through probing discussions of an array of prominent nineteenth century poets including Shelley, Southey, Byron, Hugo, Musset, Leconte de Lisle, Wordsworth, Hemans, Gautier, Tennyson, Arnold and Wilde, Emily A. Haddad reveals how orientalism functions as a diffuse avant-garde, a crucial medium for the cultivation and refinement of a broad range of experimental positions on poetry and poetics. Haddad argues that while orientalist poems are often viewed mainly as artefacts of European attitudes towards the East and imperialism, poetic representations of the Islamic Orient also provide an indispensable matrix for the reexamination of such aesthetically fundamental issues as the purpose of poetry, the value of mimesis and the relationship between nature and art. *Orientalist Poetics* effectively bridges the gap between the analysis of poetics and the analysis of orientalism. In showing that major poetic developments have roots in orientalism, Haddad's book offers a valuable and innovative revisionist view of nineteenth century literary history.
