European Migration Policies In Flux Changing Patterns Of Inclusion And Exclusion:

European Migration Policies in Flux Christina Boswell, 2003-11-21 European migration policies are undergoing significant changes After three decades of highly restrictive approaches demographic changes and gaps in labour supply are prompting many European governments to liberalize their migration policies Timely book examining the nature and impact of the changing migration policies in France Germany and the UK Analyses the content of new legislation as well as the policy debate and party political treatment of migration issues in each country Considers the implications of the new policies on other categories of migrants asylum seekers refugees and resident ethnic minorities **European Migration Policies in Flux**

Richard Arthur DeAngelis, 2005 *Sport Facing the Test of Cultural Diversity* William Gasparini, Aurélie Cometti, 2010-01-01 Democratic management of cultural diversity has become a priority For The Council of Europe member states Sport is no exception to this concern Faced with the diversity of both participants and spectators sport becomes a vehicle for intercultural dialogue through its educational and socialising role This work lays out exchanges of experience in intercultural dialogue through sport it helps put into perspective the concepts of intercultural dialogue and integration as applied to sport and evoked in social and political debates in Europe The Enlarged Partial Agreement on Sport EPAS contributes To The development of European research on education through sport involving researchers from different countries This publication has been co ordinated and directed in co operation with the Agency for Education through Sport APELS

Migration Control Logics and Strategies in Europe Claudia Finotelli, Irene Ponzio, 2023-04-24 Building upon the concept of migration regime this open access book brings together the works of scholars who have investigated logics and routines of action in the field of immigration control within a single and innovative theoretical framework The chapters cover a wide range of policy domains from visa policy to the externalisation of controls labour migration to asylum internal controls towards irregular migration to restrictions for intra EU mobility By unravelling organisational strategies and practices across Europe the book does not only contribute to dismantling the very idea of the European North South divide in migration but also shows how Europe really works in the field of migration in times of deep economic asylum and health crises In this perspective the book questions the widespread understanding of migration control outcomes as simply the result of more or less effective state policies without considering the embeddedness of the national policy goals and strategies in the dynamic interplay of different economies institutional cultures and geopolitical positions Crossing Over Holger Henke, 2005-01-01

Although migration by the very virtue of its transnational nature seems to invite comparisons relatively few books provide these in explicit form In this collection of essays the authors deliberately juxtapose the experience of different locations and or immigrant populations in order to systematically compare them **The Exclusionary Politics of Asylum V.**

Squire, 2016-01-12 This critique of the securitization and criminalization of asylum seeking challenges the claim that asylum seekers threaten receiving states It analyzes recent policy developments in relation to their wider historical political and

European contexts and argues that the UK response effectively renders asylum seekers as scapegoats

The Migration Question Leila Simona Talani, Matilde Rosina, 2025-06-12 This authoritative book proposes a fresh perspective on international migration offering decisive answers to the big questions and dismantling the main myths surrounding one of the most salient issues of today's global politics Who are these migrants Do they steal our jobs Can we help them in their home countries Do border controls improve security Are open borders desirable Leila Simona Talani and Matilde Rosina address these issues and more in their deeply researched study of migration into both Europe and the United States Assessing globalisation's impact on international migration the authors find that it is virtually impossible to stop contemporary flows from the Global South to North In this context policies designed to control limit or deter immigration simply transform some or all regular migrants into irregular ones exacerbating insecurity for citizens of the receiving state and criminalising the migrants Through empirical research including original surveys and interviews Talani and Rosina demonstrate conclusively that the only solution to this short circuit world of securitisation and criminalisation is for the Global North to open its doors to the migrants already inevitably coming through particularly since the evidence shows that regularising migration is a positive sum game in economic social and security terms

EU Migration Law Loïc Azoulay, Karin de Vries, 2014-03-20 Large scale migration constitutes an unavoidable social reality within the European Union A European polity is made possible and tangible by the individual acts of migrants crossing the internal borders developing a transnational life and integrating into European societies Consequently migration has become a special feature of the self understanding of the European Union its existence depends upon a continuing flow of persons crossing the borders of the Member States and also upon the management of the flows of third country nationals knocking at its doors To respond to this challenge the Union has developed common European migration policies This book is a collection of essays which aim to explore a selected number of issues related to the development of these policies It presents the current state and the future of European immigration law discussing the political rationales and legal competences driving the action of the Union in this area It reflects on the cooperation of the Union with third countries and on the emergence of international migration legal norms It illustrates the role of the European Courts and the emergence of new actors through the adoption of EU instruments

Impact of Immigration and Xenophobia on Development in Africa Mafukata, Mavhungu Abel, 2020-12-25 Human movement has an influence on the socio economic dynamics of people regions and countries The schisms between host and immigrants impact how host countries utilize immigrant skills and expertise to benefit their economies However immigrants are impacted by negative diplomatic relations between countries that limit the free movement of people and the welfare of immigrants In association this brings about social challenges such as Afrophobia racism xenophobia hatred and violence within these countries While these challenges are deeply rooted across the world Africa has its own unique challenges Still struggling with massive underdevelopment Africa needs to remove all the negative factors that could impede its quest of achieving

development imperatives Impact of Immigration and Xenophobia on Development in Africa analyzes the genesis and evolution of immigration in Africa and how this has resulted in social challenges such as xenophobia within the continent The book focuses on demonstrating how immigrant skills and expertise can be positively utilized to assist African development and asserts the existence of xenophobia in respective countries does not assist Africa s quest of resolving its own challenges The chapters within this book therefore explore how this subsequent output of xenophobia has impacted African development and focuses on the revival of Pan Africanism as a uniting instrument and ideology for Africans This book is a valuable reference tool for activists retired and practicing politicians governments policymakers practitioners stakeholders researchers students and academicians European Research Reloaded: Cooperation and Integration among Europeanized States Ronald Holzhaacker,Markus Haverland,2006-09-01 The Three Waves of European Research European cooperation and integration has continued to progress forward over the past five decades with an ever deepening impact on the member states The first wave of research into these processes concerned European integration the process of institution building and policy developments at the European Union EU level The second wave on Europeanization used integration as an explanatory factor in understanding domestic political change and continuity related to the EU What is now necessary is to link our understanding of these bottom up and top down processes of integration and Europeanization in the EU This book argues that a third wave of research on the EU is needed to adequately understand the increased interconnectedness between the European and national political levels We posit that this third wave should be sensitive to the temporal dimension of European integration and Europeanization In particular we seek to link the processes of European integration and Europeanization in a new way by asking the question how has Europeanization affected current modes of integration and cooperation in the EU Part I Europeanization of the Member States Preparing the ground for the third wave the first part of the book concerns Europeanization In order to fully understand the feedback of Europeanization on cooperation and integration it is important to analyze how European integration has had an impact on member states in the first place in particular indirectly beyond the direct mechanism of compliance with European policies **International Handbook of Urban Policy: Contentious global issues** H. S. Geyer,2007-01-01 This first Handbook in a series of three original reference works looks at globally contentious urban policy issues from a wide variety of different angles and perspectives Matters related to urban densification population mobility urban inequality and sustainability are analysed in a manner that will not only interest the advanced student but also the novice Urban policy covers a vast field This first volume combines chapters covering three broad themes policy issues pertaining to the spatial aspects of the city social and mobility issues and issues of urban governance The spotlight initially falls on urban structure urban densification the disappearing urban rural divide the urban economic landscape and the transformation of socialist economies The Handbook then goes on to focus on migration social mobility crime terrorism and social inequality Finally urban sustainability and urban governance come under

the spotlight Integration of the planning process flexibilities in infrastructure and areas of neglect in environmental management feature strongly in this section of the Handbook Books of this nature are often slanted in one particular direction however this Handbook s approach is different Not only has the editor avoided shying away from politically sensitive issues but contributions have also been included that reflect distinct differences of opinion on politically sensitive issues hence the volume s subtitle of contentious global issues As a Handbook the chapters have been written not only for the advanced student and academics but also with undergraduate students in mind The Handbook will appeal to scholars and researchers of geography and urban and development planning demography and social science and environmental scientists for the focus on urban sustainability issues

Migrants Before the Law Tobias G. Eule, Lisa Marie Borrelli, Annika Lindberg, Anna Wyss, 2018-11-19 This book traces the practices of migration control and its contestation in the European migration regime in times of intense politicization The collaboratively written work brings together the perspectives of state agents NGOs migrants with precarious legal status and their support networks collected through multi sited fieldwork in eight European states Austria Denmark Germany Italy Latvia Lithuania Sweden and Switzerland The book provides knowledge of how European migration law is implemented used and challenged by different actors and of how it lends and constrains power over migrants journeys and prospects An ethnography of law in action the book contributes to socio legal scholarship on migration control at the margins of the state This book is a major achievement A remarkable and insightful study that through close analysis of the practices of migration control in 8 European countries Austria Denmark Germany Italy Latvia Lithuania Sweden and Switzerland provides powerful new insight into the power of the state at its margins and over those that are marginalised Andrew Geddes Director Migration Policy Centre European University Institute Migrants Before the Law provides a much needed account of the dizzying legal labyrinth that migrants navigate as they seek to survive in Europe Based on multi sited ethnography in detention centres migration offices police stations and non governmental organizations as well as on interviews with key government actors advocates and migrants themselves this book explores the systems of control and forms of migrant precarity that operate along Europe s internal borders in multiple national and transnational contexts Readers will come away with a deepened understanding of the perverse workings of power the ways that the uncertainty and unpredictability of law foster both despair and hope the degree to which the immigration crisis is both manufactured and experienced as real and the ingenuity of migrants themselves in the face of Kafkaesque state practices Susan Bibler Coutin Professor of Criminology Law and Society and Anthropology University of California Irvine USA Migrants Before the Law is an excellent exposition of the dispersed sites of the law and the hinges and junctions through which this apparatus is actualized in the lives of migrants facing deportation contesting their status as illegal migrants or seeking to regularize their precarious position Written with great sensitivity and an eye to minute details this book is also an achievement in furthering the method of collaborative ethnography and new ways of staging comparisons

Veena Das Krieger Eisenhower Professor of Anthropology Johns Hopkins University USA **Xenophobia and Islamophobia in Europe** Raymond Taras, 2012-06-30 This cross national analysis of Islamophobia looks at these questions in an innovative even handed way steering clear of politically correct cliches and stereotypes It cautions that Islamophobia is a serious threat to European values and norms and must European Internal Security Christian Kaunert, 2018-07-30 European institutions are either loathed or underestimated This book analyses the role of EU institutions in the area of European internal security From Justice and Home Affairs this area has become more like a European Area of Freedom Security and Justice In this process the European Commission has demonstrably played the role of an engine of integration in areas such as counter terrorism policing asylum migration and border management This book uses the framework of supranational policy entrepreneurs SPE those who stand at the policy window in order to propose lobby for and sell their policy proposal and synthesises it with insights from the literature on norm entrepreneurship This book will be of great interest to scholars and practitioners interested in European internal security European integration terrorism security studies and international relations **The International Political Economy of Migration in the Globalization Era** Leila Simona Talani, 2021-09-28 This book concerns with the analysis of the impact of globalization on international migration from a distinct international political economy perspective It confronts theoretical debates from the different international political economy IPE approaches and elaborates on the implications of different theories in policymaking and political realms Here migration is examined as an integral part of the global political economy that is structurally connected to the process of globalization although the definition of globalization itself is a subject of enquiry *Refugee Protection and the Role of Law* Susan Kneebone, Dallal Stevens, Loretta Baldassar, 2014-06-27 Sixty years on from the signing of the Refugee Convention forced migration and refugee movements continue to raise global concerns for hosting states and regions for countries of origin for humanitarian organisations on the ground and of course for the refugee This edited volume is framed around two themes which go to the core of contemporary refugeehood protection and identity It analyses how the issue of refugee identity is shaped by and responds to the legal regime of refugee protection in contemporary times The book investigates the premise that there is a narrowing of protection space in many countries and many highly visible incidents of refoulement It argues that Protection which is a core focus of the Refugee Convention appears to be under threat as there are many gaps and inconsistencies in practice Contributors to the volume who include Erika Feller Elspeth Guild H I ne Lambert and Roger Zetter look at the relevant issues from the perspective of a number of different disciplines including law politics sociology and anthropology The chapters examine the link between identity and protection as a basis for understanding how the Refugee Convention has been and is being applied in policy and practice The situation in a number of jurisdictions and regions in Europe North America South East Asia Africa and the Middle East is explored in order to ask the question does jurisprudence under the Refugee Convention need better coordination and how successful is oversight of the Convention

The Political Uses of Expert Knowledge Christina Boswell, 2009-05-28 This book examines the role of knowledge in policy showing how policymakers use research to establish authority in contentious areas of policy

Remaking Urban Citizenship Andrew M. Greeley, 2017-07-28 Due to heightened global migration and transnational mobility many residents of the world's cities lack national citizenship in the places to which they have moved for work refuge or retirement The disjuncture between citizenship and daily life has led to devolution of claims from national to urban space Within nation states characterized by structured inequalities citizens have not reduced their social differences This leads increasingly to calls for greater direct involvement of marginalized classes in reshaping the institutions and spaces directly affecting their lives These concerns cities without citizenship and people without political power inform the agendas of organizations that seek to restructure urban citizenship in more democratic directions *Remaking Urban Citizenship* focuses on the uses and limits of such political organizations and coalitions shows the various ways they pursue expanded rights within the city and describes the institutional changes necessary to empower global migrants and popular classes as urban citizens Offering individual or comparative case studies of cities in the United States Europe and China contributions to this volume describe the development of actual practices of organizations working to reinvigorate citizenship at the urban scale Collectively they locate institutional forms that help migrants lay claim to their cities show how migrants can become politically empowered and identify how they can expand their rights or find other ways to belong

Local Integration of Migrants Policy Jochen Franzke, José M. Ruano de la Fuente, 2020-11-27 This book presents an overview of European migration policy and the various institutional arrangements within and between various actors such as local councils local media local economies and local civil society initiatives Both the role of local authorities in this policy field and their cooperation with civil society initiatives or networks are under explored topics for research In response this book provides a range of detailed case studies focusing on the six main groups of national and administrative traditions in Europe Germanic Scandinavian Napoleonic Southeastern European Central Eastern European and Anglo Saxon

The Boundaries of EU Enlargement J. DeBardeleben, 2007-12-14 The 2004 and 2007 enlargements pushed the EU's external border further east as well as closer to unstable areas in the western Balkans With future enlargements unlikely in the short term the EU faces new challenges in securing stable relationships with these neighbouring countries while not fostering false hopes of early accession
