M. Mitchell, 2019-02-28 *Adult Reactions to Popular Music and Inter generational Relations in Britain 1955-1975* challenges stereotypes concerning a post war generation gap exacerbated by rebellion inducing popular music styles by demonstrating the considerable variety which frequently characterized adult responses to the music whilst also highlighting that the impact of the music on inter generational relations was more complex than is often assumed NP Utilizing extensive primary evidence from first person accounts to newspapers television programmes surveys and archive collections the book adopts a thematic approach identifying three key arenas of British society in which adult responses to popular music and the impact of such reactions upon relations between generations seem particularly revealing and significant The book examines in detail the place of popular music within family life and Christian churches and their engagement with popular music particularly within youth clubs It also explores encounters between the worlds of traditional Variety entertainment and popular music while providing broader perspectives on this most dynamic and turbulent of periods **London Made Us** Robert Elms, 2019-03-07 London is a giant kaleidoscope which is forever turning Take your eye off it for more than a moment and you're lost Robert Elms has seen his beloved city change beyond all imagining London in his lifetime has morphed from a piratical bomb scarred playground to a swish cosmopolitan metropolis Motorways driven through lost communities accents changing skyscrapers appearing Yet still it remains to him the greatest place on earth Elms takes us back through time and place to myriad Londons He is our guide through a place that has seen scientific experiments conducted in subterranean lairs and a small community declare itself an independent nation a place his great great grandfather made the Elms home over a century ago and a city that has borne witness to world changing events **Popular Music And Television In Britain** Ian Inglis, 2016-04-22 Listening to popular music and watching television have become the two most common activities for postwar generations in Britain From the experiences of programmes like Oh Boy and Juke Box Jury to the introduction of 24 hour music video channels the number and variety of television outputs that consistently make use of popular music and the importance of the small screen as a principal point of contact between audiences and performers are familiar components of contemporary media operation Yet there have been few attempts to examine the two activities in tandem to chart their parallel evolution to explore the associations that unite them or to consider the increasingly frequent ways in which the production and consumption of TV and music are linked in theory and in practice This volume provides an invaluable critical analysis of these and other topics in newly written contributions from some of Britain's leading scholars in the disciplines of television and or popular music studies Through a concentration on four main areas in which TV organises and presents popular music history and heritage performers and performances comedy and drama audiences and territories the book
