Evaluation of Behavioral Programs in Community, Residential, and School Settings Park Olof Davidson, Frank W. Clark, Leo A. Hamerlynck, 1974      **Evaluation of Behavioral Programs in Community, Residential, and School Settings** Park Olof Davidson, Frank W. Clark, Leo A. Hamerlynck, 1974      **International Handbook of Behavior Modification and Therapy** Alan S. Bellack, Michel Hersen, Alan E. Kazdin, 2012-12-06 The rapid growth of behavior therapy over the past 20 years has been well documented Yet the geometric expansion of the field has been so great that it deserves to be recounted We all received our graduate training in the mid to late 1960s Courses in behavior therapy were then a rarity Behavioral training was based more on informal tutorials than on systematic programs of study The behavioral literature was so circumscribed that it could be easily mastered in a few months of study A mere half dozen books by Wolpe Lazarus Eysenck Ullmann and Krasner more or less comprised the behavioral library in the mid 1960s Seminal works by Ayllon and Azrin Bandura Franks and Kanfer in 1968 and 1969 made it only slightly more difficult to survey the field Keeping abreast of new developments was not very difficult as Behaviour Research and Therapy and the Journal of Applied Behavior Analysis were the only regular outlets for behavioral articles until the end of the decade when Behavior Therapy and Behavior Therapy and Experimental Psychiatry first appeared We are too young to be maudlin but Oh for the good old days One of us did a quick survey of his bookshelves and stopped counting books with behavior or behavioral in the titles when he reached 100 There were at least half again as many behavioral books without those words in the title      *Administration in Mental Health* ,1979      *Progress in Behavior Modification* Michel Hersen, Richard M. Eisler, Peter M. Miller, 2013-10-22 Progress in Behavior Modification Volume 4 is a multidisciplinary serial publication that encompasses the contributions of psychology psychiatry social work speech therapy education and rehabilitation This serial aims to meet the need for a review publication that undertakes to present yearly in depth evaluations that include a scholarly examination of theoretical underpinnings a careful survey of research findings and a comparative analysis of existing techniques and methodologies The discussions center on a wide spectrum of child and adult disorders The present volume opens with a chapter on behavioral treatment for obesity This is followed by separate chapters on applications of reinforcement techniques in the areas of pollution control and energy conservation job performance and unemployment community self government racial integration and others and behavior modification in community settings Subsequent chapters deal with demand characteristics in behavior modification the clinical utility of biofeedback procedures and the technology of training parents in behavior therapy The final chapter reviews the rationale and empirical support for the extinction approach of implosive flooding therapy      *Document Retrieval Index* ,1976      **Cultural Competence for Evaluators** Mario A. Orlandi, 1998-04 Examines the issue of cultural competence for program evaluators as it relates to African American Hispanic American Indian Alaska Native and Asian Pacific Islander American community groups The primary objective is to enhance the knowledge base and skills of professionals who are

responsible for evaluating AOD abuse prevention programs in ethnic racial community settings Complementary chapters provide conceptual frameworks and practical suggestions for evaluators working with each of the ethnic racial groups concluding with a final overview of cultural competence      Community Mental Health and Behavioral-Ecology A.M. Jeger,R.S. Slotnick,2012-12-06 This volume is addressed to professionals and students in community mental health including researchers clinicians administrators educators and students in relevant specialties within the fields of psychology psychiatry social work public health and nursing The intent of this book is to serve as a practical resource for professionals and also as a didactic text for students In addition the volume seeks to make a theoretical contribution to the field by presenting for the first time in book form a behavioral ecological perspective in community mental health We present behavioral ecology as an emerging perspective that is concerned with the interdependence of people behavior and their sociophysical environments Behavioral ecology attributes mental health problems to transactions between persons and their settings rather than to causes rooted exclusively within individuals or environments In this volume we advance the notion of behavioral ecology as an integration of two broad perspectives behavioral approaches as derived from the individual psychology of learning and ecological approaches as encompassing the study of communities environments and social systems Through the programs brought together in this book we are arguing for a merging of these two areas for purposes of advancing theory research and practice in community mental health      **Cultural Competence for Evaluators** ,1992

*Environmental Design and Human Behavior* Leonard Krasner,2013-10-22 *Environmental Design and Human Behavior* A Psychology of the Individual in Society outlines the fundamental principles that govern the concept of environmental design in the context of human behavior The first part of the text deals with theoretical and historical influences of environmental design along with the ethical and value context The selection also covers methods for assessments of environment and interactionists approach to environmental design The next part details the application of environmental design this part tackles topics such as environmental design in the classroom designing an ideal classroom and implementation process and personal experience The book will be of great use to behavioral scientists sociologists community health and social workers and professionals involved in the designing of environment such as city planners      **Advances in School Psychology**
