Heidegger on East-West Dialogue Lin Ma, 2007-12-12 This book traces a most obscure and yet most intriguing theme concealed in Heidegger's thinking and work which has hitherto not yet been made the focus of a thorough and

sustained investigation that is the emergence and course of Heidegger's interest in East Asian thought and of his reflection on East West dialogue Lin Ma covers such complex issues as Heidegger's thoughts on language Being technology the other beginning and the journey abroad with a view to their implications for East West dialogue It reveals the significance of his remarks on the early Greek's confrontation with the Asiatic and presents contextualized interpretations of his fleeting references to the topic of East West dialogue and of his encounter with the Daodejing Finally it delves into A dialogue on language and exposes the strains and tensions that accompany Heidegger's extension of dialogue and the Same the two notions central to his thought to the question of East West dialogue In the end Lin Ma concludes that Heidegger's fundamental concerns and philosophical orientations as articulated in terms of the history of Being and the other beginning have restricted him from engaging more seriously with the irresolvable and yet enduring issue of East West dialogue

different cultures and religions which have often become entangled in conflicts Nevertheless they have also demonstrated a remarkable capacity for coexistence as exemplified by multilingual multiethnic and multireligious Sicily during the reign of Roger II of Hauteville Throughout its millennia long history the Mediterranean has consistently displayed a profoundly unified configuration despite its inherent diversity Its distinctive blend of singularity and plurality can serve as a paradigm for rethinking new forms of social and political coexistence not only for Europe which draws its origin from this sea but also for a new global order

disciplines including philosophy theology social science history and literature In terms of Western philosophical and intellectual legacies it draws mainly on the teachings of Nietzsche Heidegger and Derrida It also offers a completely new interpretation of the work of Thomas Hobbes unearthing in this work an ethical demand to exit from the state of perpetual warfare in the direction of a shared commonwealth The text also relies on the teachings of Christian theology both Catholic and Protestant invoking at crucial junctures the works of Karl Barth Raimon Panikkar and others In terms of non Western intellectual and spiritual legacies the book offers new interpretations of leading texts in the Indian and Chinese traditions Thus emphasis is placed on the ideas of world maintenance loka samgraha in Hinduism and of All Under Heaven in classical Chinese thought Although a central thrust of the text is for a new wholeness the goal is not a uniform synthesis where everything would be swallowed up in a bland unity Rather the issue is how to preserve diversity of the world in its rightful integrity by linking all elements in a complex web of interconnections and relationality
