**The European Parliament's Role in Closer EU Integration** R. Corbett, 2015-12-22 Nearly 20 years after it first became an elected institution it is time to assess the impact of the European Parliament on the process of European integration This book does so beginning with an analysis of what integration theorists expected of the directly elected Parliament when such an idea was still on the drawing board and then examining what the Parliament has achieved in practice It concludes that the Parliament has been extremely significant though not always in the ways initially expected

**European Foreign Policy and the European Parliament in the 1990s** Donatella M. Viola, 2019-06-04 This title was first published in 2000 This book investigates the European Parliament's stance vis a vis the 1990 1991 Gulf and 1991 1992 Yugoslav crises In unveiling the parliamentary multi faceted view of these events reference has been made to the positions taken by constituent political groups and their voting behaviour In particular the following questions have been addressed has the European Parliament sought to define and shape a common foreign policy with respect to the above crises What specific functions have the European Parliament political groups performed Have political groups succeeded in achieving an internal cohesion Has the European Parliament overcome divisions among its members through the formation of party coalitions despite the considerable flow of published material on external relations of the European Union and the European Parliament virtually no study has explored in depth the links between these two areas The purpose of this book is to fill the gap in the existing literature breaking new ground by combining a qualitative and qualitative analysis of parliamentary behaviour with foreign policy

Harry Cottam,2020-04-23 Guy Verhofstadt a leading Belgian MEP and enthusiast for the EU has described it as a liberal empire In his book Harry asks whether and to what extent this is true and if it is an empire of what and for whom With any organisation however big and altruistic its stated principles and intentions might be the author believes there is always someone running it behind the scenes and and he has concluded that one country Germany is using the EU as a fig leaf to hide and legitimise its domination of the rest of Europe In his book Harry Cottam examines whether or not the EU is a liberal empire or designed to be controlled by the few and sets out his research which formed his belief and explains in detail how it has been achieved

Maastricht agreement the fourth the political economy of the Economic and Monetary Union the fifth is the impact of European citizenship in the recent case law of the European Court of Justice and the prospects of a EU politicisation The book puts in perspective the solutions to the recent stalemate of the European integration process offered by the Lisbon Treaty
