Everybody Scream:

Everybody Scream! Jeffrey Thomas, 2005 It's the final day of the season for the annual Punktown Fair and excitement is high For the couple in charge Del and Sophi Kahn it's a bittersweet day of transition Little do they realize the trials they will face and how severely this one day will test their relationship In fact closing day seems to be a catalyst for many Punktown residents drawing them in stirring them up and letting them loose on each other This roller coaster tale builds to a peak of expectation then plummets twisting and turning a breathtaking juggernaut to the final pages with plenty of screams and giggles along the way *Gathered From Coincidence* Tony Dunsbee, 2015-03-01 Combining the personal memories and critical analysis of a self confessed pop addict with a wealth of contemporary documentary evidence *Gathered From Coincidence* reconstructs a truly momentous era to tell the story of the music of the Sixties year by year By tracing in parallel the origins and development of the recording careers of major talents on both sides of the Atlantic the Beatles the Rolling Stones the Beach Boys Bob Dylan Dusty Springfield and many more besides this account shows how they traded creativity with one another All the great Sixties hits as well as a host of less well known gems are described in the context of the charts of the day tracking the ups and downs of different trends as they came and went such as rock n roll rhythm blues psychedelia modern folk the concept album or supergroups But beyond this each chapter also places the music in a broader historical and cultural setting of landmark events at home and abroad the space race the Profumo affair the Cold War Vietnam the growth of satire to show how as the decade unfolded the paths of pop and current affairs drew ever closer together If you thought the Sixties were just about the fleeting dreams of hippies in the Summer of Love then think again This book will open your eyes to a far reaching imaginative legacy and how it came to shape pop music as a dazzling art form in its own right
