Evaluating Higher Education:

Handbook on Measurement, Assessment, and Evaluation in Higher Education Charles Secolsky, D. Brian Denison, 2017-07-31 In this valuable resource well known scholars present a detailed understanding of contemporary theories and practices in the fields of measurement assessment and evaluation with guidance on how to apply these ideas for the benefit of students and institutions Bringing together terminology analytical perspectives and methodological advances this second edition facilitates informed decision making while connecting the latest thinking in these methodological areas with actual practice in higher education This research handbook provides higher education administrators student affairs personnel institutional researchers and faculty with an integrated volume of theory method and application Assessment for Excellence Alexander W. Astin, Anthony Lising Antonio, 2012-07-13 The second edition of Assessment for Excellence arrives as higher education enters a new era of the accountability movement In the face of mandates such as results based funding and outcomes based accreditation institutions and assessment specialists are feeling increasingly pressured to demonstrate accountability to external constituencies The practice of assessment under these new accountability pressures takes on special significance for the education of students and the development of talent across the entire higher education system This book introduces a talent development approach to educational assessment as a counter to prevailing philosophies illustrating how contemporary practices are unable to provide institutions with meaningful data with which to improve educational outcomes It provides administrators policymakers researchers and analysts with a comprehensive framework for developing new assessment programs to promote talent development and for scrutinizing existing policies and practices Written for a wide audience the book enables the lay reader to quickly grasp the imperatives of a properly designed assessment program and also to gain adequate statistical understanding necessary for examining current or planned assessment policies More advanced readers will appreciate the technical appendix for assistance in conducting statistical analyses that align with a talent development approach In addition institutional researchers will benefit from sections that outline the development of appropriate student databases Assessment in Higher Education John Heywood, 2000 This book examines not only the assessment of student learning but the assessment of institutions the programmes they offer and the teaching they provide It describes in detail the significant developments that have taken place over the last decade in the field and clarifies the different meanings of the term assessment that are now in use *Assessment Matters in Higher Education* Sally Brown, Angela Glasner, 1999-02-16 Assessment really does matter in higher education Internationally academics and those who support them are seeking better ways to assess students recognizing that diverse methods are available which may solve many of the problems associated with the evaluation of learning *Assessment Matters in Higher Education* provides both theoretical perspectives and pragmatic advice on how to conduct effective assessment It draws clearly on both relevant research and on its contributors practical first hand experience warts and all It asks for example how

can assessment methods best become an integral part of learning what strategies can be used to make assessment fairer more consistent and more efficient how effective are innovative approaches to assessment and in what contexts do they prosper to what extent can students become involved in their own assessment how can we best assess learning in professional practice contexts This is an important resource for all academics and academic managers involved in assessing their students

Assessment Essentials Trudy W. Banta, Catherine A. Palomba, 2014-09-09 A comprehensive expansion to the essential higher education assessment text This second edition of Assessment Essentials updates the bestselling first edition the go to resource on outcomes assessment in higher education In this thoroughly revised edition you will find in a familiar framework nearly all new material examples from more than 100 campuses and indispensable descriptions of direct and indirect assessment methods that have helped to educate faculty staff and students about assessment Outcomes assessment is of increasing importance in higher education especially as new technologies and policy proposals spotlight performance based success measures Leading authorities Trudy Banta and Catherine Palomba draw on research standards and best practices to address the timeless and timeliest issues in higher education accountability New topics include Using electronic portfolios in assessment Rubrics and course embedded assessment Assessment in student affairs Assessing institutional effectiveness As always the step by step approach of Assessment Essentials will guide you through the process of developing an assessment program from the research and planning phase to implementation and beyond with more than 100 examples along the way Assessment data are increasingly being used to guide everything from funding to hiring to curriculum decisions and all faculty and staff will need to know how to use them effectively Perfect for anyone new to the assessment process as well as for the growing number of assessment professionals this expanded edition of Assessment Essentials will be an essential resource on every college campus

Assessing Organizational Performance in Higher Education Barbara A. Miller, 2016-05-10 The book provides a full complement of assessment technologies that enable leaders to measure and evaluate performance using qualitative and quantitative performance indicators and reference points in each of seven areas of organizational performance While these technologies are not new applying them in a comprehensive assessment of the performance of both academic and administrative organization in higher education is a true innovation *Assessing Organizational Performance in Higher Education* defines four types of assessment user groups each of which has unique interest in organizational performance This offers a new perspective on who uses performance results and why they use them These varied groups emphasize that assessment results must be tailored to fit the needs of specific groups that one size fits all does not apply in assessment An assessment process must be robust and capable of delivering the right information at the right time to the right user group

Planning and Assessment in Higher Education Michael F. Middaugh, 2011-01-25 PLANNING AND ASSESSMENT IN HIGHER EDUCATION Demonstrating Institutional Effectiveness In this era of increasing pressure on higher education institutions for accountability Planning and Assessment in Higher

Education is an essential resource for college and university leaders and staff charged with the task of providing evidence of institutional effectiveness Michael F Middaugh a noted expert in the field shows how colleges and universities can successfully measure student learning and institutional effectiveness and use these results to create more efficient communications with both internal and external constituencies as well as promote institutional effectiveness to support student learning How can the assessment of institutional effectiveness be used to provide a solid foundation for planning Middaugh has crafted a comprehensive practical guide that also explains what accrediting agencies really want and need to know about these topics Elizabeth H Sibolski executive vice president Middle States Commission on Higher Education Only Michael Middaugh the unquestioned national leader in this field could write such a lucid overview of how to make institutional assessment and planning really work as a tool rather than as a tedious requirement He helped invent and shape the focus of national assessment rubrics and now offers his insights into how to make them work for your institution John C Cavanaugh chancellor Pennsylvania State System of Higher Education Middaugh provides extremely helpful and practical guidance and insights on how colleges and universities can use assessment tools and frameworks to improve both academic programs and administrative operations A valuable and timely book for all higher education leaders James P Honan senior lecturer on education Harvard Graduate School of Education *Evaluating Student Learning in Higher Education: Beyond the Public Rhetoric* William H. Rickards, Monica Stitt-Bergh, 2016-09-26 Evaluation has played a fundamental role throughout the history of higher education It has been key to institutional missions and for accountability concerns for public funding policy and fiscal oversight In the last 30 years there has been focused attention on the quality of education and student learning Campuses have stepped up their initiatives to evaluate educational outcomes and communicate these to their constituencies just as regional state and national efforts have emerged regarding assessment of learning outcomes In this context various methods and approaches to evaluative inquiry have emerged to support efforts to increase the effectiveness and efficiency of instructional practice and curriculum for higher learning This edition examines perspectives on evaluation studies addressing higher education learning from program to institution based studies and critiques of practice to document successes and identify significant challenges that face evaluators and the collaborating educators in the continuing development of higher education This examination represents both an investigation into the particular insights that evaluative inquiry contributes to the scholarship and practice of higher education and a reflection on the evaluation expertise that can be applied across contexts of professional practice and program development This is the 151st issue in the New Directions for Evaluation series from Jossey Bass It is an official publication of the American Evaluation Association

Grading the College Scott M. Gelber, 2020-06-23 A comprehensive history of evaluation in American higher education In Grading the College Scott M Gelber offers a comprehensive history of evaluating teaching and learning in higher education He complicates the conventional narrative that portrays evaluation as a newfangled assault on the integrity of higher

education while acknowledging that there are many compelling reasons to oppose those practices The evaluation of teaching and learning Gelber argues presented genuine dilemmas that have attracted the attention of faculty members and academic leaders since the 1920s Especially during the peak era of faculty authority that followed the end of the Second World War significant numbers of professors and administrators believed that evaluation might improve institutional performance reduce the bias inherent in traditional methods of supervision strengthen communication with laypersons and encourage a more deliberate focus on the distinctive goals of college Gelber reveals the extent to which professors and academic interest groups participated in the development of our most common evaluation instruments including student course questionnaires achievement tests surveys rubrics rankings and accreditation self studies Although these efforts may seem distant from the present era of shortsighted scrutiny and ill conceived comparisons Gelber demonstrates that the evaluation of college teaching and learning has long consisted of a set of intellectually sophisticated questions that have engaged and could continue to engage faculty members and their advocates By providing a deeper understanding of how evaluation operated before the dawn of high stakes accountability Grading the College seeks to promote productive conversations about current attempts to define and measure the purposes of American higher education

Assessing Student Learning in Higher Education George A Brown, Joanna Bull, Malcolm Pendlebury, 2013-10-14 There is no doubt about the importance of assessment it defines what students regard as important how they spend their time and how they come to see themselves it is a necessary part of helping them to learn This text provides background research on different aspects of assessment Its purpose is to help lecturers to refresh their approach to the assessment of student learning It explores the nature of conventional assessment such as essays and projects and also considers less widely used approaches such as self and peer assessment There are also chapters devoted to the use of IT the role of external examiners and the introduction of different forms of assessment With guidelines suggestions examples of practice and activities this book will become a springboard for action discussion and even more active learning

Evaluating Higher Education Jeanne Lamoure-Rontopoulou, 1999 High level knowledge is no longer enough for future managers their qualifications must integrate know how and behaviors that will allow them the necessary adaptability to change The external evaluation proposed in this study does not exclude nor contradict other evaluation procedures The best way to obtain efficiency and transparency in the functioning of institutions is the integration of evaluation in their regular management process itself

Assessment in Higher Education Samuel J. Messick, 2013-12-16 Assessment in Higher Education brings together in one place most of the major issues confronting higher education in the 1990s These include enhancing student access development and success in higher education transforming admissions testing to meet expanding educational needs resolving the politics of accountability by assessing quality outcomes of higher education assuring fair assessment responsive to human diversity and facing the technological future of higher education An integrative thread that weaves through all of these issues is the concept of equity especially as

it bears on social justice in education and on fairness in assessment Another integrative thread is the role of computer and multimedia technology not only in improving the efficiency and power of all the functions of higher education assessment but also in revolutionizing the delivery of higher education itself

Assessing Student Learning and Development T. Dary Erwin, 1991-03-26 This book is a practical hands on guide to assessing student learning and development in higher education In engaging nontechnical language the book describes the key issues strategies terminology and challenges in developing an assessment program within an academic department or a student affairs office It offers step by step guidance for determining what is to be assessed and for defining program objectives

Evaluating Higher Education Maurice Kogan, 1989 Papers from the International Journal of Institutional Management in Higher Education Centre for Educational Research and Innovation Organisation for Economic Co operation and Development

Dimensions of Evaluation Urban Dahllöf, 1991 This book addresses primary issues in evaluation in an international a national and a long term perspective The essays demonstrate that arguments about the nature and techniques of evaluation must entail far broader considerations than those often promoted by policy makers

Innovative Practices for Higher Education Assessment and Measurement Cano, Elena, Ion, Georgeta, 2016-07-18 Both educators and their students are involved in the process of assessment all parties are expected to meet and exceed expectations in the face of competing conditions New practices are being developed to enhance students participation especially in their own assessment be it though peer review reflective assessment the introduction of new technologies or other novel solutions Though widely researched few have measured these innovations effectiveness in terms of satisfaction perceived learning or performance improvements Innovative Practices for Higher Education Assessment and Measurement bridges the gap between political discourse theoretical approach and teaching practices in terms of assessment in higher education Bringing new insights and presenting novel strategies this publication brings forth a new perception of the importance of assessment and offers a set of successful innovative practices This book is ideal for educators administrators policy makers and students of education

Making a Difference Trudy W. Banta, 1993-10-27 Making a Difference presents a comprehensive account of the best practices and lessons learned in outcomes assessment The book brings together detailed first person accounts by the most successful practitioners in the field to show how assessment findings have been used to improve programs student services and student learning

Exemplars of Assessment in Higher Education Jane Marie Souza, Tara A. Rose, 2023-07-03 Co published with While assessment may feel to constituents like an activity of accountability simply for accreditors it is most appropriate to approach assessment as an activity of accountability for students Assessment results that improve institutional effectiveness heighten student learning and better align resources serve to make institutions stronger for the benefit of their students and those results also serve the institution or program well during the holistic evaluation required through accreditation from the foreword by Heather Perfetti President of the Middle States Commission on Higher Education Colleges and universities struggle to

understand precisely what is being asked for by accreditors and this book answers that question by sharing examples of success reported by schools specifically recommended by accreditors This compendium gathers examples of assessment practice in twenty four higher education institutions twenty three in the U S and one in Australia All institutions represented in this book were suggested by their accreditor as having an effective assessment approach in one or more of the following assessment focused areas assessment in the disciplines co curricular course program institutional assessment equity and inclusion general education online learning program review scholarship of teaching and learning student learning or technology These examples recommended by accrediting agencies makes this a unique contribution to the assessment literature The book is organized in four parts Part One is focused on student learning and assessment and includes ten chapters The primary focus for Part Two is student learning assessment from a disciplinary perspective and includes four chapters Part Three has a faculty engagement and assessment focus and Part Four includes four chapters on institutional effectiveness and assessment with a focus on strategic planning This book is a publication of the Association for the Assessment of Learning in Higher Education AALHE an organization of practitioners interested in using effective assessment practice to document and improve student learning
