The Scandal of the Evangelical College Martin Spence, 2025-06-30 Despite heady claims about Christ centeredness Evangelical colleges are scandalously secular institutions in thrall to the regnant assumptions of the market economy and mainstream higher education Paradigms intended to integrate faith and learning often ironically fracture and distort Christianity Even the spiritual dimensions of the Christian college presumed to keep it safe from religious declension are prone to secularizing tendencies because the American Evangelical culture from which the college receives its spiritual cues and from which it accepts its donors money is itself captive to a set of sub biblical economic social and political assumptions This book argues that the cause of the scandal is the absence of the church in the imagination of the Evangelical college It therefore proposes that the mission and practice of the Evangelical college should be to summon equip and renew the people of God While this

may sound like a return to an obsolete bible school model of Christian education the ecclesial vision only sounds narrow because we lack a robust understanding of the vocation of the church itself By simultaneously restricting our vision of the Evangelical college while broadening our understanding of the church a more fully evangelical educational endeavor might emerge
