Evaluation And Poverty Reduction:

Evaluation and Poverty Reduction Osvaldo N. Feinstein, Robert Picciotto, In his foreword the president of the World Bank James D Wolfensohn states plainly and precisely the rationale for this volume Evaluation is a central aspect of any poverty reduction endeavor Evaluation implies that we have adopted a methodology that allows us to look in an effective way at the results of what we are doing so that we can in turn adapt our future actions toward the effective achievement of our goals Evaluation adds value if we can learn something useful from it It is not just a scorecard It is something that helps us change our behavior or influence the behavior of others This high powered collection of papers illustrates this statement The network of world class scholars and development practitioners covers the gamut from methodological issues to policy concerns with respect to participatory evaluation poverty reducing growth macro and micro levels of intervention health nutrition and population programs social inclusion and the changing role of the civil society The participants include major figures including a Nobel Laureate as well as cutting edge policy makers Poverty reduction is examined in innovative ways utilizing state of the art techniques of the social and economic sciences The editors and contributors emphasize what works in poverty reduction programs They point to making interventions context specific with a holistic vision of the problem Contributors emphasize social funds and safety nets social services crisis prevention informal social security and insurance systems anti corruption programs mobilization of the poor and ultimately the creation where none existed in the past of a workable civil society In short this volume lies at the intersection of development economics and political economy It seeks to promote development effectiveness through social learning and problem solving The volume is unabashedly focussed on pro poor growth It has its roots in a conference sponsored by the Operations Evaluation Department an independent unit within the World Bank The goals of evaluation are to learn from experience to provide an objective basis for assessing the results of the Bank's work and to provide accountability in the achievement of its objectives Osvaldo N Feinstein is a manager and Robert Picciotto director general of the Operations Evaluation Department The World Bank is located in Washington D C with offices throughout the developing world

Evaluation and Poverty Reduction Osvaldo Néstor Feinstein, Robert Picciotto, 2000-01-01 Many different organizations and institutions around the world came together for a conference to discuss the meaning of evaluation in poverty reduction Their goals during the two day conference were first to identify lessons from past efforts to evaluate poverty reduction programs second to search for the new evaluation frontier in methodology for future poverty reduction programs and third to discuss how partnerships in evaluation can be promoted and how to use evaluation results more effectively This volume contains the proceedings of that conference *Evaluation and Poverty Reduction* Osvaldo N. Feinstein, 2017 Provided by publisher [Evaluation & Poverty Reduction - World Bank on Evaluation & Development](#) ,2001 [Social Research and Evaluation of Poverty Reduction Project](#) □□□□, 2013-02-28

Poverty Reduction Support Credits World Bank, 2010-05-21 This evaluation examines the relevance and effectiveness

of Poverty Reduction Support Credits PRSCs introduced by the Bank in early 2001 to support comprehensive growth improve social conditions and reduce poverty in IDA countries PRSCs were intended to allow greater country ownership provide more predictable annual support exhibit more flexible conditionality and strengthen budget processes in a results based framework By September 2009 the Bank had approved 99 PRSCs totaling some 7.5 billion and representing 38% percent of IDA policy based lending The evaluation finds that in terms of process PRSCs were effective in easing conditionality increasing country ownership and aid predictability stimulating dialogue between central and sectoral ministries and improving donor harmonization In terms of content PRSCs succeeded in emphasizing public sector management and pro poor service delivery Yet in terms of results it is difficult to distinguish growth and poverty outcomes in countries with PRSCs from other better performing IDA countries There is scope for further simplifying the language of conditionality and underpinning PRSCs with better pro poor growth diagnostics PRSCs can also strengthen their results frameworks and limit sector policy content in multi sector DPLs to high level or cross cutting issues Today Bank policy has subsumed PRSCs under the broader mantle of Development Policy Lending and the rationale for a separate brand name although differences linger from the past Since PRSCs and other policy based lending have gradually converged in design remaining differences compared to other Development Policy Loans should be clearly spelled out or the separate PRSC brand name should be phased out

The Reality of Aid 1996 Judith Randel, Tony German, 2013-11-05 Should be on the shelf of any academic student NGO activist or politician with an interest in aid issues It should also be required reading for donor agency officials Development and Change As accessible as it is comprehensive has established itself as a reliable watchdog for anyone interested in this important aspect of international relations ORBIT Despite commitments to eradicate poverty 21 of the world's richest nations have slashed their aid to the world's poorest countries to just 0.3% of GNP its lowest level for more than 20 years In real terms aid in 1994 was below the 1990 level and with several donors planning further cuts it is likely that the aid level will continue to fall Now in its fourth annual edition The Reality of Aid critically examines the reality behind the rhetoric of development assistance and the discrepancy between the targets that the 21 member countries of the OECD Development Assistance Committee are publically committed to and the aid that is actually disbursed Part 1 of this year's edition includes analyses of the impact of the Copenhagen World Summit for Social Development and 2020 compact developing countries debt and their Northern creditors including banks and international financial institutions efforts to eradicate poverty a stated aim of development assistance the human and economic cost of the estimated 140 million unexploded landmines currently planted around the world and the impact of conflict and humanitarian need on development cooperation In a new section Part 2 presents perspectives from the South with contributors from India Cambodia Peru Zimbabwe Poland and Fiji Part 3 consists of detailed country by country profiles of the aid performance of the OECD donors and Part 4 reviews aid spending by Northern governments and NGOs with at a glance tables and charts which compare

donors performance on issues such as aid to basic health and education the priority given to poverty reduction the political management of aid and public attitudes to aid in developed countries Throughout information is summarized in easily interpreted figures and graphs First produced in 1993 The Reality of Aid has established itself as a unique source of independent evaluation and comment on aid policies and developments It is indispensable for all involved in development aid whether in the official or voluntary sectors Originally published in 1996 *World Bank Operations Evaluation Department*

Janardan Prasad Singh,2006-01-01 This series continues to strengthen its focus on results monitoring and evaluation The latest 2006 edition updates the implications of managing for results in World Bank operations assesses if monitoring and evaluation practices provide staff with information that helps them manage for results and looks at IEG's own effectiveness Its recommendations address ways to make monitoring and evaluation more effective and influential tools *Poverty, Inequality, and Evaluation* Ray C. Rist,Frederic P. Martin,Ana María Fernández,2015-10-15 The basic premise of this book is that the conversation on the future of development needs to shift from a focus on poverty to that of inequality The poverty emphasis is in an intellectual and political cul de sac It does not address the fundamental question of why people are poor nor what can be done structurally

and institutionally to reduce and eliminate it The various chapters illustrate in the context of various countries and sectors around the world the significant contributions that evaluators can make in terms of improvement of the analytical framework analysis of the performance and results of specific programs and projects as well as assessing and designing better public management systems in terms of poverty and inequality reduction Beyond the specific contributions presented three characteristics characterize those evaluations to be relevant for poverty and inequality analysis a global local approach Global to move beyond disciplinary boundaries and consider cross cutting issues local to account for the diversity of countries sectors institutions and cultures considered a problem solving orientation The issue evaluated is the core focus and determines the choice of evaluation methods to analyze this issue from a variety of angles an evolutionary approach Chapters presented are from iconoclasts who do not have any pre established theory or school of thought to defend This is the result of openness of mind and ability to adapt the analytical framework the evaluation methods and the interpretation of results in a constant interaction with the stakeholders Such characteristics make evaluation a domain that can help understand better complex issues like poverty inequality vulnerability and their interactions as well as propose a relevant and useful theory of change for public policies and projects to improve the plight of a large part of the world population in industrialized and developing countries alike

Debt Relief for the

Poorest Shonar Lala,Rupa Ranganathan,Brett Libresco,2006-01-01 This study evaluates progress under the HIPC initiative since IEG s 2003 evaluation It finds that the Enhanced HIPC initiative cut debt ratios in half for 18 countries but in eight of these countries the ratios have come to once again exceed HIPC thresholds Debt reduction alone is not a sufficient instrument to affect the multiple drivers of debt sustainability Sustained improvements in export diversification fiscal management the terms of new financing and public debt management are also needed measures that fall outside the ambit of the HIPC initiative

Debt Relief for the Poorest Madhur Gautam,2003 The Heavily Indebted Poor Countries HIPC Debt Initiative was designed to relieve the high external debt of some of the world s poorest nations The Initiative was put in place by the World Bank and the International Monetary Fund IMF in 1996 and enhanced in 1999 The HIPC Debt Initiative addresses a key obstacle to economic growth and poverty reduction but it also contains multiple and overly ambitious objectives This work is an independent evaluation which assesses the progress and prospects of the HIPC Debt Initiative achieving its objectives
