

## Speaking of research

### Guidelines for evaluating research articles

Phillip Rumrill\*, Shawn Fitzgerald and  
Megen Ware

Kent State University, Department of Educational  
Foundations and Special Services Center for  
Disability Studies, 405 White Hall, P.O. Box 5190,  
Kent, OH 44242-0001, USA

The article describes the components and composition of journal articles that report empirical research findings in the field of rehabilitation. The authors delineate technical writing strategies and discuss the contents of research manuscripts, including the Title, Abstract, Introduction, Method, Results, Discussion, and References. The article concludes with a scale that practitioners, manuscript reviewers, educators, and students can use in critically analyzing the content and scientific merits of published rehabilitation research.

**Keywords:** Evaluation, research articles, guidelines for critique

#### 1. Introduction

The purpose of this article is to examine the components of a research article and provide guidelines for conducting critical analyses of published works. Distilled from the American Psychological Associa-

Evaluating Research in Communication Disorders Robert F. Orlikoff, Nicholas E. Schiavetti, Dale Evan Metz, 2014-02-26

This is the eBook of the printed book and may not include any media website access codes or print supplements that may come packaged with the bound book This carefully organized engaging comprehensive and contemporary guide to analyzing research articles has become a classic in the field With its primary focus on reading understanding and evaluating

professional literature and its emphasis on the different research designs and types of publications that can inform all components of evidence based practice Evaluating Research in Communication Disorders 7 e gives readers a logical highly useful organization that reduces redundancy and improves efficiency focused study questions that help develop critical evaluation skills and guide student projects that involve the evaluation of research literature and up to date references current research and new topics keep readers aware of the most contemporary findings in the field

**Evaluating and Conducting Research in Audiology** Vinaya Manchaiah, Eldré Beukes, Ross J. Roeser, 2021-02-04 Evaluating and Conducting Research in Audiology is the first research methods textbook that is specific to the field of audiology and designed to serve as an academic textbook for audiology graduate students This text can also be accessible for audiology practitioners who are interested in clinical and applied research The comprehensive coverage includes materials for multiple courses within audiology degree programs including research methods analysis of professional literature evidence based practice and capstone research projects Classroom tested and written by authors who have extensive backgrounds in publishing and editing this text provides knowledge that is required in evaluating conducting and disseminating research The book is separated into three sections a research methods b evidence based practice and c conducting and disseminating research Together these sections provide a detailed coverage of the research methods that are relevant to conducting research particularly in the field of Audiology Key Features Learning outcomes at the beginning of each chapter End of chapter reviews including key points and study questions Audiology specific examples research methods and study designs Golden Nugget boxes throughout the book containing valuable information related to the critical concepts In depth discussion of qualitative research methods survey research methods and systematic reviews to motivate students and early career researchers to consider these methodologies in their research

Stuttering Research and Practice Nan Bernstein Ratner, E. Charles Healey, 1999-02 A comprehensive state of the art overview of the new understanding of the complexities of stuttering and its remediation that is emerging from current research

Evidence-Based Treatment of Stuttering Anne K. Bothe, 2004-07-19 This book is the result of a State of the Art Conference held at the University of Georgia dedicated to the evidence based treatment of stuttering An international group of prominent fluency researchers and clinicians were invited to present and discuss current data and issues related to the treatment of stuttering The topic was defined to include evidence about stuttering evidence about stuttering treatment and discussions of how that evidence should guide the continuing research and practice The explicit link between empirical evidence and suggestions for clinical practice is the goal of the book The book begins by addressing the notion of evidence based practice and considers its implications for stuttering treatment Part II presents the intersection of the nature of stuttering the theories of stuttering and the implications of nature theory and other knowledge for stuttering treatment decisions Part III provides two of the many measurement issues facing stuttering treatment followed by Part IV which is devoted to the quality of treatment research

evidence for specific treatments and in terms of some more general methodological and professional issues The final part summarizes the clinical recommendations made throughout the book and discusses evidence based outcomes focused clinical decisions for stuttering These chapters are intended to provide state of the art information to researchers clinicians and students who are interested in developing identifying or using the best possible evidence based treatments for stuttering
