Evangelical Landscape Essays On The American Evangelical Tradition:

The Evangelical Landscape Garth Rosell, 1996 Mark A Noll looks at the evangelical mind in the twentieth century Arguing that evangelicals must be concerned about questions of the intellect and the development of a Christian mind he asserts that though striking gains have been made since the Fundamentalist Modernist controversy the task remains incomplete because recent progress has been modest at best Bruce Shelley sets up what he sees as a crucial agenda for America s evangelicals recovery of a sense of community within the church renewed commitment to the Bible s evangelistic mandate and the development of transformational leaders with a clear vision of the future Defining essential evangelicalism as commitment to biblical authority conversion and worldwide evangelization Timothy L Smith points out that evangelicalism enfoldes a rich diversity of traditions He pleads with these groups to lay aside their divisiveness and to focus instead on seeking peace with one another and pursuing that holiness of life without which no one can see the Lord *American Evangelicalism* Darren Dochuk, Thomas S. Kidd, Kurt W. Peterson, 2014-10-15 No living scholar has shaped the study of American religious history more profoundly than George M Marsden His work spans U S intellectual cultural and religious history from the seventeenth through the twenty first centuries This collection of essays uses the career of George M Marsden and the remarkable breadth of his scholarship to measure current trends in the historical study of American evangelical Protestantism and to encourage fresh scholarly investigation of this faith tradition as it has developed between the eighteenth century and the present Moving through five sections each centered around one of Marsden s major books and the time period it represents the volume explores different methodologies and approaches to the history of evangelicalism and American religion Besides assessing Marsden s illustrious works on their own terms this collection s contributors isolate several key themes as deserving of fresh rigorous and extensive examination Through their close investigation of these particular themes they expand the range of characters and communities issues and ideas and contingencies that can and should be accounted for in our historical texts Marsden s timeless scholarship thus serves as a launchpad for new directions in our rendering of the American religious past Reframing Paul Mark Strom, 2000-10-12 Mark Strom unveils Paul in his original context and invites us to engage with him in new terms He courageously draws Paul into vital conversation with contemporary evangelicalism This book is for anyone who wants to learn how the church can be an attractive community of transforming grace and conversation **The Surprising Work of God** Garth M. Rosell, 2020-03-18 The Surprising Work of God tells the story of how America s mid twentieth century spiritual awakening became a worldwide Christian movement This seminal study brings a unique perspective to the history personalities and institutions of that period and offers an intimate look at evangelicalism through the window of the life ministry and writings of Harold John Ockenga and his long friendship with Billy Graham Ockenga was pastor of the historic Park Street Congregational Church in Boston and cofounder of Fuller Theological Seminary Gordon Conwell Theological Seminary the

National Association of Evangelicals and Christianity Today As such he was a central figure in the birth and development of American neo evangelicalism This lively engaging story will be of value to anyone with an interest in the American church of the last century *Contemporary Druidry: A Historical and Ethnographic Study* Michael T. Cooper,2010-08-21

Contemporary Druidry is one of the fastest growing religions in Western society This book addresses the attempt by practitioners to bring an ancient spirituality into the mainstream It examines ancient Druid beliefs and critiques the contemporary expression by comparing the two Relying on eight years of research and more than 200 interviews the book provides an outsider s look at this faith **The Dispensational-Covenantal Rift** R. Todd Mangum,2007-06-01 This groundbreaking study explores how the fight between dispensationalists and covenant theologians started and how a unique dynamic of personalities and sociological factors enflamed it Readers may be surprised to discover that even the terminology of dispensationalists and covenant theologians originated in the 1930s disputes that the majority of the original protagonists on both sides were Presbyterians and that soteriology rather than eschatology was the original bone of contention between them This study examines how two respective strands of fundamentalism came to identify one another as theological rivals as they each vied for position in their recently formed separatist bodies The significance of disagreements over dispensationalism is explored in the founding of the Orthodox Presbyterian and Bible Presbyterian churches And then as the debate traveled southward the response of the PCUS is examined with special attention given to the consummative reports of an ad hoc committee that found dispensationalism to be out of harmony with the Westminster doctrinal standards Significant misunderstandings that impeded fruitful dialogue from the beginning are clarified particularly those that have persisted most stubbornly to the present day Perhaps most surprising of all the reader will discover that nearly all of the original points of debate between dispensationalists and covenant theologians have since been resolved as each side has honed its position in light of pertinent critiques Why has this development gone almost unnoticed This study suggests an answer and proposes that understanding how the feud began may hold the key to rapprochement today *Evangelical Studies Bulletin* ,1998

Trajectory of the 21st Century Lawrence J. Terlizze,2009-01-10 Trajectory of the Twenty first Century explores what many prophets of the twentieth century such as Oswald Spengler Paul Tillich Aldous Huxley Jacques Ellul and others have predicted would transpire in the current century Their vision included an out of control technological system and a return to religious sentiment that will ultimately undermine the system to which it is reacting This book aims to accurately present their positions and draw certain logical conclusions from them that pertain to the course of history in our time The book s theme argues that modernity is a secularized version of millennial Christianity which reaches its fullest development in the twenty first century and will regress into what Russian philosopher Nicholas Berdyaev called the new Middle Ages or a new religious period This will mean the twilight of modern technological society as its values of rationalism give way to a postrationalist society Ironically decline will come through further technological advance Omnicide threatens through

religious world war driven by transcendent values and modern weaponry Jihadist thinking and posthumanist technology both establish the omnicidal mentality New technologies such as genetic engineering and artificial intelligence created under millennial inspiration to reach for immortality could potentially bring an end to the human species either through a slow steady obsolescence or through environmental catastrophe The titanic forces of technological progress and regress are on a direct collision course in the twenty first century

The Psychology of Religious Fundamentalism Peter C. Hill, William Paul Williamson, 2005-03-31 This book presents an innovative psychological framework for understanding religious fundamentalism Blending extensive research and incisive analysis the highly regarded authors distinguish fundamentalist traditions from other faith based groups and illuminate the thinking and behavior of believers Offering respectful historically informed examinations of several major fundamentalist groups the volume challenges many commonly held stereotypes In the process it stakes out important new terrain for the psychological study of religion **BOOK JACKET**

American Evangelicalism II Norris A. Magnuson, William G. Travis, 1997 **Promise Unfulfilled** Rolland McCune, 2017-07-17 The New Evangelicalism was conceived if not born with the formation of the National Association of Evangelicals in 1942 This new group was in the main led by younger professing fundamentalist scholars and leaders who had become dissatisfied with their heritage and wanted to carve out some evangelical middle ground between fundamentalism and neo orthodoxy This book is an analysis of the break away movement in terms of the issues ideas and practices that led to its beginning its expansion to an apogee in the 1970s its subsequent loss of biblical and doctrinal stability and its slide toward virtual irrelevancy in a postmodern world culture of the 21st century The twenty five chapters are grouped under nine main sections Historical Antecedents the Formation of the New Evangelicalism Ecumenism Ecclesiastical Separation The Bible and Authority Apologetics Social Involvement Doctrinal Storms and Evaluations and Prospects It will be a valuable addition to the pastor s library and a strategic resource for theological education in Bible colleges and seminaries

Theology in the Present Age Christopher Ben Simpson, Steven D. Cone, 2013-08-23 This volume of essays centers on the theme of doing Christian theology in the present postmodern context a consistent theme of the teaching of John D Castelein The work will celebrate and honor John s years of service by representing reflections of his teaching in the thought of his students and colleagues The essays range over such topics as theological reflections on the postmodern philosophical themes the relations between Christian theology and culture the contributions of philosophical hermeneutics for Christian theology and the challenges of engaging in ministry in a postmodern context The seventeen contributors to the volume are former students and both present and former colleagues involved in various ministries be they in a college setting or in a local church

"Evangelical Christian College" Everett Gale Piper, 2002

The Variety of American Evangelicalism Donald W. Dayton, 2002-05 Those labeled as evangelicals commonly are assumed to constitute a large and fairly homogeneous segment of American Protestantism This volume suggests that in fact evangelicalism is better understood as a set of distinct subtraditions each with its own history

organizations and priorities The differences among groups are so important that the question arises Is the term evangelical useful at all This book attempts to enter as sympathetically as possible into the self understandings of movements usually grouped under the evangelical umbrella For each of twelve major traditions a leading scholarly interpreter first articulates the group s theological orientation and then explores the relationship between that movement and broader evangelical issues and organizations Contributors develop remarkably useful and diverse conceptual strategies for charting the complex evangelical landscape In crisp summary chapters the editors draw differing conclusions from the many perspectives offered Donald Dayton wants to abandon the category evangelical altogether Robert Johnston sees the varied traditions as an extended family whose members embody common characteristics to greater or lesser degrees Christianity Today Magazine and Late Twentieth-century Evangelicalism Phyllis Elaine Alsdurf,2004 Doctrine and Experience Christopher Charles Zito,2016-06-30 Should evangelical spirituality be grounded in doctrine experience neither or both If in one which and why not the other If in both how might the two co exist without cancelling out each other s distinctives If in neither then what practical value does either have for the Christian life In this book the author has combined critical research pastoral awareness and thoughtful reflection to show how the radicalizations of doctrine and experience have not only polarized contemporary evangelicalism into two nearly irreconcilable camps but also has opened the door for a subtle but potent form of idolatry to creep into our midst In an attempt to purge these idols and bridge the gap this book contextualizes the biblical teachings and practices of our original spiritual instructors asking the double edged question of what it means for us today that the Word of God is normative and that the Spirit is Lord The author concludes that evangelicals should seek an incarnate cross centered spirituality that is informed by meticulous attention and obedience to sound doctrine but only as it is lived out in a deeply felt faith that is made perfect as we experience God daily in any number of ways **Missiology** ,2007 An international review Liberty, life and family ,1999 *Doing Theology in the Age of Trump* Jeffrey W. Robbins,Clayton Crockett,2018-11-08 This book is a work of theological resistance It is not so much about the presidency of Donald Trump as it is about what his popularity and rise to power reveal about the state of Christianity and the moral character of the evangelical Right in the United States today More specifically it is about the threat of white Christian nationalism which is the particular form that the nationalist populist movement of Trumpism has adopted for itself The contributors are all fellows from the Westar Institute s academic seminar on God and the Human Future and include many of the leading figures in theology and Continental philosophy of religion This volume provides a form of theopolitical resistance based on intersectionality The authors recognize how the various forms of oppression interrelate to contribute to a vast dynamic and seeming impenetrable network of systemic injustice and marginalization These essays demonstrate that politics need not be played as a zero sum game with a winner take all mentality and that a critical theology is as urgently needed and as relevant now as ever *A Place at the Table* John A. D'Elia,2008 George Eldon Ladd was a pivotal figure in the resurgence of

evangelical scholarship in America during the years after the Second World War Ladd's career as a biblical scholar can be seen as a quest to rehabilitate evangelical thought both in content and image a task he pursued at great personal cost Best known for his work on the doctrine of the Kingdom of God Ladd moved from critiquing his own movement to engaging many of the important theological and exegetical issues of his day Ladd was a strong critic of dispensationalism the dominant theological system in conservative evangelicalism and fundamentalism challenging what he perceived to be its anti intellectualism and uncritical approach to the Bible In his impressive career at Fuller Theological Seminary Ladd participated in scholarly debates on the relationship between faith and historical understanding arguing that modern critical methodologies need not preclude orthodox Christian belief Ladd also engaged the thought of Rudolf Bultmann the dominant theological figure of his day Ladd's main focus however was to create a work of scholarship from an evangelical perspective that the broader academic world would accept When he was unsuccessful in this effort he descended into depression bitterness and alcoholism But Ladd played an important part in opening doors for later generations of evangelical scholars both by validating and using critical methods in his own scholarly work and also by entering into dialogue with theologians and theologies outside the evangelical world It is a central theme of this book that Ladd's achievement at least in part can be measured in the number of evangelical scholars who are today active participants in academic life across a broad range of disciplines
