## **Evening At The Garden Of Allah A Gay Cabaret In Seattle:**

**An Evening at the Garden of Allah** Don Paulson, Roger Simpson, 1996 Within the pages of this book lies the story of the community of lesbians and gays that blossomed around America's first gay owned cabaret the Garden of Allah in seedy downtown Seattle

**Native Seattle** Coll Thrush, 2009-11-23 Winner of the 2008 Washington State Book Award for History Biography In traditional scholarship Native Americans have been conspicuously absent from urban history Indians appear at the time of contact are involved in fighting or treaties and then seem to vanish usually onto reservations In Native Seattle Coll Thrush explodes the commonly accepted notion that Indians and cities and thus Indian and urban histories are mutually exclusive that Indians and cities cannot coexist and that one must necessarily be eclipsed by the other Native people and places played a vital part in the founding of Seattle and in what the city is today just as urban changes transformed what it meant to be Native On the urban indigenous frontier of the 1850s 1860s and 1870s Indians were central to town life Native Americans literally made Seattle possible through their labor and their participation even as they were made scapegoats for urban disorder As late as 1880 Seattle was still very much a Native place Between the 1880s and the 1930s however Seattle's urban and Indian histories were transformed as the town turned into a metropolis Massive changes in the urban environment dramatically affected indigenous people's abilities to survive in traditional places The movement of Native people and their material culture to Seattle from all across the region inspired new identities both for the migrants and for the city itself As boosters historians and pioneers tried to explain Seattle's historical trajectory they told stories about Indians as hostile enemies as exotic Others and as noble symbols of a vanished wilderness But by the beginning of World War II a new multiracial urban Native community had begun to take shape in Seattle even as it was overshadowed by the city's appropriation of Indian images to understand and sell itself After World War II more changes in the city combined with the agency of Native people led to a new visibility and authority for Indians in Seattle The descendants of Seattle's indigenous peoples capitalized on broader historical revisionism to claim new authority over urban places and narratives At the beginning of the twenty first century Native people have returned to the center of civic life not as contrived symbols of a whitewashed past but on their own terms In Seattle the strands of urban and Indian history have always been intertwined Including an atlas of indigenous Seattle created with linguist Nile Thompson Native Seattle is a new kind of urban Indian history a book with implications that reach far beyond the region Replaced by ISBN 9780295741345 *Body Talk* Jacquelyn N. Zita, 1998 In this book Jacquelyn N Zita questions the assumptions of heterosexual society queer theory postmodernism and lesbian feminism in order to investigate the relationship between power knowledge identity formation and the body

**The Violet Hour** David Bergman, 2004-07-06 The members of the literary circle known as the Violet Quill Christopher Cox Robert Ferro Michael Grumley Andrew Holleran Felice Picano Edmund White and George Whitmore collectively represent the aspirations and the achievement of gay writing during and after the gay liberation movement This social

history shows how the works of these authors both reflected and criticized the values principles and prejudices of the culture of gay liberation In spinning many of the most important stories gay men told of themselves in the short period between the 1969 Stonewall Riots and the devastation of the AIDS epidemic during the 1980s the Violet Quill exerted an enormous influence on gay culture      Something to Tell You Gilbert Herdt, Bruce Koff, 2000-02-05 Even now at the end of the twentieth century many still have difficulty standing up and saying I am the parent of a gay child Something to Tell You recounts the stories of families whose lives have been touched by the discovery that a child is lesbian or gay how it affects and influences people s perceptions of their children and even changes the self image of parents themselves Focusing on fifty average families not people seen in clinics or therapy the authors found a consistent pattern of change first negative then positive Sometimes the news led parents and siblings to form stronger bonds with the child with each other and with other relatives and friends In many cases their child s partner and partner s family grew to assume an important role in their own lives In some cases parents and siblings discovered new meaning in their lives through speaking out or joining PFLAG Parents Families and Friends of Lesbians and Gays and becoming part of the struggle for lesbian and gay rights The authors found that families committed to staying together are typically able to overcome the powerful obstacles imposed by society Something to Tell You also shows the lasting and sometimes tragic consequences for families who falter in the process of integration Unwilling to accept their child s sexuality some parents sought to blame each other and all too often their own relationships unraveled as a result Others who failed to tell close friends sometimes lost those friends through keeping secrets Parents who neglected to form bonds with their child s partner fostered climates of alienation that persisted for years A richly diverse collection of family stories Something to Tell You is a book that will help break down widespread prejudice and put an end to destructive cultural myths It affirms families highest aspirations toward active love for their gay children showing the steps to take toward new levels of support solidarity and love      **Business, Not Politics** Katherine Sender, 2005-01-05 In a hard hitting book that refutes conventional wisdom Katherine Sender explores the connection between the business of marketing to gay consumers and the politics of gay rights and identity She disputes some marketers claims that marketing appeals to gay and lesbian consumers are a matter of business not politics and that the business of gay marketing can be considered independently of the politics of gay rights identity and visibility She contends that the gay community is not a preexisting entity that marketers simply tap into rather it is a construction an imagined community formed not only through political activism but also through a commercially supported media She argues that marketing has not only been formative in the constitution of a GLBT community and identity but also has had significant impact on the visibility of gays and lesbians      **Hard to Imagine** Thomas Waugh, 1996 Waugh identifies four primary aspects of homoerotic photography and film the artistic the commercial the illicit and the politico scientific tracing their development against a background of advances in visual technology This comprehensive work explores a vast eclectic tradition in its

totality analyzing the visual imagery in addition to its production circulation and consumption      **Hear Us Out** Richard Canning, 2003 Mikhail Gorbachev and Zdenek Mlynar were friends for half a century since they first crossed paths as students in 1950 Although one was a Russian and the other a Czech they were both ardent supporters of communism and socialism One took part in laying the groundwork for and carrying out the Prague spring the other opened a new political era in Soviet world politics In 1993 they decided that their conversations might be of interest to others and so they began to tape record them This book is the product of that thinking out loud process It is an absorbing record of two friends trying to explain to one another their views on the problems and events that determined their destinies From reminiscences of their starry eyed university days to reflections on the use of force to save socialism to contemplation of the end of the cold war here is a far more candid picture of Gorbachev than we have ever seen before      *Lives of Lesbian Elders* J Dianne Garner, D. Merilee Clunis, Pat A. Freeman, Nancy M. Nystrom, Karen I. Fredriksen-Goldsen, 2014-07-16 The untold history of lesbian life from those who have lived it *Lives of Lesbian Elders Looking Back Looking Forward* illuminates the hopes fears issues and concerns of gay women as they grow older Based on interviews with 62 lesbians ranging in age from 55 to 95 this very special book provides a historical account of the shared experiences of the lesbian community that is so often invisible or ignored in contemporary society The book gives voice to their thoughts and feelings on a wide range of issues including coming out identity and the meaning of life the role of family and personal relationships work and retirement adversity and individual sources of strength and resilience Cast off and overlooked at best or victims of scorn and prejudice at worst lesbians in the twentieth century lived dual lives their full voices unheard until now *Lives of Lesbian Elders* chronicles the life choices they made and their reasons for making them set against the contexts of culture politics and the social mores of the eras in which they lived Their stories of courage resilience resourcefulness pride and independence help restore lesbian history that has been forgotten distorted or disregarded and provide the information necessary to meet the future needs of aging lesbians *Lives of Lesbian Elders* gives aging lesbians a chance to discuss their thoughts on a variety of topics including Coming out You didn't talk about it Until two years ago I never even referred to a lesbian or would I allow the word to pass my lips I used to sneak into libraries and read about homosexuality and back in that era it was not classy it was classified as a disorder of some type Identity The only difference between me and anybody else is that I just happen to be sleeping with a woman I think I grew up not really knowing who I was and I think probably fighting all my life trying to find out who I was Family I feel very connected with the lesbian community here I guess I would call that family Many years ago my sister said I think when they're ready you need to explain to the nieces what a lesbian is because I want them to hear the correct story I want them to hear what it really is and not all these stupid rumors that go around Work I was going to become a youth minister at one point and it dawned on me in high school that there was no way the church was going to let me work with kids I didn't really finish my career I still have dreams about the military and about not finishing It was my choice but it wasn't

t really my choice Aging and the Future I think financing of course is a real big problem for lesbian women I have a concern that if anything should happen to my partner in growing older of being isolated from the gay community and much more Lives of Lesbian Elders Looking Back Looking Forward also includes appendices that present demographic data on the women who were interviewed for the book information on historical timelines and suggested readings on lesbian history The book is an invaluable addition to the growing collective history of lesbians in the United States Romantic Genius Andrew Elfenbein, 1999 Elfenbein takes on the absorbing subject of homosexuality in British Romantic writing showing the centrality of disreputable desires to the works of Romantic male authors from William Beckford to Samuel Taylor Coleridge to William Blake as well as to the writings of lesser known but equally significant female authors of the period **Up from Invisibility** Larry Gross, 2001-12-26 A half century ago gay men and lesbians were all but invisible in the media and in turn popular culture With the lesbian and gay liberation movement came a profoundly new sense of homosexual community and empowerment and the emergence of gay people onto the media's stage And yet even as the mass media have been shifting the terms of our public conversation toward a greater acknowledgment of diversity does the emerging visibility of gay men and women do justice to the complexity and variety of their experience Or is gay identity manipulated and contrived by media that are unwilling and perhaps unable to fully comprehend and honor it While positive representations of gays and lesbians are a cautious step in the right direction media expert Larry Gross argues that the entertainment and news media betray a lingering inability to break free from proscribed limitations in order to embrace the complex reality of gay identity While noting major advances like the opening of the Oscar Wilde Memorial Bookstore the first gay bookstore in the country or the rise of The Advocate from small newsletter to influential national paper Gross takes the measure of somewhat more ambiguous milestones like the first lesbian kiss on television or the first gay character in a newspaper comic strip

Lesbian Configurations Renée C. Hoogland, 1997 Library Journal **Fashioning Sapphism** Laura Doan, 2001-01-03 The highly publicized obscenity trial of Radclyffe Hall's *The Well of Loneliness* 1928 is generally recognized as the crystallizing moment in the construction of a visible modern English lesbian culture marking a great divide between innocence and deviance private and public New Woman and Modern Lesbian Yet despite unreserved agreement on the importance of this cultural moment previous studies often reductively distort our reading of the formation of early twentieth century lesbian identity either by neglecting to examine in detail the developments leading up to the ban or by framing events in too broad a context against other cultural phenomena Fashioning Sapphism locates the novelist Radclyffe Hall and other prominent lesbians including the pioneer in women's policing Mary Allen the artist Gluck and the writer Bryher within English modernity through the multiple sites of law sexology fashion and literary and visual representation thus tracing the emergence of a modern English lesbian subculture in the first two decades of the twentieth century Drawing on extensive new archival research the book interrogates anew a range of myths long accepted without question and still in circulation

concerning to cite only a few the extent of homophobia in the 1920s the strategic deployment of sexology against sexual minorities and the rigidity of certain cultural codes to denote lesbianism in public culture      **Willa Cather, Queering America** Marilee Lindemann, 1999 An enlightening unpacking of Cather's writings from her controversial love letters of the 1890s in which queer is employed to denote sexual deviance to her epic novels short stories and critical writings      The Politics of Passion Gloria Wekker, 2006 *The Politics of Passion* centers on an old institution among the Afro Surinamese working class in which women have multiple sexual relationships with both men and women These women reject marriage because of the bonds of dependency it fosters preferring to create their own families of kin lovers and children Gloria Wekker analyzes this phenomenon known as mati work as she vividly describes the lives of Afro Surinamese women She gives an account of women's sexuality that is not limited to either heterosexuality or same sex sexuality Her work offers new perspectives on black women's sexuality the lives of Caribbean women transnational gay and lesbian movements and an Afro Surinamese tradition that challenges conventional Western notions of marriage gender and sexuality By foregrounding the voices of Afro Surinamese women Wekker illuminates these women's daily lives in light of the changes occurring in Surinamese society She also considers the historical religious psychological economic linguistic cultural and political elements that have shaped their lives The book concludes with stories of women who have migrated to the Netherlands where they have created new vibrant mati communities      *Auden's Games of Knowledge* Richard R. Bozorth, 2001 French rule in Syria and Lebanon coincided with the rise of colonial resistance around the world and with profound social trauma after World War I In this tightly argued study Elizabeth Thompson shows how Syrians and Lebanese mobilized like other colonized peoples to claim the terms of citizenship enjoyed in the European metropole The negotiations between the French and citizens of the Mandate set the terms of politics for decades after Syria and Lebanon achieved independence in 1946 *Colonial Citizens* highlights gender as a central battlefield upon which the relative rights and obligations of states and citizens were established The participants in this struggle included not only elite nationalists and French rulers but also new mass movements of women workers youth and Islamic populists The author examines the gendered battles fought over France's paternalistic policies in health education labor and the press Two important and enduring political structures issued from these conflicts First a colonial welfare state emerged by World War II that recognized social rights of citizens to health education and labor protection Second tacit gender pacts were forged first by the French and then reaffirmed by the nationalist rulers of the independent states These gender pacts represented a compromise among male political rivals who agreed to exclude and marginalize female citizens in public life This study provides a major contribution to the social construction of gender in nationalist and postcolonial discourse Returning workers low ranking religious figures and most of all women to the narrative history of the region figures usually omitted *Colonial Citizens* enhances our understanding of the interwar period in the Middle East providing needed context for a better understanding of statebuilding nationalism Islam

and gender since World War II      *Lesbian Desire in the Lyrics of Sappho* Jane McIntosh Snyder, 1997 The lyrics of Sappho are the earliest surviving examples of explicitly homoerotic literature and have often been analyzed in terms of their revelations about the island society of Lesbos This volume examines Sappho's poetry through the lens of lesbian desire It focuses on the active female gaze in the texts and the narrative voice one that describes female experience and desires as primary not secondary to the dominant male culture      **Like Bread on the Seder Plate** Rebecca Trachtenberg Alpert, 1997 One of the first women to be ordained as a rabbi explores how lesbians can shape Jewish tradition to resonate with their own experience      **On Sexuality and Power** Alan Sinfield, 2004 It is widely supposed that the most suitable partner will be someone very much like oneself gay fiction and cinema are often organized around this assumption Nonetheless power differentials are remarkably persistent as well as sexy What are the personal and political implications of this insight Sinfield argues that hierarchies in interpersonal relations are continuous with the main power differentials of our social and political life gender class age and race therefore it is not surprising that they govern our psychic lives Recent writing enables an exploration of their positive potential especially in fantasy as well as their danger On Sexuality and Power focuses on the writing of the last thirty years revisiting also Whitman Wilde Mann Forster and Genet and reassessing the very idea of a gay canon      Come as You are Judith Roof, 1996 On narrative and sexuality
