**Handbook of Research on Elderly Entrepreneurship** Adnane Maâlaoui, 2019-04-26 This handbook introduces readers to the concept of elderly entrepreneurship and analyzes key issues concerning individuals and institutions In addition it presents theoretical and empirical studies exploring the reasons why elderly persons choose to pursue entrepreneurship despite their advanced age To investigate this comparatively new entrepreneurial phenomenon the contributors address psychological sociological and gerontological aspects and share unique interdisciplinary insights The book s chapters are

methodologically diverse and the scale of analysis ranges from individual cases to country level patterns At a time when the world's major economies are facing a demographic challenge due to ageing populations elderly entrepreneurship may provide new economic opportunities and motivate more inclusive policymaking Breast cancer: Global quality care Didier Verhoeven, Cary Kaufman, Robert Mansel, Sabine Siesling, 2019-11-19 Developing or existing breast cancer centres strive to provide the highest quality care possible within their current financial and personnel resources Although the basics in diagnosis and treatment of breast cancer are well known providing monitoring and assessing the care offered can be challenging for most sites Based on the work of the International Congress of Breast Disease Centres this book provides a comprehensive overview of how to start or improve a breast unit wherever you live Written by a multidisciplinary team of over 100 experts from 25 countries it provides a practical guide for how to optimally organise high quality integrated breast cancer care whilst taking into account the local economics and resources available to different countries Each component of the care pathway including imaging surgery systemic treatment nursing and genetic assessment is discussed from a theoretical and practical aspect The authors define targets to strive for methods to assess care and key recommendations for how to improve within existing limitations Finally the book looks beyond the breast care unit to consider accreditation and certification emerging technologies media and the role of governments This guide will be valuable for anyone working in the field of integrated breast cancer care including established breast care experts those new to the field and policy makers interested in the social financial and political aspects of improving breast care quality *Journal of the National Cancer Institute*, 2008 *Rare Cancer Agenda 2030* Rare Cancers Europe, 2020-02-24 RARE CANCER AGENDA 2030 Ten Recommendations from the EU Joint Action on Rare Cancers 1 Rare cancers are the rare diseases of oncology 2 Rare cancers should be monitored 3 Health systems should exploit networking 4 Medical education should exploit and serve healthcare networking 5 Research should be fostered by networking and should take into account an expected higher degree of uncertainty 6 Patient physician shared clinical decision making should be especially valued 7 Appropriate state of the art instruments should be developed in rare cancer 8 Regulation on rare cancers should tolerate a higher degree of uncertainty 9 Policy strategies on rare cancers and sustainability of interventions should be based on networking 10 Rare cancer patients should be engaged *Higher education leadership for democracy, sustainability and social justice* Sjur Bergan, Ira Harkavy, Ronaldo Munck, 2023-11-01 Democracy sustainability and social justice the leading role that higher education must play in maintaining these three principles This publication Higher education leadership for democracy sustainability and social justice arises from the global forum that the Council of Europe the International Consortium for Higher Education Civic Responsibility and Democracy the Organization of American States and the International Association of Universities organised at Dublin City University in June 2022 It also arises from the challenges of Covid 19 which both highlighted and contributed to the fragility of democracy with the increasing erosion of democratic participation the deepening of extreme

inequities the strengthening of identity and nationalistic politics and the promotion of populist anti intellectualism involving attacks on science and knowledge itself In this book authors from Europe the United States and Latin America argue that democracy sustainability and social justice are inextricably linked and that we can impact none of them unless higher education plays an important role in identifying the issues and helping society devise a viable and robust response The book argues that higher education must do more than develop and disseminate knowledge and understanding Higher education must influence the way individuals and societies behave Higher education must lead The importance of this leadership is illustrated by the inclusion of the Dublin Global Forum in the programme of the Irish Presidency of the Committee of Ministers of the Council of Europe and will be borne out by the positions and actions of the higher education community
