European Union And Migrant Labor:

Trade Unions and Migrant Workers Stefania Marino, Judith Roosblad, Rinus Penninx, 2017-12-29 This timely book analyses the relationship between trade unions immigration and migrant workers across eleven European countries in the period between the 1990s and 2015 It constitutes an extensive update of a previous comparative analysis published by Rinus Penninx and Judith Roosblad in 2000 that has become an important reference in the field The book offers an overview of how trade unions manage issues of inclusion and solidarity in the current economic and political context characterized by increasing challenges for labour organizations and rising hostility towards migrants *Labour Migration in the European Union* Gönül Oğuz, 2020-03-12 No analysis of migration in Europe today can avoid consideration of the role of the EU institutions as well as the member states in policy making This is because the obstacles for labour mobility which have confronted the EU in the post enlargement period have been multi dimensional in nature have encompassed many different aspects of European integration process and have operated at many different levels Recent developments in the free movement of labour in Europe entail a comprehensive analysis of the dynamic of migration policy process contextualising institutional change cooperation control and competition between the EU institutions and the member states This book provides a picture of how governance of labour migration is constructed managed negotiated and decided at the European level It brings together in an informed and well organized way some of the key issues in the face of current migration crises and Brexit

EU Migrant Workers, Brexit and Precarity Eva A. Duda-Mikulin, 2019-03-29 How has the Brexit vote affected EU migrants to the UK This book presents a female Polish perspective using findings from research carried out with migrants interviewed before and after the Brexit vote voices of real people who made their home in the UK It looks at how migrants view Brexit and what it means for them how their experiences compare pre and post Brexit vote and their future plans as well as considering the wider implications of the migrant experience in relation to precarity and the British paid labour market

Migrant Labour and the Reshaping of Employment Law Bernard Ryan, Rebecca Zahn, 2023-04-20 The presence of migrant workers has become a central feature of labour markets in highly developed countries The International Labour Organisation estimates that in 2013 there were 112 million resident migrant workers in the 58 highest income countries who made up 16% of the workforce Non resident workers have also increasingly become part of the labour available for employment in other states often on a temporary basis This work takes a thematic and comparative approach to examine the profound implications of contemporary labour migration for employment law regimes in highly developed countries In so doing it aims to promote greater recognition of labour migration related questions and of the interests of migrant workers within employment law scholarship The work comprises original analyses by leading scholars of migration and employment law at the European Union level and in Australia Canada Germany Italy the Netherlands Spain the United Kingdom and the United States The specific position of migrant workers is addressed for example as regards equality of treatment or the

position in employment law of migrant workers without a right to work The work also explores the effects of migration levels and patterns upon general employment law including the law relating to collective bargaining and remedies against exploitation Migration, Work and Citizenship in the Enlarged European Union Samantha Currie,2016-04-22 Drawing upon socio legal research this insightful book considers labour migration within the context of eastward European Union enlargement Specifically this volume explores the legal rights of accession nationals to access employment their experiences once in work and their engagement with broader family and social entitlement By combining analysis of the legal framework governing free movement related rights with analysis of qualitative data gained from interviews with Polish migrants this volume is able to speculate on the significance the status of Union citizenship holds for nationals of the recently acceded CEE Member States Citizenship is conceptualised not merely as rights but as a practice a real lived experience The citizenship status of migrants from the CEE Member States is shaped by formal legal entitlement law in action as it is implemented by the Member States and accessed by the migrants and social and cultural perceptions and experiences on the ground

Low-Paid EU Migrant Workers Catherine Barnard,Fiona Costello,Sarah Fraser Butlin,2024-04-24 Available open access digitally under CC BY NC ND licence This book offers an in depth exploration of the lives of EU migrant workers in the UK following Brexit and COVID 19 Drawing on a longitudinal study the book delves into the legal problems migrant workers face and sheds much needed light on the hidden interactions between the law and communities around issues such as employment housing welfare and health Through personal narratives and insights gathered from interviews it reveals how clustered legal problems arise are resolved and often bypass formal legal resolution pathways This is an invaluable resource that provides a rich picture of everyday life for migrant workers in the UK and highlights the vital role of NGOs working to support them *EU Labor Markets After Post-Enlargement Migration* Martin Kahanec,Klaus F. Zimmermann,2009-10-10 Selected by Princeton University as Noteworthy Book in Industrial Relations and Labor Economics for 2010 Are immigrants from the new EU member states a threat to the Western welfare state Do they take jobs away from the natives And will the source countries suffer from severe brain drain or demographic instability In a timely and unprecedented contribution this book integrates what is known about post enlargement migration and its effects on EU labor markets Based on rigorous analysis and hard data it makes a convincing case that there is no evidence that the post enlargement labor migrants would on aggregate displace native workers or lower their wages or that they would be more dependent on welfare While brain drain may be a concern in the source countries the anticipated brain circulation between EU member states may in fact help to solve their demographic and economic problems and improve the allocative efficiency in the EU The lesson is clear free migration is a solution rather than a foe for labor market woes and cash strapped social security systems in the EU **Law, Migration and Precarious Labour** Anastasia Tataryn,2020-11-09 Providing a radical new approach to labour migration this book challenges the prevailing legal and political construction of the figure of the irregular migrant labourer whilst at the

same time reimagining this irregularity as the basis of an alternative post capitalist sociality The text draws on the work of contemporary philosopher Jean Luc Nancy and more specifically his term ecotechnics in order to examine how economic political and juridical norms deny the full legal status of certain people who are deemed to be irregular This ostensible irregularity is revealed as a regular feature of labour market practice and a necessary support for the conceptual foundations of capitalist legality As this book shows however this legality and with it the technological subordination of life to the circulation of capital as if this were the only possibility for our being in the world is not insurmountable The book's consideration of the figure of the irregular migrant labourer comes to provide an alternative basis for reimagining our relationship not only with migration and with labour itself but ultimately with each other This powerful analysis of contemporary labour migration is of considerable interest to legal and political theorists philosophers labour lawyers migration experts and others with theoretical political or policy interests in this area

most vulnerable social groups in our societies immigrant workers through a multidisciplinary approach Migration has sometimes been oversimplified as a flow of workers from poorer developing nations to wealthier industrialised nations The issue however is more complex and currently migration is a global phenomenon in which all countries are recipients of workers from third countries and send workers to third countries The working conditions of immigrant workers at various levels are not always well known though some studies have established that the negative impact on migrant workers is cumulative and primarily stems from adverse living and working conditions in a new country and increased levels of vulnerability The contributions to this volume cover discussions on migrant workers in the industrial agricultural and service sectors across the world They critically study the impact of work Hazards on the health and wellbeing of migrant workers in order to shed light on the social and health implications of migrant work explore the relation between organizational psychosocial and work factors and analyse the migration process from a wider perspective and as a global phenomenon present in every country The contributors provide multidisciplinary and multicultural contemporary perspectives thereby providing readers with wide ranging insights This volume is of interest to researchers and students from the social and behavioural sciences particularly those focusing on health studies and migration studies

European Union in the Global Context Simon Sweeney, 2023-12-22 European Union in the Global Context explores the interplay between the state and state sovereignty nationalism European integration and globalisation It provides

essential foundations in these areas while using stimulating arguments to prompt discussion and provoke interest in the relationships between these processes. It critically analyses the challenges faced by the EU from the contemporary political and economic dynamics of globalisation. IPE including trading relationships set through the WTO and bilateral relations with emerging markets especially the BRICS economies. Likewise pressures from within such as a resurgence of nationalism, localisation, anti-austerity politics and Euroscepticism are examined. While the Union is fundamentally challenged by pressures from above and below and by its own internal dysfunction, it remains central to the effective management of the international political economy. *European Union in the Global Context* is a lively, focused and engaging text incorporating anecdotes and contemporary arguments and presenting different perspectives on European integration and globalisation. It will be of key interest to students of European Politics, European Studies, European Union Studies and more broadly global political economy, foreign and security policy and international relations.

Migrant Domestic Workers in Europe Vera Pavlou, 2021-10-21. This book explores the often neglected but overwhelmingly common everyday vulnerability of those who support the smooth functioning of contemporary societies: paid domestic workers. With a focus on the multiple disadvantages these often migrant workers face when working and living in Europe, the book investigates the role of law in producing, reinforcing or alternatively attenuating vulnerability to exploitation. It departs from approaches that focus on extreme abuse such as modern slavery or trafficking to consider the much more widespread day-to-day vulnerabilities created at the intersection of different legal regimes. The book therefore examines issues such as low wages, unregulated working time, dismissals and the impact of migration status on enforcing rights at work. The complex legal regimes regulating migrant domestic labour in Europe include migration and labour law sources at different levels: international, national and as this book demonstrates also EU. With an innovative lens that combines national comparative and multilevel analysis, this book opens up space for transformative legal change for migrant domestic workers in Europe and beyond.

From Migrant to Worker Michele Ford, 2019-04-15. What happens when local unions begin to advocate for the rights of temporary migrant workers? asks Michele Ford in her sweeping study of seven Asian countries. Until recently unions in Hong Kong, Japan, Malaysia, Singapore, South Korea, Taiwan and Thailand were uniformly hostile towards foreign workers, but Ford deftly shows how times and attitudes have begun to change. Now she argues NGOs and the Global Union Federations are encouraging local unions to represent and advocate for these peripheral workers and in some cases succeeding. *From Migrant to Worker* builds our understanding of the role the international labor movement and local unions have had in developing a movement for migrant workers' labor rights. Ford examines the relationship between different kinds of labor movement actors and the constraints imposed on those actors by resource flows, contingency and local context. Her conclusions show that in countries Hong Kong, Malaysia and Thailand where resource flows and local factors give the Global Union Federations more influence, local unions have become much more engaged with migrant workers. But in countries Japan and Taiwan, for example, where

they have little effect there has been little progress While much has changed Ford forces us to see that labor migration in Asia is still fraught with complications and hardships and that local unions are not always able or willing to act

Temporary Labour Migration in the Global Era Joanna Howe,Rosemary Owens,2016-11-17 In the global era controversies abound over temporary labour migration however it has not previously been subjected to a sustained socio legal analysis on a comparative basis critiquing the underpinning concepts conventionally accepted as fundamental in this area This collection of essays aims to fill that void Complex regulatory challenges arise from temporary labour migration This collection examines these challenges and the extent to which temporary labour migration programmes can be ethical equitable and efficacious and so deliver decent work for workers Whilst the tendency for migration law to divide labour law s worker protective mission has been observed before the authors of the chapters comprising this collection seek not only to interrogate why and how this is so but to go further in examining the implications and effects of a wide range of regulatory mechanisms on temporary labour migration

Ensuring the Rights of Migrant Workers Nguyen Thi Hong Yen,Nguyen Toan Thang,Nguyen Thi Kim Ngan,Su Wai Mon,2024-05-29 This collection provides insights into international labor migration in the context of globalization through the lens of international law and national law of some Asian countries that are the home countries of migrant workers The main focus of the volume is on challenges regarding international labor migration that some developing countries in Asia have been confronted with It investigates and determines current situations in some Asian developing countries having the majority of overseas migrant workers It also places some emphasis on national regulatory systems of policies and regulations regarding overseas labour migration from those countries In addition in light of the current situation on international labour migration the chapters outlines some recommendations and solutions for those selected developing countries in Asia to resolve existing problems to effectively ensure the protection of the rights of overseas labor migrants and governance of international labor migration in accordance with international standards
