## Evaluacion De Los Alumnos La:

**La evaluación de los alumnos** Philippe Perrenoud,2008 En este texto Philippe Perrenoud ingresa y se extiende sobre un tema recurrente en la discusión didáctica y pedagógica actual la evaluación de los aprendizajes y su relación con la fabricación de las clasificaciones de las que dependen el éxito y fracaso escolares La evaluación de los alumnos desentraña la relación entre evaluación y decisión que impregna de sentido las prácticas de evaluación en las que se involucran actores individuales o institucionales casi siempre provistos de razones cuyas racionalidades son limitadas y muchas veces contradictorias Es desde esta perspectiva que el autor se interesa por desplegar en su complejidad el problema de la evaluación de los aprendizajes como parte de un sistema de acción en el que se articulan diversas lógicas de trabajo la de la selección y la formación las del reconocimiento y la negación de las desigualdades El abordaje se realiza desde un enfoque sociológico que considera los aportes de Pierre Bourdieu y Michel Foucault pero sin dejar de lado los de la Didáctica con las influencias de Yves Chevallard y Linda Allal los de la docimología la psicométrica y la psicopedagogía El lector no encontrará en estas páginas un modelo ideal de evaluación ni una reflexión acerca de la medida sino que hallará una presentación de la evaluación formativa como una propuesta que introduce una ruptura con la evaluación tradicional normativa La verdadera evaluación formativa nos dice Perrenoud está unida a una intervención diferenciada y adquiere sentido en el marco de una estrategia pedagógica de lucha contra el fracaso y las desigualdades
