**Localities** Manfred M. Fischer, Luis Suarez-Villa, Michael Steiner, 2012-12-06 The relationship between innovation networks and localities is of central concern for many nations However despite increasing interest in the components of this research triangle efforts in these fields are hampered by a lack of conceptual and empirical insights This volume brings together contributions from a distinguished group of scholars working in different but related disciplines and aims to provide a fresh look at this research triangle The objective is to offer a concise overview of current developments and insights derived from recent studies in Europe and North America All of the contributions are based on original research undertaken in the various regions and nations and are published here for the first time We are grateful to all those who have contributed to this volume for their willingness to participate in the project Without their co operation this book would not have been possible We should like in addition to thank Angela Spence for her careful linguistic editing and assistance in co ordinating the production of the camera ready copy Lastly but not least we wish to express our gratitude for support from our home institutions and in particular the Austrian Academy of Sciences Institute for Urban and Regional Research the Austrian Ministry for Science and Transport the Styrian Government Section for Science and Research and the Federation of Austrian Industry in Styria for the financial backing received April 1999 Manfred M

*Correlation amongst Groups of Raw Materials*

*in the Commodities Market* Roberto Araldi, Giordano Caprara, Antonella D'Agostini, 2011-11-29T00:00:00+01:00 During the present period of uncertain and sluggish growth in the economic cycle commodities markets are more than ever under scrutiny by financial analysts The general up trend in staple raw materials is due to factors that traditionally capture the interest of commodities investors They alone do not explain the extraordinary recovery characterizing prices of the main commodities Another fundamental element explaining this phenomenon is the robust continuous purchases made by high growth nations such as China and India Another possible explanation states that correlations between different raw materials exist The primary goal of this book is therefore to provide a detailed analysis of commodities markets By focusing on existing correlations amongst various raw material groups the aim is to demonstrate that the commodities market s recovery over the last year or so is strictly related to the increase in petroleum prices based on the spill over effect Furthermore the book includes an investment simulation based on the correlation analyses conducted in the main body of the study This provides empirical data to sustain the strategies and thesis herein contained
