

A photograph of a rocky coastline at sunset. The sky is a warm orange, and the water is dark with white foam from waves crashing against the shore. The foreground shows dark, jagged rocks.

Distance in time is like distance in space.
People matter even if they live thousands
of miles away. Likewise, they matter even
if they live thousands of years hence.

Neufeld Redekop, Thomas Ryba, 2013-11-21 For half a century Ren Girard's theories of mimetic desire and scapegoating have captivated the imagination of thinkers and doers in many fields as an incisive look into the human condition particularly the roots of violence In a 1993 interview with Rebecca Adams he highlighted the positive dimensions of mimetic phenomena without expanding on what they might be Now two decades later this groundbreaking book systematically explores the positive side of mimetic theory in the context of the multi faceted world of creativity Several authors build on Adams insight that loving mimesis can be understood as desiring the subjectivity of the other particularly when the other may be young or wounded With highly nuanced arguments authors show how mimetic theory can be used to address child and adult development including the growth of consciousness and a capacity to handle complexity Mimetic theory is brought to bear on big questions about creativity in nature evolutionary development originality and religious intrusion into politics
