The Politics of Unsustainability Ingolfur Bluhdorn, Ian Welsh, 2013-10-18 Two decades after its launch by the UN Brundtland Commission the paradigm of sustainability seems to have reached its limits Whilst the concept figures more prominently in public debate and policy making than ever before the ecological footprint of advanced liberal consumer societies continues to grow and the forceful economic development of countries such as China and India reinforces concerns that the world is moving further away from rather than closer towards the ideal of sustainability Given the proven failure of ecological modernisation strategies to secure sustainability the traditional question How may our established lifestyles and socio economic practices be made more sustainable needs to be supplemented by a second equally important question How do advanced modern consumer democracies try and manage to sustain what is known to be unsustainable Put differently traditional research into the politics of sustainability needs to be supplemented by a new line of research into the politics of unsustainability Exploring the recent transformation of eco political discourses and a variety of ways in which the unfolding paradox of sustaining the unsustainable is being managed the present volume pioneers this new research agenda This book was previously published as a special issue of Environmental Politics

Animals, Justice, and the Politics of Violence Sezai Ozan Zeybek, 2025-09-26 This book explores the intricate relationship between humans and animals in the context of modern Turkish history From drafted

animals in war to urban stray dogs and the role of cattle in the Kurdish conflict the cases developed in this book show how animal lives are deeply entangled with human affairs including complex social organisations such as families states and nations In doing so the book exposes power dynamics exploitative practices and the discursive regimes that underpin development nationalism and urban growth This important book offers a timely exploration of human animal relations critically revising a number of concepts such as human rights productivity health and efficiency from a multispecies perspective **Probe Post** ,1987 Anarchism Robert Graham,1970 The Murray Bookchin Reader Janet Biehl,Murray Bookchin,1999 This collection provides an overview of the thought of the foremost social theorist and political philosopher of the libertarian left today Best known for introducing ecology as a concept relevant to radical political thought in the early 1960s Murray Bookchin was the first to propose in the innovative and coherent body of ideas that he has called social ecology that a liberatory society would also have to be an ecological one His writings span five decades and encompass subject matter of remarkable breadth Bookchin s writings on revolutionary philosophy politics and history are far less known than the specific controversies that have surrounded him but deserve far greater attention Despite Bookchin s critical engagement with both Marxism and anarchism his political philosophy known as libertarian municipalism draws on the best of both for the emancipatory tools to build a democratic libertarian alternative His nature philosophy is an organic outlook of generation development and evolution that grounds human beings in natural evolution yet contrary to today s fashionable anti humanism places them firmly at its summit Bookchin s anthropological writings trace the rise of hierarchy and domination out of egalitarian societies while his historical writings cover important chapters in the European revolutionary tradition Consistent throughout Bookchin s work is a search for ways to replace today s capitalist society which disenchants most of humanity for the benefit of the few and is poisoning the natural world with a more rational and humane alternative The selections in this reader constitute a sampling from the writings of one of the most pivotal thinkers of our era **The Corporate Planet** Joshua Karliner,1997 Citing case histories such as Chevron Shell and Mitsubishi CORPORATE WATCH editor Joshua Karliner brilliantly exposes how transnationals aided by free trade agreements World Bank policies and massive consumer campaigns play central roles in environmental destruction This important and timely book is a significant contribution to the battle against irresponsible corporate behavior
