Prayer for People Who Don't Believe in God Vance Morgan,2019-10-01 Many progressive christians struggle with prayer or at least with the kinds of prayer they are often exposed to shouted whispered forceful timid begging and demanding everything from essay lengthy scripted petitions to poetry read from a book to rote recitations that no one pays much attention to to pronouncements to communications in a prayer language They are often gripped by the power of the Christian faith but are simply unable or unwilling to endorse or engage with many of its traditional beliefs including traditional beliefs about God and prayer If we re not trying to connect with the kind of God who takes notes answers yes or no and grants or withholds favours what or whom are we trying to connect with And so often our words seem to travel no further than the ceiling no matter what we believe The situation for people who describe themselves as spiritual but not religious isn t much different They may not pray in the traditional sense or in traditional ways but many long to connect or communicate with something larger than themselves as good a definition of prayer as any whether they name that something the divine big love or spirit or think of it as a force or energy that connects all things This is not an academic book nor a how to document Rather it poses questions that are important to progressive Christians and to the spiritual but not religious Working only with the assumption that prayer might have value even for those who are not sure what or who or even if God is this book is about opening oneself to the possibility of God

Binding the Ghost Ed Simon,2022-04-19 Binding the Ghost is both manifesto and example of a new variety of reading that centers a theological perspective in considering what literature actually does Neither dogmatic nor apologetic sectarian or denominational this mode of reading acknowledges the inherently charged strangeness of writing and fiction whereby authors have the ability to seemingly create entire universes from words alone Ed Simon considers the theological depth resonance and mystery of the acts of reading and writing His lyrical incisive essays cover subjects such as the incarnational poetics of reading a physical book as opposed to reading online the historical relationship between monotheism and the development of the alphabet how the novel and Protestantism developed interiority within people the occult significance of punctuation and the functional similarities between poetry and prayer Binding the Ghost presents a humane sacralization of reading and writing that takes into account the wonder enchantment and mystery of the very idea of poetry and fiction
