European Union Public Finance:

Public Financial Management in the European Union Marta Postuła, 2022-04-19 This book reveals how to create efficient institutions and coordinate policy on a transnational scale to ensure that European Union integration can best meet social needs. It offers a combined technocratic and humanist perspective on the discussion of public financial management. The state as part of its public policy should seek to preserve our social and environmental values yet there are mounting imbalances in society which point to the growing role of the state in minimising them. Under such circumstances it is worth reflecting on how new challenges could require updated more complex formulas to deal with crises in current times and for social and economic policy making by states and the European Union generally which would ensure their compatibility with the world financial markets. The work offers an in depth and unique performance analysis of European Union institutions compared to the national entities of EU Member States. It contributes to the ongoing debate on global public goods and the processes involved in managing their provision. Further it discusses public finance management instruments indicating their historical evolution in practice and their effectiveness measured with the Human Development Index. The author presents a proposal of how to manage global European and national public goods across three areas: environmental protection, transnational infrastructure projects and social policy. The book analyses public financial management instruments used during the recent pandemic making a distinction between regular and emergency instruments and assessing their effectiveness in specific economic situations. This will be of interest to researchers and students of economics and finance as well as decision makers and practitioners from governments, international organisations and specific non governmental organisations concerned with issues of public finance management.

European Union Public Finance European Commission. Directorate-General for the Budget, 2014. As well as a presentation of the new 2014-2020 multiannual financial framework, this book covers the full history of the EU budget from 1953 on. It also offers an in depth explanation of the legal framework governing the adoption and management of the EU budget as well as an overview of its structure. Last but not least it features a detailed overview of the control mechanisms which apply to the EU budget so that it respects sound financial management principles. This publication provides expert readers with the information needed to gain a more detailed understanding of how the EU budget can contribute to building a competitive and more prosperous Europe. It can also serve as a solid reference work for all those interested in EU budgetary matters.

The New Public Finance Inge Kaul, Pedro Conceicao, 2006-02-23. The world's agenda of international cooperation has changed. The conventional concerns of foreign affairs, international trade and development assistance are increasingly sharing the political center stage with a new

set of issues These include trans border concerns such as global financial stability and market efficiency risk of global climate change bio diversity conservation control of resurgent and new communicable diseases food safety cyber crime and e commerce control of drug trafficking and international terrorism and weapons of mass destruction Globalization and increasing porosity of national borders have been key driving forces that have led to growing interdependence and interlocking of the public domains and therefore public policy concerns of countries governments private businesses civil society and people at large Thus new and different issues are now occupying top places on national policy agendas and consequently on the agendas of international negotiating forums The policy approaches to global challenges are also changing A proliferation and diversification of international cooperation efforts include focus on financing arrangements Financing of international cooperation in most instances is a haphazard and non transparent process and often seems to run parallel to international negotiations There are many unfunded mandates and many non mandatory funds To agree on and to achieve international economic goals we need to understand how financing of international cooperation efforts actually works Our understanding is hampered by two gaps 1 lack of an integrated and cohesive theoretical framework 2 lack of consolidated empirical and operational knowledge in the form of a comprehensive inventory of past current and possible future i e currently deliberated financing mechanisms This book reduces these two gaps and provides a guide to improve our ability to finance international cooperation *Green Finance in the European Union* Marta Postuła, Mariusz

Lipski, 2024-09-02 While global challenges continue to reshape the here and now public and corporate finance management needs to adapt quickly to increase the efficiency of institutions enterprises and policies to face our new reality There are very few publications that offer a comprehensive approach to the financing of environmental protection activities by the European Union This book explores this topic from various angles and levels as well as highlighting the determinants that influence micro and macro level decisions in this area It presents an in depth and unique analysis of the sources of funding for environmental measures implemented by European Union institutions against the backdrop of national expenditure by Member States and analyses the plausibility of the adopted targets in the run up to 2050 in the context of the war in Ukraine and ad hoc energy policy solutions This book is a voice in an ongoing discussion among the community of practitioners and theoreticians on sources of financing for the energy transition to achieve independence from Russian sources in the quickest possible timeframe It demonstrates that environmental measures cannot occur without the financial participation of economic actors and financial institutions particularly the capital market and further underscores the scale of involvement in environmental projects as measured by the value of green loans and green bonds covered by European financial institutions The authors offer policy recommendations for financing activities related to environmental policy notably energy transition This book will appeal to scholars students and researchers of corporate finance banking strategic and public finance management as well as policymakers and practitioners involved in green finance investments European Union Public

Research Handbook on EU Administrative Law Carol Harlow, Päivi Leino, Giacinto della Cananea, 2017-02-24 Key chapters written by leading experts across the field engage with important ongoing debates in the field of EU administrative law focusing on areas of topical interest such as financial markets the growing security state and problematic common asylum procedures In doing so they provide a summary of what we know don t know and ought to know about EU administrative law Examining the control functions of administrative law and the machinery for accountability this Research Handbook eloquently challenges areas of authoritarian governance such as the Eurozone and security state where control and accountability are weak and tackles the seemingly insoluble question of citizen voice and access to policy making

National Tax Policy in Europe Krister Andersson, Eva Eberhartinger, Lars Oxelheim, 2007-09-04 European taxes have long been debated for their potential role as barriers to increased investment and welfare The discussion has often circulated around the size of the tax bases and the magnitude of the tax rate In this book we argue that in the taxation context the European Union EU is at a cross road facing strong forces pushing it into two polar positions One of these is the scenario with all welfare provided by the national regime and financed by taxes collected entirely by national authorities The other extreme is the situation where all welfare is fered at an EU level financed entirely by taxes collected at that level The two forces pressing the tax situation into one of these two

poles are spelt tax competition and welfare arbitrage The research question addressed in this book covers the existence of a potential steady state in between these two poles Our basic hypothesis is that there might be such a steady state due to the immobility of some tax bases and where the taxation of these bases have no externalities affecting investment We argue that the very complex tax structures of Europe and the tax certainty facing investors in Europe need to be addressed in a comprehensive way
