**The end of animal life: a start for ethical debate** Franck L.B. Meijboom,Elsbeth N. Stassen,2023-08-07 Killing

animals is common practice yet it is not morally neutral The end of animal life is related to many societal and ethical questions and concerns Questions such as how long should we continue to treat an animal before putting it down But also the question whether it could be legitimate to kill individual animals for the welfare of the herd or of future generations The ongoing public and academic discussions on these and on other well known questions like those related to the killing of animals for food or for scientific purposes show that there is no one standard evaluation of animal life This book is an edited volume that enables the reader to get a grip on that plurality of views with regard to animals It helps to deal with the many questions related to the end of animal life The chapters show how the plurality of views on killing animals is related to moral presuppositions by providing a clear overview of the ethical views on end of life decisions Furthermore the book contains a number of applied studies of the ethical questions related to killing animals in various practices including small animal practice wildlife management fishing and fish farming animal experimentation and livestock farming These chapters can help veterinarians scientists students policy makers and many other professionals working with animals to easily get a good overview of the issues at stake and may contribute to responsible decision making with regard to the end of animal life

Using Animals in Intramural Research ,1999      *The Psychology of the Human-Animal Bond* Christopher Blazina,Güler Boyraz,David Shen-Miller,2011-06-22 There have been dramatic increases in the financial emotional and psychological investment in pets over the past four decades The increasing importance of animal companions in people's lives has resulted in growing emphasis on the human animal bond within academic literature This book introduces practicing and emerging professionals to vital subject matter concerning this growing specialty area by providing an essential framework and information through which to consider the unique contextual backdrop of the human animal bond Such contexts include a wide array of themes including issues of attachment and loss success and frustration with making and sustaining connections world views regarding animal ethics familial history of neglect or abuse and cultural dynamics that speak to the order of things between mankind and nature Adopting a contextual stance will aid mental health professionals in appreciating why and how this connection has become a significant part of everyday life for many As with any other important clinical dynamic training and preparation are needed to gain competence for professional practice and research To this end an ensemble of international experts across the fields of psychology and mental health explore topics that will help both new and established clinicians increase and understanding of the various ways the human animal bond manifests itself Perspectives from beyond the scope of psychology and mental health such as anthropology philosophy literature religion and history are included to provide a sampling of the significant contexts in which the human animal bond is established What brings these divergent topics together in a meaningful way is their relevance and centrality to the contextual bonds that underlie the human animal connection This text will be a valuable resource that provides opportunities to deepen one's expertise in understanding the psychology of the human animal bond      **Companion Animal Bereavement** Angela Garner,2021-10-06 This concise

workbook is written as a guide for veterinary professionals to support owners through the many challenges they face before and after the death of their companion animal. This unique text provides a wealth of practical advice to be used when supporting both adults and children through the grief process. It offers support when discussing subjects such as natural death versus euthanasia and guiding owners through after death services. Also, it covers the difficulties experienced by owners due to separation for other reasons such as when a pet has to be rehomed.

**Companion Animal Ethics** Peter Sandøe, Sandra Corr, Clare Palmer, 2015-09-14. Companion Animal Ethics explores the important ethical questions and problems that arise as a result of humans keeping animals as companions. The first comprehensive book dedicated to ethical and welfare concerns surrounding companion animals. Scholarly but still written in an accessible and engaging style. Considers the idea of animal companionship and why it should matter ethically. Explores problems associated with animals sharing human lifestyles and homes such as obesity, behavior issues, selective breeding, over treatment, abandonment, euthanasia, and environmental impacts. Offers insights into practical ways of improving ethical standards relating to animal companions.

*Handbook of Veterinary Communication Skills* Carol Gray, Jenny Moffett, 2013-05-23. This is the first definitive textbook on veterinary communication written specifically for students and veterinary professionals by a group of international experts. Communication is a core clinical skill and is now taught as a compulsory part of most veterinary degree courses. Good communication is crucial to the veterinarian-client/patient relationship, to patient health, and ultimately to the success of any veterinary business. The book covers all the key areas of communication, including the basic framework for the veterinary consultation, professional ethical and legal aspects, communication with clients and colleagues, and coping with end of life and other difficult situations. It combines the most up to date research with a wealth of practical information such as real life case studies to help you apply your learning to real scenarios. Simple step by step guidelines showing you how to deal with specific situations. Examples of written resources you can use in practice. This valuable textbook has been written and edited by a carefully chosen group of specialists comprising veterinary communication lecturers, veterinary practitioners, training managers, and counsellors.

**Evolutionary Perspectives on Death** Todd K. Shackelford, Virgil Zeigler-Hill, 2019-10-21. The latest volume in this multidisciplinary series on key topics in evolutionary studies. Evolutionary Perspectives on Death provides an evolutionary analysis of mortality and the consideration of death. Bringing together noted experts from a variety of fields, the books emanate from conferences held at Oakland University and are dedicated to providing wide ranging and occasionally provocative views of human evolution. The volume on death covers topics from biology, anthropology, psychology, sociology, and philosophy, with contributors addressing how evolution informs the process of comprehending, grieving, depicting, celebrating, and accepting death. Among the topics covered: Evolutionary perspectives on the loss of a twin, Nonhuman primate responses to death, Death in literature, Witnessing and representing the death of pets, The role of human decomposition facilities in shaping American perspectives on death. This insightful volume showcases

groundbreaking empirical and theoretical research addressing death and mortality from an evolutionary perspective  
demonstrating the intellectual value of an interdisciplinary approach to understanding psychological processes and behavior
