Euthanasie In Het Derde Rijk Mercy Killing In The Third Reich:

Physician-Assisted Death in Perspective Stuart J. Youngner, Gerrit K. Kimsma, 2012-07-30 This book is the first comprehensive report and analysis of the Dutch euthanasia experience over the last three decades In contrast to most books about euthanasia which are written by authors from countries where the practice is illegal and therefore practised only secretly this book analyzes empirical data and real life clinical behavior Its essays were written by the leading Dutch scholars and clinicians who shaped euthanasia policy and who have studied evaluated and helped regulate it Some of them have themselves practised euthanasia The book will contribute to the world literature on physician assisted death by providing a comprehensive examination of how euthanasia has been practised and how it has evolved in one specific national and cultural context It will greatly advance the understanding of euthanasia among both advocates and opponents of the practice

Physician-Assisted Suicide and Euthanasia Sheldon Rubenfeld, Daniel P. Sulmasy, 2020-11-03 Unlike Nazi medical experiments euthanasia during the Third Reich is barely studied or taught Often even asking whether euthanasia during the Third Reich is relevant to contemporary debates about physician assisted suicide PAS and euthanasia is dismissed as inflammatory Physician Assisted Suicide and Euthanasia Before During and After the Holocaust explores the history of euthanasia before and during the Third Reich in depth and demonstrate how Nazi physicians incorporated mainstream Western philosophy eugenics population medicine prevention and other medical ideas into their ideology This book reveals that euthanasia was neither forced upon physicians nor wantonly practiced by a few fanatics but widely embraced by Western medicine before being sanctioned by the Nazis Contributors then reflect on the significance of this history for contemporary debates about PAS and euthanasia While they take different views regarding these practices almost all agree that there are continuities between the beliefs that the Nazis used to justify euthanasia and the ideology that undergirds present day PAS and euthanasia This conclusion leads our scholars to argue that the history of Nazi medicine should make society wary about legalizing PAS or euthanasia and urge caution where it has been legalized *Silence, Scapegoats, Self-reflection* Volker Roelcke, Sascha Topp, Etienne Lepicard, 2015-01-28 Since the end of World War II Nazi medical atrocities have been a topic of ambivalent reactions and debates both in Germany and internationally An early period of silence was followed by attempts of victims and representatives of medical organisations to describe what happened Varying narratives developed some of which had a stabilizing function for the identity of the profession whereas others had a critical and de stabilizing function In today s international debates in the field of medical ethics there are frequent references to Nazi medical atrocities in particular in the context of discussions about research on human subjects and on euthanasia The volume analyses the narratives on Nazi medical atrocities their historicity in different stages of post war medicine as well as in the international discourse on biomedical ethics *Death And Medical Power: An Ethical Analysis Of Dutch Euthanasia Practice* ten Have, Henk, Welie, Jos, 2005-05-01 This book is a well referenced review of the history of the societal debate attempts at

regulation and the practice itself In addition it discusses important and insightful distinctions active passive omission commission outcomes intentions The unique basis for their conclusion makes an outstanding contribution to the literature Robert D Orr MD CM Professor of Bioethics at Loma Linda University California USA How have Dutch debates on end of life care developed so differently from most other countries finally resulting in the legalization of euthanasia What are the relevant legal medical and ethical dimensions of euthanasia and physician assisted suicide What lessons can be learned from the Dutch experience with euthanasia In all modern countries a good death and relief of suffering are important issues of public debate The bioethical debate in the Netherlands is unique since it has been focusing on the issue of euthanasia for more than thirty years This book describes the debate explains its origins and analyses its development resulting in the legislation of euthanasia It also presents data on the medical practice of euthanasia with examples of cases Death and Medical Power details the evolution as well as the complexities of the legal responses to physician involvement in euthanasia The authors analyze the ethical debate concerning euthanasia discussing the pros and cons of medical termination of human life The book concludes with a section on the lessons to be learned from the Dutch experience This unique study will be of relevance to all clinicians and other professionals involved in end of life care to health policy makers and educators as well as anybody else interested in the ethics of euthanasia

Death and Deliverance Michael Burleigh,1994-10-27 The first full scale study in English of the Nazis so called euthanasia programme in which over 200 000 people perished In the Name of the People: Perpetrators of Genocide in the Reflection of Their Post-War Prosecution in West Germany Dick de Mildt,2024-01-15 In the Name of the People explores the profile of the perpetrators of Nazi genocide as reflected in postwar German trial sentences It investigates their social background their route to crime and their role in the Nazi extermination apparatus In addition it studies the postwar prosecution of these genocidal criminals in West Germany It describes and analyses the obstacles bottlenecks and omissions in the prosecuting policies and presents their statistical record It examines the way in which postwar German courts dealt with these criminals by an in depth study of the trial sentences against two specific groups of genocidal perpetrators the Euthanasia and Aktion Reinhard killers Through a scrutiny of the argumentation of the various courts sentences in these cases it presents a detailed picture of the grounds for acquittal conviction and punishment It discusses the controversial differentiation of murder and complicity in murder with regard to these genocidal perpetrators and highlights the ways in which the courts handled complicated questions such as acting under superior orders duress and coercion The study is intended for a readership consisting of historians sociologists criminologists legal experts and others interested in the fieldworkers and modus operandi of the Nazi genocide and Germany's postwar judicial reaction to it *A Judge in Auschwitz* Kevin Prenger,2021-11-24 The remarkable true story of the man tasked by the Nazis with prosecuting crimes at concentration camps In autumn 1943 SS judge Konrad Morgen a graduate of the Hague Academy of International Law visited Auschwitz concentration camp to investigate an intercepted parcel

containing gold sent from the camp While there Morgen found the SS camp guards engaged in widespread theft and corruption Worse Morgen also discovered that inmates were being killed without authority from the SS leadership While millions of Jews were being exterminated under the Final Solution program Konrad Morgen set about gathering evidence of these illegal murders Morgen also visited other camps such as Buchenwald where he had the notorious camp commandant Karl Koch and Ilse his sadistic spouse arrested and charged Found guilty by an SS court Koch was sentenced to death Remarkably the apparently fearless SS judge also tried to prosecute other Nazi criminals including Waffen SS commanders Oskar Dirlewanger and Hermann Fegelein and Auschwitz Commandant Rudolf H ss He even claimed to have tried to indict Adolf Eichmann who was responsible for organizing the mass deportation of the Jews to the extermination camps This intriguing work reveals how the lines between justice and injustice became blurred in the Third Reich As well as describing the actions of this often contradictory character the author questions Morgen s motives and delves into his postwar life which included both testifying at Nuremberg and being investigated for crimes himself

Neurenberg-gesprekken Leon Goldensohn,2012-12-07 Het beroemde boek over nazis en hun psychiater Leon

Goldensohn was in het voorjaar van 1946 als psychiater in Neurenberg verantwoordelijk voor de fysieke en psychische toestand van ongeveer twintig gevangenen Duitse leiders die daar terechtstonden. Onder hen waren belangrijke nazi oorlogsmisdadigers als Hermann Göring, Rudolf Hess en Albert Speer. Goldensohn legde de gesprekken die hij voerde nauwkeurig vast. Ze zijn van onmetelijk historisch belang.

Medizinethik und Kultur Bert Gordijn, H. ten Have, 2000

If one compares the development of modern medical ethics in Germany with those in the Netherlands, what stands out are the cultural and intellectual differences between the two countries. Dealing with the problems involved in limiting medical treatment, the authors show the differing and the common standards and values on which the discussion of this is based in both countries. Three examples: active termination of life, the do not resuscitate order and pain management, which are examined from an historical, legal, philosophical and ethical perspective, put this in concrete terms. The authors belong to different generations as well as different political and philosophical camps.

Vergleicht man die Entwicklung der modernen Medizinethik in Deutschland mit jener in den Niederlanden, fallen die kulturellen und intellektuellen Unterschiede zwischen beiden Ländern deutlich auf. Anhand der Problematik der Begrenzung medizinischen Handelns zeigen die Autoren die verschiedenen bzw. gemeinsamen Normen und Werte, die der Diskussion darüber in beiden Ländern zugrunde liegen. Drei Beispiele: die aktive Lebensbeendigung, die Nicht-Reanimierung und die Schmerzbekämpfung, die aus historischem, juristischem, philosophischem und ethischem Blickwinkel betrachtet werden, konkretisieren die Darstellung. Die Autoren gehören unterschiedlichen Generationen, politischen und lebensanschaulichen Lagern an.
