Eurythmy Thomas Poplawski, 2020-03-26 Rudolf Steiner initiated a new art of movement which can be characterised as speech and music made visible This concise but informative guide to eurythmy includes a brief survey of dance from its origin in the ancient mysteries to its contemporary forms placing Steiner's ideas in their historical context It then goes on to explore the three main strands of eurythmy as stage performance in education and in therapy giving insightful examples of each The book has been revised and updated and includes black and white photographs of performance and educational eurythmy Autobiography Rudolf Steiner, 2006-05 4 lectures Dornach June 28 July 18 1923 CW 350 Truth and striving for truth must taste good to you and lies once you are conscious of them must taste bitter and poisonous You must not only know that human judgments have color but also that printer's ink nowadays is mostly deadly nightshade juice You must be able to experience this in all honesty and rectitude and once you can do so you will be in a state of spiritual transformation Rudolf Steiner What is the relationship between coming to see the secrets of the universe and one's own view of the world How far must one go before finding the higher worlds on the path of natural science Do cosmic forces influence all of humanity What connection do plants have with the human being and the human body In answering these questions Steiner covers a wide range of topics from the development of independent thinking and the ability to think backward to the uses of what seems boring and the reversal of thinking between the physical and spiritual worlds and from the physiology of dreams to living into nature and the spiritual dimension of various foods we eat As always in his lectures to the workers Steiner's style is clear direct and accessible This volume is a translation from German of four lectures from *Rhythmen im Kosmos und im Menschenwesen Wie kommt man zum Schauen der geistigen Welt* GA 350 *The New Essential Steiner* Rudolf Steiner, Robert A. McDermott, 2009-10 12 lectures Hamburg May 5 31 1908 CW 103 During Pentecost 1908 seven years after he had given the world his book *Christianity As Mystical Fact* and the first intimation of the consequences of his Christ experience Rudolf Steiner began his great work of renewing humanity's understanding of the Mystery of Golgotha and its meaning for human and earthly evolution Accordingly he turned to the deepest most spiritual of the Gospels that of the initiate St John In this lecture course readers will find that the incarnation death and resurrection of the Divine Word or Logos reveals the mission of the Earth Love We learn of the mysteries behind Lazarus resurrection the I AM sayings and the seven degrees of initiation We come to understand that the Gospel of St John is a continuing spiritual presence to be recalled meditated and permeated with one's own life In doing so we realized that our purpose and that of all humankind is to become the Virgin Sophia a receptacle for the Holy Spirit All of Steiner's work as Marie Steiner writes in her introduction was to pave the way to Christ Indeed at the conclusion of these lectures Rudolf Steiner said It will come to be understood that Christianity is only beginning its influence and will fulfill its real mission only when it is understood in its true spiritual form The more these lectures are understood in this sense the better they will be understood as they were intended This volume is

essential if one is to truly understand Rudolf Steiner's understanding of esoteric Christianity and its place in the world today and in the future This volume is a translation of Das Johannes Evangelium GA 103 **Into the Heart's Land** Henry Barnes, 2005-08 Henry Barnes the author of A Life for the Spirit brings us a comprehensive view of the roots and development of anthroposophy throughout North America From its seminal beginnings with a few hearty souls in New York City it moved across the prairies to the west coast and beyond to Canada Mexico and Hawaii and took root in the hearts and minds of the new world Here is the story of those adventurous spirits who took responsibility for bringing the work of Rudolf Steiner to North America in the form of study groups agricultural initiatives Waldorf and special education the arts and so much more **Subject Guide to Books in Print**, 1991 Ripples of Peace Rae Thompson, 2004 Bookseller, 1998

chronicled in detail alongside reports from the first public performance onwards Rudolf Steiner offers inspiration to the original eurythmists to make their own discoveries to perceive and fashion in movement their creative inner voice The artistic principles are established for later development and elaboration to reveal and foster human creativity in many poetic and musical contexts Through the text links between eurythmy and temple dances that accompanied ancient initiations gradually emerge The impulse to dance is rediscovered as inherent in the lost Word or the primordial root language still available in genetic etymology the sounds of speech used in all languages Music eurythmy we learn did not start from dancing but from the archetypal structure of the musical system Consequently we can witness directly how an eloquent performing art can properly develop when technique and inspiration meet The text is supported by extensive supplementary material including eurythmy forms a chronological survey notes and indexes

Eurythmy and Rudolf Steiner Tatiana Kisseleff, 2021-07-15 In the autumn of 1912 Rudolf Steiner presented the first eurythmy performance It marked the revival in modern form of the sacred art of dance which had been used in the ancient Mysteries to express the movements of the stars and the planets In the years that followed Steiner and his wife Marie von Sivers developed eurythmy further broadening it beyond the artistic to encompass healing and educational elements as well One of the pioneers of this new form of movement was the Russian anthroposophist Tatiana Kisseleff who became a student of Steiner's and later a celebrated eurythmy teacher In this remarkable book available for the first time in English Kisseleff describes the spiritual foundations of eurythmy as they were explored in Steiner's lectures and recounts the instruction she received from him This is both an eyewitness account of the origins of eurythmy and a record of a deeply personal journey of one person's efforts to master it The book is illustrated throughout with photographs drawings facsimile reproductions from notebooks and posters advertising early eurythmy performances alongside accounts of performances of various pieces including Shakespeare's *The Tempest* Goethe's *Faust* and Rudolf Steiner's own *Mystery Dramas* This is a fascinating account for eurythmists and anyone who wants to delve more deeply into eurythmy's history and development
