European Elections 1979/81 And 1984 Conclusions And Perspectives From Empirical Research:

The Theory and Practice of Institutional Transplantation M. de Jong, K. Lalenis, V.D. Mamadouh, 2012-12-06

Inevitably at a panel discussion not too long ago comparing planning cultures the discussion turned on the issue of globalisation. As a member of the panel this author asked those in the audience who lived and/or worked in a country different from their country of origin to raise their hands. About half of the audience of well over one hundred academic teachers and researchers from all corners of the world the present author included did so. Next he asked who had a spouse or partner from a country different from their country of origin to also raise their hands. About half of the audience the present author included raised their hands. This is the soft side of globalisation. The soft side of globalisation is important. Exchanges, personal mobility, international romances, multi-culturalism and multi-lingualism inevitably meaning non-native speakers struggling to keep up with native English speakers are part of the academic scene so much so that we can hardly imagine it to be otherwise. These are not entirely new phenomena but they have become ever more prominent relying on an ever more elaborate institutional infrastructure of exchange programmes, international journals, associations and the global conference industry. It was at the AESOP Association of European Schools of Planning congress at Brno in the Czech Republic in July 2000 that the plan for this book was hatched.

Voting Behavior in Europe Erik Oppenhuis, 1995 *Europe's Elected Parliament* Julie Smith, 1999-05-01. An invaluable survey of the origins and development of the European Parliament and of its uncertain role in narrowing the gap between European institutions and voters. Julie Smith traces the rising influence of the European Parliament over EU policy making in the 20 years since it was first elected, the extension of its authority through successive Inter-governmental Conferences and the ambiguities which nevertheless persist over its legitimacy as representing the people in its dialogue with the Commission and Council.

WILLIAM WALLACE Julie Smith places the fifth direct elections to the European Parliament in the broader context of the EU's development. She examines the arguments and debates which surrounded the creation and evolution of a unique institution, considers the effects which direct elections have had, not always those expected, and the growing relations between EP political groups and national parties. She argues that national politicians should more openly acknowledge the shift in the balance of powers which European integration has caused.

The European Parliament and Supranational Party System Amie Kreppel, 2002. This book examines the impact of legislative and political authority on the internal development of the European Parliament.

Opposing Europe in the European Parliament Nathalie Brack, 2017-10-20. The book provides an in-depth analysis of Eurosceptic strategies in the European Parliament. It explores the paradoxical situation of Eurosceptic MEPs particularly successful during EP elections: how then, once elected, do they operate in a political system they oppose? This book analyses how Eurosceptic MEPs conceive and carry out their mandate within the institution. On the

basis of more than 100 interviews it proposes a typology of four strategies developed by these actors It also explains the diversity of Eurosceptics strategies showing the relevance of the interaction between the institutional context and the individuals preferences With the growing success of Eurosceptic parties and the challenges they pose to the future of integration this study also reflects on the consequences of their presence for the EP and for the legitimacy of the EU This book will be of interest to students and scholars of European politics European integration comparative politics legislative studies and political parties

The European Parliament's Role in Closer EU Integration R. Corbett, 2015-12-22 Nearly 20 years after it first became an elected institution it is time to assess the impact of the European Parliament on the process of European integration This book does so beginning with an analysis of what integration theorists expected of the directly elected Parliament when such an idea was still on the drawing board and then examining what the Parliament has achieved in practice It concludes that the Parliament has been extremely significant though not always in the ways initially expected

European Foreign Policy and the European Parliament in the 1990s Donatella M. Viola, 2019-06-04 This title was first published in 2000 This book investigates the European Parliament's stance vis a vis the 1990 1991 Gulf and 1991 1992 Yugoslav crises In unveiling the parliamentary multi faceted view of these events reference has been made to the positions taken by constituent political groups and their voting behaviour In particular the following questions have been addressed has the European Parliament sought to define and shape a common foreign policy with respect to the above crises What specific functions have the European Parliament political groups performed Have political groups succeeded in achieving an internal cohesion Has the European Parliament overcome divisions among its members through the formation of party coalitions despite the considerable flow of published material on external relations of the European Union and the European Parliament virtually no study has explored in depth the links between these two areas The purpose of this book is to fill the gap in the existing literature breaking new ground by combining a qualitative and qualitative analysis of parliamentary behaviour with foreign policy

The Europeanization of National Politics? David Sanders, 2012-04-26 The Europeanization of National Politics studies the levels and evolution of EU citizens attitudes toward the EU by answering 3 key questions How widespread is the sense of European citizenship What are its core drivers And what consequences does citizenship have if any for EU support and for active political participation in EU politics

The Europeanization of National Political Parties Thomas Poguntke, Nicholas Aylott, Elisabeth Carter, Robert Ladrech, Kurt Richard Luther, 2007-02-12 This is a detailed exploration of how national political parties have responded to the increasing relevance of European governance The Europeanization of National Political Parties is the first empirical study to examine the effects of the European Union on the internal

organizational dynamics of national political parties It draws on the results of a major cross national project and is based on documentary analysis and some 150 interviews with senior party actors in six EU member states Austria Britain France Germany Spain and Sweden Situated in the context of the debate on Europeanization the contributors illustrate that national political parties have been surprisingly well equipped to handle the challenges of the increasing importance of multi level governance in Europe Following a rigorous analytical framework the country studies examine thirty relevant political parties and systematically address a clearly defined set of empirical questions The volume ends with two comparative chapters that analyze the findings from a cross national perspective and that offer theoretical insights into the problems of party government amid increasing European integration This text will appeal to all those researching in the fields of European studies political science and comparative politics

The Field of Eurocracy D. Georgakakis, J. Rowell, 2013-12-12 The word Eurocracy has resonance throughout out Europe but in reality we know little about the people who work in and around the EU or how they fit into its large bureaucratic framework Based on extensive fieldwork this book addresses this problem by exploring the MEPs diplomats civil servants and commissioners that work in and around the EU

changed and asks whether the 1922 general election has heralded a fundamental realignment in the Irish political system

People and Parliament in the European Union Jean Blondel, Richard Sinnott, Palle Svensson, 1998-07-30 The power of the European Parliament has been steadily and visibly increasing in recent years This arises from EU treaty changes and from the fact that more and more decisions are being made at the European level At the same time however the already low rate of turnout in European elections has actually been declining This powerful new study examines a seemingly paradoxical situation which has raised deep concern about the democratic deficit in the European Union The authors analyse the concepts of participation democracy and legitimacy and their applicability at the European level and develop a typology of voter participation and abstention in the European context Combining extensive new data from specially commissioned surveys in all 1994 member states with a searching review of the existing evidence they provide a comprehensive account of the legitimacy of the European Union and examine the images of the European Parliament citizens experiences of the 1994 campaign and their perceptions of the parties and the candidates In an analysis that challenges existing interpretations the institutional demographic and attitudinal sources of participation and abstention are fully explored The study concludes by considering how participation and democratic representation might be enhanced acknowledging forthrightly the obstacles and inherent limits that such efforts are likely to face
