The Oxford Handbook of the European Union Erik Jones, Anand Menon, 2012-08-30 This is an authoritative one volume and independent treatment of the history functioning and nature of the European integration Written by a selection of leading scholars It covers the major institutions policies and events in the history of integration whilst also providing a guide to the major theoretical approaches that have been used to study it over time By bringing together such a distinguished cast covering such a wide array of themes the Handbook is intended as a one stop shop for all

those interested in the European Union and its predecessors Written in an accessible style the volume is intended to shape the discipline of EU studies and to establish itself as the essential point of reference for all those interested in European integration both in universities and more broadly It represents a timely guide to an institution that is much discussed but often only imperfectly understood Negotiation Theory and the EU Andreas Dür,Gemma Mateo,Daniel C.

Thomas,2013-10-31 Negotiations are central to the ethos and functioning of the European Union yet the dynamics of EU negotiations have received far too little systematic scholarly attention This volume offers a thematic and forward looking survey of cutting edge research on EU negotiation dynamics identifying findings to date and setting an empirical and methodological agenda for future research The chapters by leading international experts address a wide range of critical questions in this area including What factors influence negotiation behaviour and outcomes in the EU How can we explain variation in the choice of negotiation styles When do actors engage in arguing or bargaining What are the determinants of bargaining power What are the institutional foundations of EU negotiations And what role does the presidency play in EU negotiations The volume also discusses how the findings of the multi disciplinary field of negotiation studies can inform research on negotiation dynamics in the EU The volume will be of great interest to established scholars and advanced students of international relations European integration and governance and negotiation analysis This book was based on a special issue of Journal of European Public Policy **The Nordic Countries and the European Union** Caroline Howard Grøn,Peter Nedergaard,Anders Wivel,2015-02-20 In European policy making the Nordic countries are often viewed as a relatively coherent bloc in international and European affairs the Nordic position has traditionally been conditioned on being different from and better than Europe This book offers a coherent original and systematic comparative analysis of the relationship between the Nordic countries and the European Union over the past two decades It looks at the historical frame institutions and policy areas addressing both traditional EU areas such as agriculture and more nascent areas affecting the domestic and foreign policies of the Nordic countries In doing so it examines how the Nordic approach to European policy making has developed and explains why the Nordic countries are similar in some respects while differing in others when engaging with EU institutions In highlighting the similarities and differences between the Nordic countries it explores what lessons positive and negative may be drawn from this approach for the Nordic countries and other small states This book will be of interest to scholars students and practitioners engaged with the Nordic Countries EU politics and policy making European politics and comparative politics **External Perceptions of the European Union as a Global Actor** Sonia Lucarelli,Lorenzo Fioramonti,2009-10-16 This book examines how the European Union EU is perceived beyond its borders in the US the Middle East Israel Palestinian territories Lebanon Iran Russia China India Brazil and South Africa The book also analyses the main perceptions of the EU in some key international institutions including the World Bank World Trade Organization United Nations African Union and transnational actors including non Western media such as Al Jazeera It seeks

to provide a thorough analysis of the implications that these perceptions might have for the global role of the EU. By taking this approach and by providing both conceptual and empirical arguments the volume provides an innovative perspective on the analysis of the EU as a global actor. It also strengthens a research agenda on the EU external image, an underdeveloped area of investigation in which the editors and the main contributors to this volume have played a pioneering role in the past few years. It will be of strong interest to academics and students of international politics, European studies and development studies.

The Diplomatic System of the European Union Michael Smith, Stephan Keukeleire, Sophie

Vanhoonacker, 2015-06-12 Over the past five years the EU has established a new system of diplomacy centred on the European External Action Service (EEAS) and the High Representative for Foreign Affairs and Security Policy. This new system reflects a process of evolution in a changing context and has been faced by major challenges since its inception. This book examines the diplomatic system of the EU, locating it within the broader study of diplomacy and the European integration project. The volume is structured around the interrelated themes of institutional change and the evolving practices of EU diplomacy. It tracks the development of the EU's system of diplomacy with particular reference to the implementation of the Lisbon Treaty, the establishment of the EEAS and the emerging practices of EU strategic and structural diplomacy. Bringing together contributions from leading experts in the field, this book provides an original approach to the development and operation of the EU's diplomatic system. This book will be of interest to students and scholars of European Union international relations, European Union politics and diplomacy.

The Trade-Development Nexus in the European Union

Maurizio Carbone, Jan Orbie, 2016-03-22 This volume offers new perspectives on the evolution of the trade development nexus in the European Union against dramatic changes in the international context. Without disregarding them, it seeks to go beyond the controversial and extensively researched Economic Partnership Agreements (EPAs). In particular, it focuses on the reform of the Generalised System of Preferences, the negotiation of various Preferential Trade Agreements, the application of trade sanctions, the allegedly ambitious agendas on decent work, Aid for Trade and aid untying and the implications of the changing balance of power in global economic relations. Taking diverse approaches and at times reaching different conclusions, contributors directly or indirectly address one or more of the three general themes of the book: differentiation, coherence and norms. This book was published as a special issue of Contemporary Politics.

Trading Voices Sophie Meunier, 2005 The European Union, the world's foremost trader, is not an easy bargainer to deal with. Its twenty-five member states have relinquished most of their sovereignty in trade to the supranational level and in international commercial negotiations such as those conducted under the World Trade Organization, the EU speaks with a single voice. This single voice has enabled the Brussels-based institution to impact the distributional outcomes of international trade negotiations and shape the global political economy. *Trading Voices* is the most comprehensive book about the politics of trade policy in the EU and the role of the EU as a central actor in international commercial negotiations. Sophie Meunier explores how this pooling

of trade policy making and external representation affects the EU's bargaining power in international trade talks Using institutionalist analysis she argues that its complex institutional procedures and multiple masters have more than once forced its trade partners to give in to an EU speaking with a single voice Through analysis of four transatlantic commercial negotiations over agriculture public procurement and civil aviation *Trading Voices* explores the politics of international trade bargaining It also addresses the salient political question of whether efficiency at negotiating comes at the expense of democratic legitimacy Finally this book looks at how the EU with its recent enlargement and proposed constitution might become an even more formidable rival to the United States in shaping globalization *European Union Enlargement*

Michael Schwarzing, 2017-09-29 *European Union Enlargement* offers an intense and detailed analysis of the almost ten year process of preparing and negotiating the accession of Eastern Southeastern and Central European countries as well as Mediterranean countries to the European Union In the end ten joined in 2004 with two more to follow in 2007 *European Union Enlargement* was written by two diplomats who were directly involved in that process Sajdik and Schwarzing relate their first hand experience of proceedings that occurred behind closed doors They detail how the vision of adding some countries gradually developed into the concrete policy intended to enlarge the European Union A special chapter explains the Accession Process as well as the Union's strategy that prepared the candidate countries in legal and economic terms for membership The authors describe in detail the complex negotiations that occurred from 1998 to 2002 These include activities of EU member states as well as the European Commission with respect to the candidate countries They further offer a brief analysis of future possibilities of EU accession by Balkan nations and Turkey A number of topical chapters deal with particular key issues involved in the process free movement of workers agriculture financing of the enlargement transport and nuclear safety Other chapters deal with the enclave of Kaliningrad as well as the Stability and Association Pact for South East Europe In addition to providing key information about the process this volume is also a case study of European policies and diplomatic practice The enlargement negotiations from 1998 to 2002 were the most complex ones the European Union had ever conducted In consequence this work gives insight into the working methods of both the institutions in Brussels and of the representatives of the member states that made them a success It will be of interest to those concerned with European politics international organizations and area studies **Negotiation and Foreign Policy Decision Making**

Melania-Gabriela Ciot, 2014-06-02 Foreign policy decisions are influenced by many factors The real world is complex and many variables have to be considered when making a decision A psychological approach to decision making facilitates the understanding and explaining of the complexity of foreign and global policies precisely because of the prolonged transitional stage of the contemporary international system The course of world politics is shaped by the decisions of leaders Uncertainty involved in decision making in foreign policy can relate to the motivations beliefs intentions or calculations of the opponents If it is not possible to understand how decisions are made then maybe it is at least feasible to understand these decisions and

perhaps more importantly predict various results with regards to international politics This book provides a new perspective on the study of international relations by analyzing the subjective elements idiosyncrasies that occur in decision making at the individual level The use of psychological methods of analysing the foreign policy decision making process proposes a necessary investigation path into international relations

Divergent Pathways: Turkey and the European Union

Meltem Müftüler-Baç,2016-01-18 Should Turkey become a part of the European Union This heated debate has been going on for many years now always under the assumption that it is the membership candidate alone who needs to adjust to the EU s influence The book s main argument is precisely that the Turkish accession needs to be analyzed not only by looking at the EU s impact on Turkish transformation but also from an angle that captures the Turkish role in recasting Europe
