Evaluating Palliative Care Establishing The Evidence Base

Esther Chang, Amanda Johnson

Evaluating Palliative Care Establishing The Evidence Base:

Evaluating Palliative Care Margaret Robbins,1998 The past thirty years has seen a huge expansion in the provision of palliative care services Because Palliative Medicine is a multidisciplinary specialty combining the expertise of oncologists anaesthetists nurses and many other therapeutic groups the effectiveness of such treatment can be very difficult to measure Additionally research involving terminally ill patients and their carers can also present a number of practical and ethical problems In spite of this current health policy demands evidence of effectiveness and value for money of health service interventions at all levels of complexity including the service level **Evaluating Palliative Care Establishing the Evidence Base** provides an introduction to the theory and practice of the evaluation of palliative care services It examines the methodological issues involved in the evaluation of palliative care and outlines a practical approach that is readily applicable to many other health care interventions In particular research issues involving terminally ill patients and their carers are analysed and discussed and approaches suggested for future work

Evaluating Palliative Care Dr. Margaret Robbins,1998 This text provides an introduction to the theory and practice of the evaluation of palliative care services In particular research issues involving terminally ill patients and their carers are analysed and discussed

Evidence-Based Palliative Care H. H. Abu-Saad,2008-04-15 This book describes the current state of the art in the field of palliative care in children and adults Special emphasis is placed on addressing the efficacy and effectiveness of palliative care models pain and symptom management and on measuring quality of life In addition the book evaluates current research methods in palliative care and suggests suitable alternatives Finally the book bridges the gap between science and practice by providing the reader with the current evidence and how it can be applied in the practice setting

Research Methods in Palliative Care Julia M Addington-Hall,2007-06-07 The research base for palliative care must improve as it continues to develop in increasingly evidence based health care systems and to provide the needs of patients and families This is the first research methods textbook focusing on the unique needs of palliative care aimed at improving current research and stimulating new research in the field

Delivering Cancer and Palliative Care Education Lorna Foyle,Janis Hostad,2018-12-14 The quality of cancer and palliative care is going through unprecedented change and development as a result of policy initiatives The impact of these policies on education is unparalleled and it is essential that clinicians and educationalists are aware of the policy formation processes and educational strategies that meet the demands of these changing times This book takes a holistic approach to patient care and draws on the diverse experience in hospices and highlights best practice to present a comprehensive and practical guide However it does more New topics are given an educational perspective those with limited educational experience are given sound advice the implication of policy change is outlined This is an important book and one which should be read by all clinicians educators and managers responsible for improving services in cancer and palliative care

Palliative Care Elaine Stevens,Janette Edwards,2008-09-15 Editors Preface Introduction 1 Introduction to palliative

care 2 Essential concepts 3 Generic assessment in palliative care 4 Anxiety and depression 5 Breathlessness 6 Fatigue 7 Pain 8 Quality improvement Glossary Abbreviations *Textbook of Palliative Nursing* Department of Nursing Education and Research City of Hope National Medical Center Betty R. Ferrell Research Scientist, Supportive Care Program Nessa Coyle Director, Pain & Palliative Service Department of Neurology Memorial Sloan-Kettering Cancer Center, 2005-11-10 Originally published in 2001 the *Textbook of Palliative Nursing* has become the standard text for the field of hospice and palliative care nursing In this new edition the authors and editors have updated each chapter to ensure that the content is evidence based and current references are included They also have retained the important focus on case studies throughout the text and practical clinically relevant tables figures and other resources Like the previous edition this text has an introductory section of the general principles of palliative care followed by a comprehensive section on symptom assessment and management encompassing twenty one different symptoms Other key sections include psychosocial support and spiritual care providing holistic perspective on care of patients facing advanced disease The text also includes an innovative section on special populations addressing those most in need of palliative care The textbook is a useful resource for all nurses with the excellent section on end of life care across settings In this new edition the pediatric palliative care section has been greatly expanded and includes seven separate chapters on pediatric care It includes a section on special issues addressing topics such as ethical considerations nursing research and public policy perspectives and concludes with a section presenting models of excellence including six international models This edition also offers a narrative on dying based on a spouse's perspective The text includes an appendix with an extensive list of resources for nurses in the field *Rethinking Palliative Care* Paul Sinclair, 2007-04-04 The author argues for the de institutionalisation of palliative care and the development of an alternative framework for the institutional approaches found in hospices palliative care units and community based palliative care services Nursing Research Pam Moule, Margaret Goodman, 2009-02-18 This is a very welcome new book that will be of great value to those learning about research at all levels It will be particularly useful for students who have no previous research knowledge and will aid their understanding of process and theory greatly Dr Pat Colliety Senior Tutor Faculty of Health and Social Care University of Surrey Nursing Research leads the novice nurse researcher and student nurse through the main techniques and skills required of a practising nurse researcher The authors provide readers with key information to understand critically appraise and implement research in daily practice Written in an accessible and engaging manner the book encourages students and practitioners to think about the whole research process from reading the research of others to designing conducting and analyzing their own research Key features include coverage of all aspects of doing research from research design to data gathering and report writing key words chapter summaries and further readings in depth nursing based examples throughout an extensive companion website *Nursing Research An Introduction* is an invaluable resource to both students at upper undergraduate and graduate level as well practicing nurses undertaking research **Topics in**

Palliative Care Russell K. Portenoy, Eduardo Bruera, 1997

Global Perspectives on Palliative Care Karen

Bullock, 2025-06-04 Global Perspectives on Palliative Care is a compilation of twelve chapters consisting of research reports integrative literature reviews case studies and expert perspectives that explore palliative care through the lens of a global scope of practice across healthcare disciplines including social work nursing psychology and medicine All chapters are written by global researchers and edited by a leading expert in the field of serious illness care Each chapter is an original work that is transferable across various health settings patient populations and levels of professional specialties intended to promote culturally inclusive and equitable care across illness disease conditions aimed at relieving serious health related suffering whether physical psychological social or spiritual Textbook of Palliative Medicine Eduardo Bruera, Irene Higginson, Charles F von Gunten, 2009-01-30 Textbook of Palliative Medicine provides an alternative truly international approach to this rapidly growing specialty This textbook fills a niche with its evidence based multi professional approach and global perspective ensured by the international team of editors and contributing authors In the absence of an international curriculum for the study of palliative medicine this textbook provides essential guidance for those both embarking upon a career in palliative medicine or already established in the field and the structure and content have been constructed very much with this in mind With an emphasis on providing a service anywhere in the world including the important issue of palliative care in the developing nations Textbook of Palliative Medicine offers a genuine alternative to the narrative approach of its competitors and is an ideal complement to them It is essential reading for all palliative care physicians in training and in practice as well as palliative care nurses and other health professionals in the palliative care team
