## European Visions Of Sensuality:

□□□□□□□□□□ Miro Itō,1995 Women's visions of Sensuality within the European cultural context is the underlying theme of this book To the author this female dimension itself appears on a directional level where eros is elevated to a kind of sanctuary in which women are liberated from the confines of the viewpoint of the opposite sex In her opinion there is another level of consciousness wherein women can enjoy the unrestrained expression of the state of being photographic subjects as they are approaching a profound nature of sexuality

## Changing European Visions of Disaster and Development

Vanessa Pupavac,Mladen Pupavac,2020-09-02 Goethe's 1832 poem Faust offers a vision of humanity realising freedom and prosperity through transcending natural adversity Changing European Visions of Disaster and Development returns to Faust as a way of exploring the rise and fall of European humanist aspirations to build free and prosperous national political communities protected from natural disasters Faust stories emerged in early modern Europe linked to the shaking of the traditional religious and political order and the pursuit of new areas of human knowledge and activity which led to a shift from viewing disasters as acts of God to acts of nature Faust's dam building and land reclamation project in Goethe's poem was inspired by Dutch hydro engineering and in turn inspired others Faustian dreams of an engineered future were pursued by the American Yugoslav inventor Nikola Tesla and the country of his birth towards establishing its national independence and escaping the fate of being a borderland Faust remains a compelling reference point to explore European visions of disaster and development If Faust captured the European spirit of earlier centuries what is today's outlook Ambitious Faustian development visions to eradicate natural disasters have been replaced by anti Faustian risk cosmopolitanism sceptical towards human activity in ways counter to building collective protection from disaster Tesla's country of birth fears returning to being an insecure borderland of Europe This powerful and timely book calls for a rekindling of European humanism and Faust's vision of free people standing on free land

**Sexual Encounters** Lee Wallace, 2018-05-31 European literary artistic and anthropological representation has long viewed the Pacific as the site of heterosexual pleasures The received wisdom of these accounts is based on the idea of female bodies unrestrained by civilization In a revisionist history of the Pacific zone and some of its preeminent Western imaginists Lee Wallace suggests that the fantasy of the male body rather than of the free loving female provides the underlying libidinal structure for many of the classic encounter narratives from Cook to Melville The subject of *Sexual Encounters* is sexual fantasy particularly male homoerotic fantasy found in the literature and art of South Sea exploration colonization and settlement Working at the boundaries of a number of disciplines such as queer theory anthropology postcolonial studies and history Wallace engages in subversive readings of eighteenth and nineteenth century Pacific voyage journals Cook in Hawaii and a Russian expedition to the Marquesas an argument concerning Gauguin s treatment of female figures and a discussion of homosexuality and Samoan male to female transgenderism These phenomena Wallace asserts demonstrate the continuity and dissonance between Western and Pacific sexual categories She reconstructs Pacific history through the inevitable entanglement of metropolitan and indigenous sexual regimes and ultimately argues for the importance of the Pacific in defining modern sexual categories

**European History, 1914-1945** Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today Eros and Sexuality in Islamic Art Francesca Leoni, Mika Natif, 2013 Dedicated to the topic of eroticism and sexuality in the visual production of the medieval and early modern Muslim world this volume offers new insights and methodological models that extend our understanding of erotic and sexual subjects in the Islamic tradition The essays shed light on the diverse socio cultural milieus of erotic images on the motivations underlying their production and on the responses generated by their circulation

Skilled Visions Cristina Grasseni, 2007 Most arguments for a rediscovery of the body the senses hinge on a critique of visualism in our globalized technified society This text raises the issue of the rehabilitation of vision and contextualises vision in the debate on the construction of local knowledge vs the hegemony of the socio technical network *Vision, Race, and Modernity* Deborah Poole, 2021-08-10 Through an intensive examination of photographs and engravings from European Peruvian and U S archives Deborah Poole explores the role visual images and technologies have played in shaping modern understandings of race *Vision Race and Modernity* traces the subtle shifts that occurred in European and South American depictions of Andean Indians from the late eighteenth to the early twentieth centuries and explains how these shifts led to

the modern concept of racial difference While Andean peoples were always thought of as different by their European describers it was not until the early nineteenth century that European artists and scientists became interested in developing a unique visual and typological language for describing their physical features Poole suggests that this scientific or biological discourse of race cannot be understood outside a modern visual economy Although the book specifically documents the depictions of Andean peoples Poole s findings apply to the entire colonized world of the nineteenth century Poole presents a wide range of images from operas scientific expeditions nationalist projects and picturesque artists that both effectively elucidate her argument and contribute to an impressive history of photography Vision Race and Modernity is a fascinating attempt to study the changing terrain of racial theory as part of a broader reorganization of vision in European society and culture *Literature and Film from East Europe's Forgotten "Second World"* Gordana P. Crnkovic,2021-05-06

Czechoslovakia Yugoslavia no longer on the map East Europe of the socialist period may seem like a historical oddity apparently so different from everything before and after Yet the masterpieces of literature and cinema from this largely forgotten Second World as well as by the authors formed in it and working in its aftermath surprise and delight with their contemporary resonance This book introduces and illuminates a number of these works It explores how their aesthetic ingenuity discovers ways of engaging existential and universal predicaments such as how one may survive in the world of victimizations or imagine a good city or broach the human boundaries to live as a plant Like true classics of world art these novels stories and films to rephrase Bohumil Hrabal keep telling us things about ourselves we don t know In lively and jargon free prose Gordana P Crnkovic builds on her rich teaching experience to create paths to these works and reveal how they changed lives **Decolonizing images** Ronnie Close,2024-02-06 The 2011 revolution put Egypt at the centre of discussions around radical transformations in global photographic cultures But Egypt and photography share a longer richer history rarely included in western accounts of the medium Decolonizing images focuses on the country s local visual heritage continuing the urgent process of decolonizing the canon of photography It presents a new account of the visual cultures produced and exhibited in Egypt by interpreting the camera s ability to conceal as much as it reveals The book moves from the initial encounters between local knowledge and western led modernity to explore how the image intersects with the politics of representation censorship activism and aesthetics It overturns Eurocentric understandings of the photograph through a compelling narrative of contemporary Egypt s indigenous visual culture *The European Union, Emerging Global Business and Human Rights* Aleydis Nissen,2022-11-17 A human rights study of businesses from emerging and developing countries acting as competitors to European Union based businesses *The Cambridge History of the Pacific Ocean: Volume 2, The Pacific Ocean since 1800* Anne Perez Hattori,Jane Samson,2023-01-05 Volume II of The Cambridge History of the Pacific Ocean focuses on the latest era of Pacific history examining the period from 1800 to the present day This volume discusses advances and emerging trends in the historiography of the colonial era before outlining the main themes of the

**Colonial Visions, Postcolonial Revisions** Shanthini Pillai,2008-12-18 This book offers reflections of the representations of the Indian diaspora of Malaysia according to two spectrums colonial and postcolonial It takes seed from the belief that any engagement with the Indian diasporic experience in Malaysia must take into account the role of the pioneer Indian immigrants who carved the niche of existence for the overseas Indian on Malayan soil It begins by tracing their presence within the terrain of colonial narratives to uncover not only the ways in which they were subordinated to colonial ideological discourses but also and more significantly the suppressed story of coolie resistance that lies under the weight of such masks of conquest It then moves on to show how postcolonial revisioning is able to reconstruct the Indian immigrants of Malaya as choreographers of the diasporic identity that they have left as the most significant legacy for

contemporary Malaysian Indians This book ultimately reveals the politics of Malaysian Indian identity from colonised to globalised grounds and the ways in which the subaltern spaces of the former can be reclaimed and reterritorialised in the latter
