**Evangelizing Neopagan North America** Alfred C. Krass, 2001-03-01

*Software Evangelism and the Rhetoric of Morality* Jennifer Helene Maher, 2015-08-27 Examining the layers of meaning encoded in software and the rhetoric surrounding it this book offers a much needed perspective on the intersections between software morality and politics In software development culture evangelism typically denotes a rhetorical practice that aims to convert software developers as well as non technical lay users from one platform to another e g from the operating system Microsoft Windows to Linux This book argues that software evangelism like its religious counterpart must also be understood as constructing moral and political values that extend well beyond the boundaries of the development culture Unlike previous studies that locate such values in the effects of code in use or in certain types of code like free and open source FOSS software Maher argues that all code is meaningful beyond its technical executable functions To facilitate this analysis this study builds a theory of evangelism and illustrates this theory at work in the proprietary software industry and FOSS communities As an example of political liberalism at work at the level of code these evangelical rhetorics of software construct competing conceptions of what is good that fall within a shared belief in what is just Maher illustrates how these beliefs in goodness and justice do not always execute in replicable ways as the different ways of decoding software evangelisms in the contexts of Brazil and China reveal Demonstrating how software evangelisms exert a transformative force on the world one comparable in significance to code itself this book highlights the importance of rhetoric in even the most seemingly a rhetorical of technical endeavors and foregrounds the crucial need for rhetorical literacy in the digital age

*Sound Preaching for Today* Reverend Dr. Lewis E. Floyd Jr, 2023-11-01 The book was designed to help young ministers and laypersons understand expository preaching and the work of preaching or pastoring in God s church Using our experiences and personalities in expository methods of preaching can help us to transmit and communicate through the Scriptures the writer s historical context as we are led by the Holy Spirit

who applies our personality and experiences as we communicate them to the hearers      *Pulpit Apologist* Thomas J. Gentry II, 2020-01-14 Do preaching and apologetics go together If so why and how In a post everything age where doubt is enshrined as a hallmark of truth and any claims to truth are highly suspect how is a preacher to reach those with questions about the reliability of the Bible the goodness of God or the resurrection of Jesus These questions and more are answered here and a practical workable method is provided for preachers who seek to bring together the pulpit and apologetics for both evangelism and discipleship      *Flames of Love* Heath Bradley, 2012-11-29 Is hell for real or will all be saved What if both are true It is tempting to settle either for the liberal option of downplaying the judgment of God or for the conservative option of letting dominant church tradition trump fresh understandings of Scripture Not settling for either of these popular options this book offers a clear and compelling response to the question of what hell could be for in a universe created and redeemed by a loving God The book seeks to articulate a distinctively Christian universalism that highlights the centrality of Christ coheres with the Scriptures and early church tradition affirms the reality of divine judgment and offers motivational grounds for evangelism and holy living Ultimately this work is about the Christian struggle to envision the life of the world to come in a way that is faithful to the God in whom love and holiness are forever united      **FCC Record** United States.
