European Security In The 1990s:

European Security in the 1990s W. Laqueur, L. Sloss, 2013-11-11 Rarely if ever have the political economic and military foundations of the Western Alliance been in such a state of flux Walter Laqueur and Leon Sloss therefore deserve credit not just for the quality of the analysis in this superb book but also for the timeliness of its appearance As Laqueur says in his chapter Touring the Western European Defense Horizon if the likely development of European defense policies is not particularly reassuring at least it gives no grounds for despair The list of problems we face is a daunting one First there is the spiralling cost of defense expenditures particularly in the absence of significant NATO or inter European cooperation This is particularly serious in light of the reluctance to increase or even maintain current expenditures in the midst of Mikhail Gorbachev's peace offensive and the extraordinary changes in Eastern Europe both of which have had a dramatic impact on Western public opinion There is also a problem in the perceived relative economic decline of the United States vis a vis Western Europe and Japan which only exacerbates calls to reduce the number of American troops in Europe Other dangers to the political cohesion and military credibility of the alliance include demographic trends that threaten current manpower levels transatlantic acrimony over the burden sharing issue and political pressures particularly in West Germany toward denuclearization and even neutralism

A European Security Architecture after the Cold War G. Aybet, 2000-06-05 A European Security Architecture after the Cold War provides a critical account of the re projection and redefinition of Western values and security institutions in the post Coldwar era This transformation is explored in three stages The first stage covers the period 1990-91 and explains the preservation of a western security community inherited from the Cold War through a process of institutional reconstruction largely carried out on paper The second stage from 1991 to 1992 sees the incorporation of a purpose for these institutions as a framework for the implementation of collective security The third stage explores the emerging questions of legitimacy surrounding the new tasks of these institutions as they become embroiled in the war in the former Yugoslavia The precedents of legitimate intervention in upholding democracy free markets and human rights in the post coldwar era are examined from the perspectives of international law and Gramscian derived concepts of legitimacy focusing on the acceptance of military power by civil society and how intervention in these terms becomes a cultural practice

The European Community and the Security Dilemma, 1979-92 Holly Wyatt-Walter, 2016-07-27 This book shows how the relationship between security and integration in Western Europe depends upon an enduring implicit bargain between the US and its European allies Despite internal and external pressures to develop a European security and defence identity distinct from NATO in the 1980s and 1990s EC member states have consistently rejected supranational integration in the areas of

security and defence Despite considerable European dissatisfaction with American leadership of NATO Europe has continued to accept that leadership even after the end of the Cold War and the signing of the Maastricht Treaty

The Dynamics of European Security Cooperation, 1945-91 Gülnur Aybet, 2016-01-12 This is the first integrated analysis of all aspects of security cooperation in western Europe from 1945 to 1991 It provides an accessible yet sophisticated survey of the wider dynamics of security cooperation in each decade throughout this period It covers all aspects of security cooperation which range from the political such as a European voice in arms control to military such as a European input into NATO strategy and economic involving collaboration in defence technology and production

The Future of European Security J. Philip Rogers, 1993-06-18 Brings together a number of prominent American and European policy makers and analysts to examine the key issues involved in the new political thinking about Europe's security The overall picture is optimistic but events such as the Yugoslav civil war suggest perhaps a more dangerous future

European Security in the 1990s Victor-Yves Ghebali, Brigitte Sauerwein, 1995

Security in 21st Century Europe Andrew Cottey, 2012-11-19 Fully revised and updated the second edition of this leading textbook provides a systematic assessment of security in contemporary Europe The book examines the changing character of security and assesses the extent of the threats posed by different challenges as well as the policy dilemmas involved in responding to these concerns The nature of security in Europe has been transformed in recent years Andrew Cottey argues that this is a result of two key developments the emergence of a security community a zone of peace where war is inconceivable across much of Europe and the presence of new security threats such as terrorism and energy dependence Set in the context of the rising power of non Western states and the continuing fall out from the global economic crisis this text provides a comprehensive analysis of Europe's new security challenges Europe's traditional problem of war between states is being displaced by a new and equally daunting set of security challenges While major war within Europe remains unlikely the 2008 Georgia war and the 2011 Libya war were reminders that violent conflicts are still prevalent on Europe's periphery and can pose major challenges for European governments NATO and the EU At the same time terrorism nuclear proliferation as well

as non military problems like mass migration and climate change threaten Europe s security This text is the perfect companion for advanced undergraduate and Master s level courses on European security whether within courses in Security studies European studies or International Relations New to this Edition New framework for analysing European security Highly topical issues covered including Arab Spring rise of BRIC countries terrorism and European energy dependence

Inclusion, exclusion and the governance of European security Mark Webber, 2013-07-19 How inclusive are NATO and the EU The enlargement of both organisations seems to give some substance to the vision of a Europe whole and free articulated at the Cold War s end Yet more recently enlargement s limits have increasingly come to be recognised bringing with it an important debate on the balance to be struck between inclusion and exclusion This book examines that sometimes awkward balance Its analytical starting point is the characterisation of much of Europe as a security community overlain by a system of security governance The boundary of this system is neither clear nor fixed but a dynamic of inclusion and exclusion can be said to exist by reference to its most concrete expression that of institutional enlargement On this basis the book offers an elaboration of the concept of security governance itself complemented by a historical survey of the Cold War and its end the post Cold War development of NATO and the EU and case studies of two important excluded states Russia and Turkey

European Security in the 1990s United Nations Institute for Disarmament Research, 1992 **The New European Security Calculus**

Thomas-Durell Young, 1991 The author of this report argues that while there has been considerable attention in the public domain about the fundamental changes which have recently transpired in Europe very little has been written concerning the effect these political and security changes will have on the U S Army The Seventh Army in Germany has been a symbol of the U S commitment to NATO for over 40 years Now that the threat to our allies in Central and Western Europe has diminished at best or become ambivalent at worst just where does the Army fit in the future of the European security environment The author contends that there continues to be a need for a U S Army presence in Europe for security and political reasons however only if it is willing and capable of changing in terms of its structures and attitudes
