The Oxford Handbook of European History, 1914-1945 Nicholas Doumanis,2016 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis *The Oxford Handbook of European History 1914 1945* reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in
