Guiding the Human Resources Function in Education M. Scott Norton, 2017-03-29 The primary focus of the book is to emphasize the major changes in the leadership responsibilities of directors of human resources in education. This purpose underscores the necessity for human resources directors to gain new knowledge and skills in order to assure that the personnel concept is considered in all school district policy and administrative program decisions. The primary processes of the human resources function remain significant but the function's importance is continually increasing as new and innovative changes and research findings are evidenced in education. Personnel recruitment for example now necessitates primary attention to recruitment. Innovation in mentoring activities now includes reverse mentoring, peer mentoring, and group mentoring. Metrics now loom important and necessary in program planning, accountability, and assessment activities. The knowledge and skills required for new innovations in personnel were not always available in the program preparations of individuals who focused on preparation for general school administration. This book serves to serve practicing human resources directors and others that will serve the personnel function in the school principalship and other administrative roles to understand and meet the demands of today's human resources goals and objectives. **Subject Guide to Books in Print**, 1993 **Federal Register**, 1993 Campbell's Physical Therapy for Children Expert Consult - E-Book Robert Palisano, Margo Orlin, Joseph Schreiber, 2016-12-20 NEW Revised chapter on motor development and control now closely examines the when, how, why, and what of developing motor skill and how it contributes to effective physical therapy.
