Evaluation In The Classroom:

Assessment in the Classroom Peter W. Airasian, 1996 The special mission of Assessment in the Classroom is to show how assessment principles apply to the full range of teacher decision making from organizing the class as a social system to planning and conducting instructions to the formal evaluation of learning and finally to grading The goal is to show students that assessment is an everyday ongoing part of their teaching not some esoteric affair that is divorced from their daily routine With this in mind the following features have been built into this text
