Evangelicals And Politics In Asia Africa And Latin America:

Evangelicals and Politics in Asia, Africa and Latin America Paul Freston, 2001 This book is a pioneering study of the political aspects of the new mass evangelical Protestantism of sub Saharan Africa Latin America and parts of Asia It examines twenty seven countries from the three major continents of the Third World burrowing deep into the specificities of each country s religious and political field Evangelicals and Electoral Politics in Latin America Taylor C. Boas, 2023-01-26 Why are religious minorities well represented and politically influential in some democracies but not others Focusing on evangelical Christians in Latin America this book argues that religious minorities seek and gain electoral representation when they face significant threats to their material interests and worldview and when their community is not internally divided by cross cutting cleavages Differences in Latin American evangelicals political ambitions emerged as a result of two critical junctures episodes of secular reform in the early twentieth century and the rise of sexuality politics at the turn of the twenty first In Brazil significant threats at both junctures prompted extensive electoral mobilization in Chile minimal threats meant that mobilization lagged In Peru where major cleavages divide both evangelicals and broader society threats prompt less electoral mobilization than otherwise expected The multi method argument leverages interviews content analysis survey experiments ecological analysis and secondary case studies of Colombia Costa Rica and Guatemala Evangelical Christianity and Democracy in Latin America Paul Freston, 2008-04-11 This series offers a comparative perspective on a critical issue the often combustible interaction of resurgent religion and the developing world s unstable politics This volume considers the case of Latin America where evangelical Protestantism is increasingly challenging the historical Catholic hegemony *New Centers of Global Evangelicalism in Latin America and Africa* Stephen Offutt, 2015-02-26 This book shows that new centers of Christianity have taken root in the global south Although these communities were previously poor and marginalized Stephen Offutt illustrates that they are now socioeconomically diverse internationally well connected and socially engaged Offutt argues that local and global religious social forces as opposed to other social economic or political forces are primarily responsible for these changes **African Evangelicalism and the Transformation of Africa** Jacob K. Olupona, 2025 What is the impact of Evangelical Christianity on Africa Evangelical Christianity and the Transformation of Africa will answer this question Evangelical Christianity is manifesting into a strong presence in African states perhaps more than in any other place in the world Given its exponential rise in Africa it is increasingly clear that Christianity in its evangelical form is exercising significant influence in virtually all spheres of life defining the essence of public and private life Drawing on original works from leading scholars in humanities and social science disciplines such as Afe Adogame Yolanda Covington Ward Jacob Olupona Derek Peterson Shobana Shankar and Nimi Wariboko this volume endeavors to produce a comprehensive study of Evangelical Christianity in Africa paying careful attention to disciplinary interconnections as well as social cultural political and economic forces Among other subjects essays in this volume address examples of

evangelical subjectivity and identity formation against the current political backdrops of Nigeria Kenya the Democratic Republic of Congo and other nations While the book works to convey the core elements of the evangelical movement across the African continent it recognizes the importance of its diverse manifestations giving additional focus to Pentecostal groups and their distinct social cultural and political engagements At the same time it works to correct the unwarranted saturation of attention given to Pentecostal Charismatic movements in recent scholarship and expands the study of evangelicalism in Africa into the sphere of mainline churches and extra ecclesial organizations Authors also reflect on the ways that the African diaspora and transnational ties contribute to the make up of contemporary African evangelicalism In short this edited volume examines how the centrality of religion in African affairs political economic cultural ideological domains has contributed to turning Evangelical Christianity into the official face of the Christian Church in Africa today

Evangelical Christianity and Democracy in Africa Terence O. Ranger, 2008-04-22 What happens when a revivalist religion based on scriptural orthodoxy participates in the volatile politics of the Third World This volume considers the case of Africa the region with the world's fastest expanding population Christianity especially in its evangelical and Pentecostal forms has acquired many millions of new adherents in Africa in recent decades The attitudes and behavior of these believers could have vast consequences for growth development and democratization In his Introduction editor Terence Ranger provides a historical overview The book then offers individual case studies of six countries Nigeria Zimbabwe South Africa Kenya Zambia and Mozambique The contributors mainly younger scholars based in Africa bring first hand knowledge to their chapters and employ both field and archival research to develop their data and analyses The result is a groundbreaking work that will be indispensable to everyone concerned with the future of this volatile region

Evangelical Christianity and Democracy in Asia David Halloran Lumsdaine, 2009 Although a minority of the Asian population Protestants in Asia are a fast growing group What are the political implications of this evangelical Christianity In some cases religion has enabled poor and marginalized people to gain greater prosperity self confidence and civic skills and more open minded and democratic societies But does religion have the kind of cultural currency needed to generate political changes in governments such as China's Evangelical Christianity and Democracy in Asia provides six case studies on China Western India Northeast India Indonesia South Korea and the Philippines The contributors mainly younger scholars based in Asia bring first hand knowledge to their chapters The result is a groundbreaking work indispensable to everyone concerned with the future of the region Evangelical Christianity and Democracy in Asia is one of four volumes in the series Evangelical Christianity and Democracy in the Global South and grew from a Pew funded study that sought to answer the question What happens when a revivalist religion based on scriptural orthodoxy participates in the volatile politics of the Third World At a time when the global political impact of another revivalist and scriptural religion Islam fuels debate these volumes offer an unusual comparative perspective

Brazilian Evangelicalism in the Twenty-First Century Eric Miller, Ronald J. Morgan, 2019-05-09

Over the past fifty years Brazil's evangelical community has increased from five to twenty five percent of the population. This volume's authors use statistical overview, historical narrative, personal anecdote, social scientific analysis, and theological inquiry to map out this emerging landscape. The book's thematic center pivots on the question of how Brazilian evangelicals are exerting their presence and effecting change in the public life of the nation. Rather than fixing its focus on the interior life of Brazilian evangelicals and their congregations, the book's attention is directed toward social expression, the ways in which Brazilian evangelicals are present and active in the common life of the nation.

Pentecostalism and Politics in Africa Adeshina Afolayan, Olajumoke Yacob-Haliso, Toyin Falola, 2018-06-29. As the epicenter of Christianity has shifted towards Africa in recent decades, Pentecostalism has emerged as a particularly vibrant presence on the continent. This collection of essays offers a groundbreaking study of the complex links between politics and African Pentecostalism. Situated at the intersection between the political, the postcolonial, and global neoliberal capitalism, contributors examine the roots of the Pentecostal movement's extraordinary growth, how Pentecostalism intervenes in key social and political issues such as citizenship, party politics, development challenges, and identity, and conversely how politics in Africa modulate the Pentecostal movement. *Pentecostalism and Politics in Africa* offers a wide-ranging picture of a central dimension of postcolonial African life, opening up new directions for future research.

The Hidden Form of Capital Peter L. Berger, Gordon Redding, 2011-10-01. *The Hidden Form of Capital* presents evidence from several parts of the changing world about how the realm of the spirit affects the economy. Instead of adding to the theoretical speculation on the role of culture in economic progress, this book provides evidence from recent analytical studies in Europe, Asia, Africa, Russia, and the United States.

Spirit and Power Donald E. Miller, Kimon H. Sargeant, Richard Flory, 2013-08-15. An exploration of the global growth and social and political impact of Pentecostalism.

Protestantism and Protestantization Tarald Rasmussen, Vegard Ree Ytterbøe, 2023-01-23. The authors presented in this volume deal with important cases of Protestantization of religion or of debates on religion. One chapter deals with Protestant formatting of contemporary Islam; another discusses how Pentecostal Protestantism has an important role in formatting religion outside Europe today. Two of the authors analyse contemporary debates on circumcision and investigate how Protestant preconceptions influence these debates. Finally, several authors deal with the complex question of how Protestant religion is related to modern Secularity, either as a point of departure for non-religion or as a point of departure for a Protestant understanding of secularity.

Propagandists of the Book Pedro Feitoza, 2024. Pedro Feitoza traces the history of Protestantism in Brazil through an analysis of the production and circulation of evangelical texts. Examining a wide range of periodicals, tracts, correspondence, and other archival records, and delving into the ideology of religious thinkers and evangelists of the time, Feitoza considers how Protestant veneration of the written word led to a complex infrastructure for the distribution of religious texts and the fostering of literacy in Brazil in the late 19th and early 20th centuries.

Global Pentecostalism in the 21st Century Robert W. Hefner, 2013-10-02. This state of the field

An Introduction to International Relations and Religion Jeffrey Haynes, 2014-04-23 Not so very long ago it seemed reasonable to assert that the influence of religion on global politics was on the wane As the Western world became increasingly secular and the process of globalisation deepened it seemed inevitable on the surface at least that the voice of religion was to be heard softly if it was to be heard at all This has now changed and changed perhaps irrevocably As Jeff Haynes argues in this thought provoking and important new book various religious actors are now significantly involved in international relations and have become a crucial influence on policy in a post Westphalian world International Relations and Religion guides the reader through the complex issues at the heart of this topic with clarity and insight This updated second edition starts with a close reading of the many theoretical and analytical concepts notably Huntington and the clash of civilisations that have grown up around this area and then concludes with a summary of the issues under discussion and attempts to put into context what it means to live in a world that is increasingly shaped by a whole host of diverse religious groups Essential reading for students of International Relations and Politics

Mission Partnership in Creative Tension Samuel Cueva, 2015-04-14 Samuel Cueva has refined his concept of partnership in mission by advocating the use of reciprocal contextual collaboration in this important contribution to scholarly reflection on contemporary missiology Referencing historical theological and functional aspects of how mission has been carried out as well as analyzing its impact on the evangelical movement the author identifies that mission always develops with positive and negative tensions Emphasizing an understanding of current missions which include traditional networking and emergent models and how they can be combined interconnected and interchanged the author proposes a fresh model that ensures the suitability for every mission context

Streams of Latin American Protestant Theology Ryan R. Gladwin, 2020-01-13 Although church historians often call the 19th century the Great Century of Protestant mission for Latin America it was the 20th century that was the great century of Protestant growth and expansion The 20th century witnessed vast societal

changes and the realization of systemic poverty and injustice as well as the exponential growth pentecostalization and diversification of Latin American Protestantism Latin American Protestant Theology emerged during this century of change This text provides an introduction to Latin American Protestant Theology by engaging its dominant theological streams Liberal Evangelical and Pentecostal and how they understand themselves through the lens of mission The text offers both a critique of the Christendom cartography that is dominant in Latin American Protestant Theology as well as suggestions for how to move towards a transformative theology of mission The primary intention of this text is to offer an informed outline and analysis of the theological landscape of Latin American Protestantism The secondary intention of this book is to note the contributions as well as deficiencies of the streams of LAPT in the hope to signal a possible path towards the development of an integral transformative contextual and decolonial theological voice

At Home and Abroad Elizabeth Shakman Hurd,Winnifred Fallers Sullivan,2021-03-02 From right to left notions of religion and religious freedom are fundamental to how many Americans have understood their country and themselves Ideas of religion politics and the interplay between them are no less crucial to how the United States has engaged with the world beyond its borders Yet scholarship on American religion tends to bracket the domestic and foreign despite the fact that assumptions about the differences between ourselves and others deeply shape American religious categories and identities At Home and Abroad bridges the divide in the study of American religion law and politics between domestic and international bringing together diverse and distinguished authors from religious studies

law American studies sociology history and political science to explore interrelations across conceptual and political boundaries They bring into sharp focus the ideas people and institutions that provide links between domestic and foreign religious politics and policies Contributors break down the categories of domestic and foreign and inquire into how these taxonomies are related to other axes of discrimination asking questions such as What and who counts as home or abroad how and by whom are these determinations made and with what consequences Offering a new approach to theorizing the politics of religion in the context of the American nation state *At Home and Abroad* also interrogates American religious exceptionalism and illuminates imperial dynamics beyond the United States
