**The Performance of Power** Sue-Ellen Case, Janelle G. Reinelt, 1991-05 Recently in the field of theatre studies there has been an increasing amount of debate and dissonance regarding the borders of its territory its methodologies subject matter and scholarly perspectives The nature of this debate could be termed political and in fact concerns the performance of power the struggle over power relations embedded in texts methodologies and the academy itself This striking new collection of nineteen divergent essays represents this performance of power and the way in which the recent convergence of new critical theories with historical studies has politicized the study of the theatre Neither play text performance nor scholarship and teaching can safely reside any longer in the free politically neutral self signifying realm of the aesthetic Politicizing theatrical discourse means that both the hermeneutics and the histories of theatre reveal the role of ideology and power dynamics New strategies and concepts and a vital new phase of awareness appear in these illuminating essays A variety of historical periods from the Renaissance through the Victorian and up to the most contemporary work of the Wooster group illustrate the ways in which contemporary strategies do not require contemporary texts and performances but can combine with historical methods and subjects to produce new theatrical discourse *Queer Jewish Groups in Europe (1972-1990s)* Jan Wilkens, 2025-03-31 In the 1970s queer Jews became excited by the developments of the Gay Liberation Movement in both the US and Europe Until then they were not able to express their queerness in Jewish communities and hoped for new inclusive spaces Yet they quickly realized that the movement was not as welcoming as anticipated Thus they started to organize in February 1972 the world's first queer Jewish group became publicly visible in London with its symposium The Jewish Homosexual in Society The Jewish Gay Group began tackling the exclusion of non heteronormative Jews in British Jewish and queer communities Soon after two more queer Jewish groups formed Beit Haverim House of Friends in Paris and Sjalhomo a neologism of shalom and homosexual in Amsterdam Besides their goal of emancipation these groups brought together their members based on shared experiences as both Jewish and queer opening up much needed spaces for social encounters The groups also established a Europe wide support network that enabled international collaboration for more than a decade This study archives these groups histories and that of their network By doing so it broadens prevalent narratives of Europe's post World War II Jewry and queers the discipline of Jewish History *Queering Asylum in Europe* Carmelo Danisi, Moira Dustin, Nuno Ferreira, Nina Held, 2021-08-31 This two volume open access book offers a theoretically and empirically grounded portrayal of the experiences of people claiming international protection in Europe on the basis of their sexual orientation or gender identity SOGI It shows how European asylum systems might and should treat asylum claims based on people's SOGI in a fairer more humane way Through a combined comparative interdisciplinary socio legal human rights feminist queer and intersectional approach this book examines not only the legal experiences of people claiming asylum on grounds of their SOGI but also their social experiences outside the asylum decision making framework

**Legal Recognition of Non-Conjugal Families** Nausica Palazzo,2021-02-25 This book argues that insufficient recognition of new families is a legal problem that needs fixing in light of recent evolutions in family patterns and normative conceptions of family People increasingly invest in relationships falling outside the model of the marital family such as non conjugal unions of friends or relatives polyamorous relationships and various religious based families Despite this Western jurisdictions retain the marital family as the relevant basis for allocating family law benefits rights and obligations Part I of the book illustrates recent evolutions in family patterns and norms and explores how law can accommodate multiple family grids without legal recognition involving normalisation Part II focuses on courtroom litigation on the basis that courts nowadays are central avenues of social change It takes non conjugal families as a case study and provides an analysis of the most compelling argumentative strategies that non conjugal families can mobilise to pursue legal recognition in Canada and the United States and within the systems of the European Convention of Human Rights and the European Union Through its comparative interdisciplinary and critical legal method the book provides scholars activists and policymakers with conceptual tools to tackle the current invisibility of new families Further by advancing legal arguments to enhance the protection of non conjugal families in courtrooms the book illuminates the different approaches jurisdictions are likely to take and the hindrances thereof to overcome and debunk stereotypes associated with proper familyhood

Robertson Odin Dekkers,2018-10-26 Published in 1998 J M Robertson Rationalist and Literary Critic is a study of the life of one of the most erudite and prolific critics of the late

nineteenth and early twentieth centuries The Scotsman John MacKinnon Robertson 1856 1933 rationalist and enemy of religion to the core published over one hundred books and thousands of articles in fields as diverse as sociology economics history anthropology biblical criticism and literary criticism This once widely known and feared author was all too quickly forgotten after his death and his work is now seldom read The aim of this book is to demonstrate that Robertson's writings and in particular his acute and powerful literary criticism much respected by T S Eliot have not lost their relevance for late twentieth century readers Moreover through the examinations of Robertson's work in its contextual framework this study provides a wide ranging perspective on the late Victorian literary scene which perhaps present day literary historians have not given the detailed attention it deserves Public Discourses About Homosexuality and Religion in Europe and Beyond Marco Derks, Mariecke van den Berg, 2020-10-01 This volume addresses three things many people do not discuss candidly with strangers or mere acquaintances God sex and politics These can easily become topics of fierce debate particularly when taken together as has been the case with same sex marriage legislation the Vatican's criticism of gender ideology or the repeatedly asserted claim that Islam homosexuality and gender equality are essentially incompatible This volume investigates what is at stake in these constructions of religion and homosexuality in public discourses Starting with the Netherlands as a special case study it proceeds with contributions on other predominantly postsecular countries in central northern and southern Europe as well as several postcommunist and postcolonial countries beyond Europe Combining contemporary and historical perspectives and approaches from both the humanities and the social sciences the contributors explore how national and European identities are constructed and contested in debates on religion and homosexuality Chapter 2 and Chapter 8 of this book are available open access under a CC BY 4.0 license at link.springer.com *The Saturday Review of Politics, Literature, Science and Art*, 1868 *Modern Composers of Europe* Arthur Elson, 1909 *EU Employment Law* Jeff Kenner, 2002-12-23 This book traces the evolution of European Union employment law and social policy from its essentially economic origins in the Treaty of Rome through to the emerging themes post Amsterdam co-ordination of national employment policies modernisation of social laws and combating discrimination Each stage of development of Community employment law and social policy is analysed in depth to give a sense of perspective to this fast changing field As the European Union seeks to meet the challenges of globalisation the need to develop social policy as a productive factor has come to the fore The author explains how the social economic and employment imperatives of European integration have always been intertwined and how the emergence of Community employment law from its hitherto twilight existence is best understood through an examination of consistent strands of policy development The Literary World, 1879 *East European Accessions List* Library of Congress. Processing Department, 1954 Trans New Wave Cinema Akkadia Ford, 2021-04-22 This book presents a critical cultural study of the Trans New Wave as a cinematic genre and explores its emergence in the twenty first century Drawing on a diverse range of texts the cultural social aesthetic and ethical

implications of the genre are placed within the context of rapidly changing understandings of gender diversity From the cinematic borderlands of independent film festivals to wider public recognition via digital technologies the genre encompasses a diverse range of texts from short films documentaries experimental films to feature films and narratives that range across life histories narratives and themes The book presents transliteracy as an original theoretical approach to reading film representations of the Trans New Wave and combines it with a new theoretical concept of cinematic ethnogenesis to investigate how the genre emerged from specific communities and the reciprocal interaction of audiences and texts This interdisciplinary volume engages with contemporary issues of gender diversity transgender studies screen and media studies and film festival studies and as such will be of great interest to scholars working in these fields and in media and cultural studies more generally

**A Theory of Disfunctionality: The European Micro-states as Disfunctional States in the International System** Archie W. Simpson, 2021-06-01 A Theory of Disfunctionality The European Micro states as Disfunctional States in the International System explains the continuing survival of European micro states as members of the international system Micro states are small sovereign states with populations of 1 million or less of which there are 10 in Europe The existence of micro states raises a number of questions about the nature of statehood the recognition of sovereignty and the ability of such states to maintain a presence in international politics This book establishes the theory of disfunctionality in which a functional account

of statehood is proposed It is argued that the state has six functions but the micro states are so small that they contract out some state functions to others in the international system By doing this the micro states ensure their continuing survival in international politics The book which focuses on two case studies Monaco and Luxembourg will be of particular interest to those involved in small state studies including scholars students practitioners and policy makers as well as those researching International Relations and state theory
