The Complete Guide to Special Education Linda Wilmshurst, Alan W. Brue,2010-08-13 Provides an insider's view of the special education process for parents and teachers. This book explores the special education process from testing and diagnosis to IEP meetings and advocating for special needs children. Step by step the authors reveal the stages of identification, assessment, and intervention and help readers to better understand special needs children's legal rights and how to become an active, effective member of a child's educational team. Grounded in more than twenty-five years of working with parents and educators, the authors provide significant insight into what they have learned about the special education. This book fills the gap in the literature for the millions of children receiving special education services and the parents who are clamoring for information on this topic. Includes valuable tools, checklists, sample forms, and advice for working with special education students. Demystifies the special education process from testing and diagnosis to IEP meetings and advocating for children. New edition covers Response to Intervention (RTI), a new approach to diagnosing learning disabilities in the classroom; expanded coverage of autism spectrum disorders and bipolar disorder; and a revamped Resources section.

Character Education in America's Blue Ribbon Schools Madonna Murphy,2002-07-09 Character Education in America's Blue Ribbon Schools is based upon descriptive, documentary, and qualitative research conducted on the award-winning school applications in the United States Department of Education's Elementary School Recognition Program, i.e. the Blue Ribbon Schools. The purpose of the program is to focus national attention on schools that are doing an exceptional job with all of their students. Areas studied are developing a solid foundation of basic skills and knowledge of subject matter and fostering the development of character values and ethical judgment. The first edition of this book reported on the first decade of this program from 1985 to 1994. The second edition adds the schools that have won the award from 1996-2001. Included are the Blue Ribbon schools that applied for Special Honors in Character Education and five that actually won that recognition in 1998-1999. This edition finds character education much stronger in American schools in recent years and is full of many promising practices. It is a practical book that will guide school administrators, teachers, parents, board members, and concerned citizens interested in starting or strengthening the character education focus of their school.
