The Future Of European Alliance Systems Arlene Idol Broadhurst, 2019-07-11 Recent events in Afghanistan and Poland as well as the Twenty Sixth Party Congress have raised questions about the future direction of the Warsaw Treaty Organization Similarly pressing issues such as the placement of long range theater nuclear forces burden sharing and threats to the security of Europe from peripheral areas for instance the Middle East call attention to the urgent need for a re examination of priorities and strategies within the North Atlantic Treaty Organization This book addresses these military considerations as well as the political and social dimensions of European security The distinguished authors discuss four major subjects European security perspectives NATO the Warsaw Pact and resource allocations for defense within the framework of comparative alliance approaches Their detailed descriptions of current problems diversities and discussions within the two alliance systems offer insight into the differing ideas of what constitutes security

The Path to European Economic and Monetary Union Scheherazade S. Rehman, 2012-12-06 Sir Alan Walters ex chief economic advisor to PM Margaret Thatcher Whether it succeeds or fails Europe is everyone's concern The idea of a united Europe has been entertained even partially at least achieved inter alia Charlemagne Napoleon Hitler and in our day Spaak Monet and Chancellor Kohl the first three by military conquest the last three by negotiation and the creation of integrating institutional arrangements The motives varied from the twisted paranoia of the Nazis to the idealism of Spaak Monet Kohl in avoiding conflicts and wars Under the protection of NATO the European Coal and Steel Community soon was transformed into the EEC by the 1957 Treaty of Rome The massive reduction of trade barriers particularly between France and Germany was rewarded by vigorous growth over the next 15 years Even as late as 1972 when Britain acceded to the Treaty of Rome the EEC was thought to be largely a customs union in de Gaulle's eyes the EEC was simply a collection of sovereign states who cooperated primarily on trade Each state however enjoyed a veto decisions had to be unanimous

Library,1916 The Employment Effects of European Economic Integration ,1993 **The European Economy** Christopher M. Dent,2002-09-11 The shape of the world economy is changing Globalisation and regionalism have led to the development of powerful but interdependent economic blocs Much economic potential has shifted from the Atlantic to the Pacific area In view of this The European Economy argues that economists need a broader worldwide base of information if these processes and their effect on Europe are to be fully understood Topics discussed include Europe s experience of the growing trend of regionalism the single market plans for economic union EU enlargement Europe s triad rivals EU external trade and trade relations technology and innovation environmental issues This fresh approach highlights the issues which will challenge European countries into the twenty first century **Exporters' Review** ,1916 **Multinationals and Industrial Competitiveness** John H. Dunning,Rajneesh Narula,2005-01-01 This book provides an excellent overview of the changing relationship between multinationals and economic development as globalization has taken off and substantially altered the conditions for catching up as opposed to falling behind The authors move very effectively between the discussion of concepts that are crucial to understanding such changes and various empirical evidence on foreign direct investment trade inter firm relationships institutional settings and competitiveness John Cantwell Rutgers University US The globalisation of the world economy has undermined many of the old certainties regarding foreign direct investment flows Dunning and Narula use the concepts of alliance capitalism and technological evolution to analyse recent trends in international business

They identify the challenges to government policymakers from regional integration and the consequent intensification of political competition to attract high technology investment This masterful and incisive analysis brings great clarity to perplexing issues and delineates a cogent industrial policy agenda for a globalised economy Mark Casson University of Reading UK This book offers an important contribution to the contemporary debate on the role of multinational enterprises MNEs in economic development in an increasingly globalizing knowledge intensive and alliance based world economy Each of the chapters touches upon critical issues now facing the global economy They also address the growing importance of innovative activities of firms in promoting economic development and industrial restructuring as well as the role of FDI and cooperative agreements in furthering this goal Emphasis is placed on the increasingly significant role of national governments in promoting the intellectual capital of their indigenous resources and capabilities and of inter firm collaborative alliances Globalization and technological advances are reconfiguring the ingredients of the competitiveness of firms and nation states They are emphasizing the increasingly important role of both private and social institutions as determinants of the success of corporations and of the economic development of societies Covering a range of issues from economic development alliance capitalism government policies regional integration and industrial development this authoritative book will greatly appeal to academics and economists especially those interested in international business and management
