comprehensive reappraisal by the United States and most notably by the EU in their relations with the states and peoples of the region This timely collection brings together nine leading authorities on European foreign policy and the Middle East and investigates three central questions What role did the European Union play in promoting democracy and human rights in the countries of North Africa and the Middle East How did the EU respond to the uprisings of the Arab street What challenges is Europe now facing in its relations with the region Peters The European Union and the Arab Spring is at the forefront of scholarship on this historic socio political shift in the Middle East and its wider implications for the West

Payer or Player? The Role of the European Union in the Middle East Peace Process Steffen Schulz, 2002-05-08 Inhaltsangabe

Abstract The Union s position and role Promoter of a comprehensive just and lasting peace and of prosperity for the region Key player in the political and economic process The European Union on its Middle East policy web site This way of portraying itself does not leave any doubt about the position and role of the European Union EU in the Arab Israeli conflict In practice however the EU does not appear to be very influential in the region So far all treaties and agreements concerning the Middle East peace process have been achieved under the mediation and sometimes the intervention of the United States U S Europe has usually watched these political developments from the sidelines That does not mean that in this region Europe has no role at all The EU is involved in the peace process not in the political however but in the economic part Since the Oslo agreement in 1993 European money has kept the quasi state of the Palestinians alive and thus the EU is usually perceived as payer but not as player in the Arab Israeli conflict At the moment however in which the situation in the Middle East is characterised by violent clashes between Palestinians and Israelis and in which there is the widespread assumption that the peace process is on the brink of disaster there are growing demands that Europe should also play a greater political role in the region Indeed in recent weeks Europe has appeared as a mediator between Israelis and Palestinians In the name of Europe the German foreign minister Joschka Fischer has acted twice as a mediator between both conflict parties Particularly the Arabs and Palestinians want the EU to get involved more strongly in the peace process They perceive America which is doubtlessly the most powerful actor in the conflict as biased and more in favour of Israel and therefore they hope that Europe could be a kind of counterweight to the U S Against this background it has to be asked whether the European Union would be able to play a major political role so that one could speak about Europe not only as payer but also as player in the peace process In order to answer this question it is firstly necessary to examine the main aspects that determine the capabilities and limits of the European Union in international affairs One of the main factors in this respect is doubtlessly the concept of the Common Foreign and Security Policy CFSP and the institutional framework which is

Promoting Middle East Democracy Mona Yacoubian, 2004 Since the end of the Cold War European security concerns have focused increasingly on the potential for instability on Europe s southern flank In 1995 the European Union developed a framework for cooperation with the southern Mediterranean nations These efforts have included some relatively ineffective

programs to promote democracy in the region In the aftermath of 9 11 the goal of encouraging the development of Middle East democracy has acquired greater urgency not least in the eyes of the United States which has bolstered its own efforts to spur democratic reform

Europe and the Middle East Birte Wassenberg,Giovanni Faleg,2012 At a time when momentous changes are taking place in the Middle East this volume provides a timely and critical assessment of the European Union EU foreign policy towards the region The book collects revised and updated versions of the papers presented at the third Academic Forum on European Security which took place at the Institute for European Studies IHEE in Strasbourg on March 30 31 2010 The subtitle the hour of the EU was chosen to emphasize the moment of opportunity for the EU to actively influence a peaceful resolution of the major crises affecting the Middle East Accordingly contributions to this volume show the potential and the limits of the EU's normative and soft power based diplomatic toolbox in transforming its neighbourhood focusing on four macro areas the Arab Israeli conflict the rise of Iran as a regional and perhaps nuclear power the EU's engagement in democracy promotion and EU Turkey relations Overall this book aims at providing the reader willing to learn more about EU foreign policy's achievements and weaknesses with a close up on those four critical areas
