from soccer introduce competition through a promotion and relegation system In this type of system the worst teams in the league are kicked out at the end of the season and replaced by the best performing teams in the next division down This gives poor performing teams incentive to step up their game and allows fresh blood to enter the leagues if the poor performers fail to do so The main goal of these reforms is to align the financial interest of those who own the league with the best interests of the fans and the sport Having laid out the problem and the solution the authors skillfully address practical implications of introducing their scheme suggesting how leagues might at least make some changes if not all of those suggested The time for change has come Armed with this book and with fairness on their side fans can set forth to begin a revolution *Adweek* ,2002
