Even In Sweden Racisms Racialized Spaces And The Popular Geographical Imagination:

Even in Sweden Allan Pred, 2000-11-21 A tour de force Orvar L. Fjergren co author of *Culture Builders* A Historical Anthropology of Middle Class Life Written in a striking experimental style this is an insightful and impressive book on a topic of enormous contemporary significance James Ferguson author of *Expectations of Modernity* Pred works with a powerful set of ideas and arresting empirical materials to create a series of interlocking overlapping and superimposed spaces within which modern racism is brought into view with a shocking clarity Derek Gregory author of *Geographical Imaginations*

Even in Sweden Racisms, Racialized Spaces, and the Popular Geographical Imagination, 2015 *Even in Sweden* Allan Pred, 2011 *New Geographies of Race and Racism* Caroline Bressey, 2016-04-29 In recent years geographers interested in ethnicity race and racism have extended their focus from examining geographies of segregation and racism to exploring cultural politics social practice and everyday geographies of identity and experience This edited collection illustrates this new work and includes research on youth and new ethnicities the contested politics of race and racism intersections of ethnicity religion and race and the theorisation and interrogation of whiteness Case studies from the UK and Ireland focus on the intersections of race and nation and the specificities of place in discourses of racialisation and identity A key feature of the book is its engagement with a range of methodological approaches to examining the significance of race including ethnography visual methodologies and historical analysis *The Unsettling of Europe* Peter Gatrell, 2019-08-27 An acclaimed historian examines postwar migration's fundamental role in shaping modern Europe Migration is perhaps the most pressing issue of our time and it has completely decentered European politics in recent years But as we consider the current refugee crisis acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move The end of World War II left Europe in a state of confusion with many Europeans virtually stateless Later as former colonial states gained national independence colonists and their supporters migrated to often unwelcoming metropolises The collapse of communism in 1989 marked another fundamental turning point Gatrell places migration at the center of post war European history and the aspirations of migrants themselves at the center of the story of migration This is an urgent history that will reshape our understanding of modern Europe **Scandinavia since 1500** Byron J. Nordstrom, 2023-06-27 An updated edition of the definitive history of Scandinavia over the past five centuries Despite certain distinctions and differences the lands of Scandinavia or Norden Sweden Norway Finland Iceland Denmark and the Faroe Islands are united by bonds of culture language and geography and by a shared history that comes richly to life in this landmark work Now in an expanded updated edition this authoritative chronicle of five centuries of Scandinavian history incorporates the geopolitical developments and momentous events that have marked the Nordic world in recent decades Scandinavia since 1500 situates the region's political history within the traditional European chronology in which the long modern period is subdivided into the Renaissance early modern modern and contemporary Within this framework Byron J. Nordstrom traces

the various ways in which economic social and cultural ideas and practices have come to Scandinavia from abroad only to be modified and recast in a uniquely Nordic character Long unquestioned national mythologies come under Nordstrom's scrutiny along with historical blind spots and erasures as he ranges from canonical figures like Gustavus Adolphus of Sweden and Christian IV of Denmark to the constitutions of the nineteenth and twentieth centuries the resistance movements in World War II and the Scandinavian welfare states literary culture and modern design Expanded to include the nature and realities of the increasingly postindustrial economies of the late twentieth and early twenty first centuries including environmental concerns integration with Europe globalization and immigration Scandinavia since 1500 offers a comprehensive yet nuanced portrait of this unique region in all its political diplomatic social economic and cultural complexity Cover alt text Bold white title and author name across breathtaking snowy landscape of sun touched cliffs beside a waterway and scattering of homes
