European Studies In Phonetics And Speech Communication:

European Studies in Phonetics and Speech Communication Gerrit Bloothoof, 1995 **Spoken Language System and Corpus Design** Dafydd Gibbon, Roger Moore, Richard Winski, 2013-02-06 No detailed description available for Spoken Language System and Corpus Design *A Phonetic and Phonological Account of the Civilian Vowel Duration* Hugues Steve Ndinga-Koumba-Binza, 2011-12-14 This is an experimental phonetic investigation into the vowel duration system of Civilian an indigenous language spoken in Gabon and some of its neighboring countries Apart from providing insight into how mother tongue speakers articulate and perceive certain vowels it contributes significantly to the establishment of a credible orthography for this language Speech data acquired through extensive fieldwork were analyzed acoustically to determine sound qualities after which perception tests were administered to determine how listeners perceive vowel sounds in different environments The findings are of significance for linguistic descriptions per se as well as for eventual use in the field of human language technologies This seven chapter book is mainly intended for an expert readership and for students of phonetics and phonology **Laboratory Phonology 10** Cécile Fougeron, Barbara Kuehnert, Mariapaola Imperio, Nathalie Vallee, 2010-08-31 The present volume contains a selection of the papers and commentaries which were originally presented at the Tenth Conference of Laboratory Phonology LabPhon10 held in Paris from June 29 to July 1 2006 The theme of the volume is Variation Phonetic Detail and Phonological Representation It brings together specialists of different fields of speech research with the goal to discuss the relevance of patterns of variation and phonetic details on phonological representations and theories The topic is addressed from the angles of speech production perception acquisition speech disorders and language universals The contributions are grouped thematically in five sections each of which is commented by invited discussants Section I contains the contributions to the special 10th anniversary session of the conference which represent in a prototypical way some of the different research questions that have been at the core of important debates over the last 20 years in the laboratory phonology community Issues of phonological universals and language typology are addressed in section II In section III the notions of variation and phonetic detail are examined with regard to how they are acquired and dealt with in the formation of phonological representation in emerging systems Section IV focuses on recent work at the crossroad between normal and disordered speech **Proceedings of the Fourth International Workshop on the History of Speech Communication Research** Volín, Pavel Šturm, 2021-09-01 This volume contains studies presented at the 4th International Workshop on the History of Speech Communication Research HSCR 2021 The series of workshops was initiated in Dresden in 2015 The current workshop took place in Prague at the Institute of Phonetics Charles University amid the ever changing pandemic circumstances for the first time in a hybrid form There are nine contributions written by 12 authors from six countries The contributions analyze the contextual background of particular personalities or investigate how specific research practices developed over time Moreover each contribution demonstrates a significant connection between

various aspects of speech communication research and the wider social context A special theme of this workshop was the link in linguistic signs between the form sound and the meaning sense The phonetic endeavour was often claimed to concern only the form while meaning was delegated to someone else This is not only one sided but also difficult to integrate into the large body of scientific knowledge as the opening keynote emphasized
