## **Eve The History Of An Idea:**

Eve, the History of an Idea John A. Phillips, 1984 This study examines Eve as a prototype in religion mythology art history and literature finding in the vagaries of the evolving story of the first woman the key to Western attitudes toward all women through the centuries By showing just what the image of the Mother of All the Living has suffered at the hands of the shapers of the Eve tradition J A Phillips reveals the essential attitudes toward women that are our heritage From publisher description *A History of Ideas About the Prolongation of Life* Gerald Joseph Gruman, 2003-02-26 Dr Gruman s book examines the quest for longevity and immortality up to the year 1800 He presents multicultural perspectives and attitudes as depicted in Islamic and Chinese societies as well as in Western Civilization This scholarly work contributes to our understanding of the origins of medicine personal hygiene and public health as well as the underlying psychological and social determinants of longevity and humanity s longing for its attainment The Virgin Mary in the Perceptions of Women Joelle Mellon, 2008-04-10 Once the Virgin Mary was a pivotal element of Christianity a holy figure at the heart of most Christians spiritual lives She was invoked at all major life passages baptisms weddings childbirths and funerals and images of the Virgin Mary could be found virtually anywhere from pub signs to sacred texts Medieval women especially looked to Mary to answer their prayers be their role model and serve as their advocate in heaven They prayed to her several times a day and sometimes devoted their entire lives to her service This book investigates perceptions of the Virgin Mary through several centuries of literature Focusing especially on the depictions of the Virgin Mary in medieval and Renaissance manuscripts the author rediscovers a time when the Divine Female was very much in evidence and good Christian women were taught to pray to a Holy Mother Topics include the cyclical popularity of Virgin Mary devotional objects such as Books of Hours rosaries and Marian gardens the mystical qualities attributed to the Virgin Mary through centuries of reported divine visions the historical relationships between the Virgin Mary and other religious figures including the Devil and Mary Magdalene as an alternative to the Virgin Mary as a feminine model **The Routledge History of the Devil in the Western Tradition** Richard Raiswell, Michelle D. Brock, David R. Winter, 2025-05-29 Covering a period of 2000 years this book offers an interdisciplinary exploration of the devil s role in the Western tradition and draws from history religion art literature media studies and anthropology to provide a multifaceted view of the devil over time The Routledge History of the Devil in the Western Tradition examines topics such as the devil s scriptural origins medieval development and role in witch hunting and possession cases as well as the influence of the demonic on contemporary issues like terrorism political polarisation and digital culture Collectively this volume demonstrates that the demonological imagination has served as part of the glue holding Western societies together While contexts misfortunes and anxieties have shifted according to time and place many of the dynamics that underlie the devil s construction and detection have important continuities This book then provides an innovative history of the anti West the West as seen through its anxieties fears and attempts to define and police itself and its

boundaries With contributions from 28 leading scholars in the field this volume is of interest to all students and scholars of the devil in the Western world      **Hail Mary?** Maurice Hamington, 2014-04-23 Hail Mary examines the sexist and misogynist themes that underlie the socially constructed religious imagery of Mary the mother of Jesus Maurice Hamington explores the sources for three prominent Marian images Mary as the the blessed Virgin Mary the Mediatrix and Mary the second Eve Hamington critiques these images for the valorization of sexist forces with the Catholic Church that serve to maintain systems of oppression against women In challenging dominant religious representations of Mary Hamington surveys a variety of emerging reinterpretations of Mary He then provides a framework for further study of non alienating images of Mary

*History of the Concept of Mind* Paul S. Macdonald, 2019-07-23 Exploring the roads less travelled MacDonald continues his monumental essay in the history of ideas The history of heterodox ideas about the concept of mind takes the reader from the earliest records about human nature in Ancient Egypt the Ancient Near East and the Zoroastrian religion through the secret teachings in the Hermetic and Gnostic scriptures and into the transformation of ideas about the mind soul and spirit in the late antique and early medieval epochs These transitions include discussion of the influence of Central Asian shamanism Manichean ideas about the soul in light and darkness and Neoplatonic theurgy working on god within Sections on the medieval period are concerned with the rediscovery of magical practices and occult doctrines from Roger Bacon to Francis Bacon the adaptation of Neoplatonic and esoteric ideas in the medieval Christian mystics and the survival of these ideas mixed with natural science in the works of von Helmont Leibniz and Goethe The book concludes with an investigation of the many forms of dualism in accounts of the human mind and soul and the concept of dual life which underpins our aspiration to understand how humans could have an immortal nature like the gods      **A Cultural History of Ideas in the Medieval**

History is the result of collaborative efforts among nearly a dozen universities and colleges throughout the Nordic countries. The purpose of these initiatives is to further awareness of research resources and activities in the field of intellectual history in the Nordic countries as well as internationally. The journals introduce Nordic and international readerships to some of the finest work in intellectual history by Nordic based scholars as well as international authors. The purpose of the journal is to create a meeting ground for the study of ideas in historical context across disciplinary geographical and institutional boundaries. Ideas in History welcomes interdisciplinary approaches to intellectual history at the same time it acknowledges specific traditions in the field. Ideas in History seeks a pluralism of methodological approaches to intellectual history: reflections on the field, historical contexts, studied subject matter for intellectual historical investigation, critical understandings of relations between the intellectual past and present as well as the comprehension of culturally, politically and geographically diverse intellectual traditions.

**A Cultural History of Ideas in the Age of Enlightenment** Jack R. Censer, 2025-05-15 PRAISE FOR A CULTURAL HISTORY OF IDEAS VOLUMES 1-6 A 2024 CHOICE OUTSTANDING ACADEMIC TITLE 2023 AAP PROSE AWARDS WINNER BEST HUMANITIES REFERENCE WORK. This volume of A Cultural History of Ideas focuses on the culture of the Enlightenment, long believed a time of enormous intellectual innovation and ferment. However elusive the precise connection between ideas and culture in this period, the emergent mixture resonated throughout the West and beyond. This volume features essays by ten eminent scholars who consider nine different areas of intellectual investigation: knowledge, concepts of self, society and ethics, economics and politics, nature and natural law, religion, literature, the arts and history. In all of these areas, Enlightenment culture meant the development of modern values sharply at odds with the Old Regime in which they were embedded. These essays, with their many connections, reveal Enlightenment ideas and cultural innovations as products of a world expanded and rethought in the course of the late seventeenth and eighteenth centuries as a result of enhanced trade and exploration, new notions of sociability, a media revolution and major political and economic developments. The 6 volume set A Cultural History of Ideas is part of The Cultural Histories Series. Titles are available in print for individuals or for libraries needing just one subject or preferring a tangible reference for their shelves or as part of a fully searchable digital library. The Political Ideas of Leo Strauss, Updated Edition S. Drury, 2006-07-10. Now in paperback, this book explores the political thought of Leo Strauss, a philosopher most noted for playing a key role in neoconservative thought in America. *The History of Eden* James Howell, 2014-06-16 I took the first six chapters of Genesis as the inspiration for this novel It is a dramatization of events to fill in over 900 years of events concerning Adam Eve and the original sin which was glossed over in the Bible This dramatization also makes an attempt to explain what could have happened to Eden after the fall of man No attempt was made to change the Bible s history as it is written or to change any premise How Great Thinkers

Transformed Our Ideas C C Hagan, 2024-05-08 Dare to think This was the catch cry of the Enlightenment over 300 years ago when the breakaway from religion towards a more secular society began Isaac Newton led the Scientific Revolution which transformed society for the next 300 years with progress not then dreamed of Stephen Hawking revealed a new cosmology and linked Einstein s relativity to small scale quantum mechanics Yet what was the mind set of Newton s age compared to Hawking s age What were the changes in the mind sets of society and philosophy during those 300 years and were they all linked to science This book represents a slice of the history of ideas science and philosophy mixed with their personal lives against how science mathematics and philosophy evolved over those 300 years Revealed are the truly astonishing stories and ideas of five of the greatest thinkers who ever lived who provided us rich insights into the cosmos Their stories class them as true founders of scientific revolutions battlers with feats of endurance and triumphs to rise to great heights Through the personal tragedies of Curie and Hawking to the intellectual battles fought by Einstein Newton and Leibniz these five scientists inspire us and enrich our ideas The Collected Works of Eric Voegelin, Volume 26, History of Political Ideas,

Volume VIII, Crisis and the Apocalypse of Man Eric Voegelin, 1999-07      Narcissus and the Invention of Personal History Kenneth J. Knoespel, 2015-08-14 Originally published in 1985 This investigation of Ovid's fable takes a different tack to previous studies of the love lyric or the themes but looks at the creation of narrative strategies to explain Narcissus' experience The story has always been understood as literally impossible but invites readers to ask what is meant by the puzzling tale of deception and death The limits placed on the fable by the commentaries of the medieval period allow us to appreciate the narrative expansion of the fable in twelfth and thirteenth century poetry Themes in this book are the way the fable is used as a means for knowledge of physical nature and the development of science the importance of language in the fable and in its settings when rewritten in other texts and psychoanalytic aspects of Echo and Narcissus The fable has the capacity to represent mental life and psychological crisis within other narratives and this is also an important discussion point based around the medieval text Roman de la Rose The book also considers the wider Metamorphoses and Ovid's importance for literature      Opening Bazin Dudley Andrew, 2011-04-01 With the full range of his voluminous writings finally viewable Andr Bazin seems more deserving than ever to be considered the most influential of all writers on film His brief career 1943-58 helped bring about the leap from classical cinema to the modern art of Renoir Welles and neorealism Founder of Cahiers du Cinéma he encouraged the future New Wave directors to confront his telltale question What is Cinema This collection considers another vital question Who is Bazin In it thirty-three renowned film scholars including de Baecque Elsaesser Gunning and MacCabe tackle Bazin's meaning for the 21st century They have found in his writings unmistakable traces of Flaubert Bergson Breton and Benjamin and they have pursued this vein to the gold mine of Deleuze and Derrida They have probed and assessed his ideas on film history style and technique measuring him against today's media regime while measuring that regime against him They have located the precious ore of his thought couched within striations of French postwar politics and culture and they have revealed the unexpected effects of that thought on filmmakers and film culture on four continents Open Bazin you will find a treasure
