Economic Empowerment Through The Church A Blueprint For Progressive Community Development:

Economic Empowerment Through the Church Gregory J. Reed, 1994 This practical book shows churches how to become a forge for revitalization in the community by means of economic empowerment by becoming involved in the everyday economic life of their communities

Revitalizing Urban Neighborhoods William Dennis Keating, Norman Krumholz, Philip Star, 1996 Since the 1950s and the advance of urban renewal local governments and urban policy have focused heavily on the central business district However such development has all but ignored the inner city neighborhoods that continue to struggle in the shadows of high rise America This analysis of urban neighborhoods in the United States from 1960 to 1995 presents fifteen essays by scholars of urban planning and development Together they show how urban neighborhoods can and must be preserved as economic cultural and political centers

Wildcat of the Streets Michael Stauch, 2025-08-19 How Black youth in Detroit made claims for political equality over and against the new order of community policing The criminalization of Black youth was central to policing in urban America during the civil rights era and continued in Detroit even after the rise of Black political control in the 1970s Wildcat of the Streets documents how the community policing approach of Mayor Coleman Young 1974 1993 including neighborhood police stations affirmative action hiring policies and public participation in law enforcement initiatives transformed Detroit long considered the nation s symbol of racial inequality and urban crisis into a crucial site of experimentation in policing while continuing to subject many Black Detroiters to police brutality and repression In response young people in the 1970s and 1980s drew on the city s storied history of labor radicalism as well as contemporary shopfloor struggles to wage a wildcat of the streets consisting of street disturbances decentralized gang activity and complex organizations of the informal economy In this revelatory new history of the social life of cities Michael Stauch mines a series of evocative interviews conducted with the participants to trace how Black youth made claims for political equality over and against the new order of community policing Centering the perspective of criminalized and crime committing young people Wildcat of the Streets is an original interpretation of police reform the long struggle for Black liberation and the politics of cities in the age of community policing

Community-based Organizations Robert Mark Silverman, 2004 A critical examination of the social capital debate which establishes a foundation for progressive reform in community development practice and local government In response to the ongoing debate over the role social capital plays in the creation and continuation of a healthy civic culture Community Based Organizations in Contemporary Urban Society studies the close relationship that social capital shares with local context social organization and institutional structure The book s timely analysis illuminates the institutional barriers currently affecting the mobilization of social capital and establishes a foundation for social and political reform in the future All components of capital formation including human financial and cultural capital are identified and considered as they relate to the community development process as well as how social capital relates to race class gender and religion in urban

society Community Based Organizations in Contemporary Urban Society offers vital extensions to existing literature on social capital and allows the reader to consider this topic from multiple perspectives through its broad spectrum of interdisciplinary essays by sociologists political scientists and urban planners The essays discuss important steps in the mobilization of social capital as well as its role in microfinance programs community development corporations homeowners associations religious institutions and neighborhood associations Individual chapters present an array of theoretical arguments empirical analysis and applied case studies that are of interest to academics practitioners and activists in the community development field

Celebrate the Spirit of Success! ,1998 **Saving Souls, Serving Society** Heidi Rolland Unruh,Ronald J.

Sider,2005-10-06 Recent years have seen unprecedented attention to faith based institutions as agents of social change spurred in part by cuts in public funding for social services and accompanied by controversy about the separation of church and state The debate over faith based initiatives has highlighted a small but growing segment of churches committed to both saving souls and serving society What distinguishes faith based from secular activism How do religious organizations express their religious identity in the context of social services How do faith based service providers interpret the connection between spiritual methodologies and socioeconomic outcomes How does faith motivate and give meaning to social ministry Drawing on case studies of fifteen Philadelphia area Protestant churches with active outreach Saving Souls Serving Society seeks to answer these and other pressing questions surrounding the religious dynamics of social ministry While church based programs often look similar to secular ones in terms of goods or services rendered they may show significant differences in terms of motivations desired outcomes and interpretations of meaning Church based programs also differ from one another in terms of how they relate evangelism to their social outreach agenda Heidi Rolland Unruh and Ronald J Sider explore how churches navigate the tension between their spiritual mission and the constraints on evangelism in the context of social services The authors examine the potential contribution of religious dynamics to social outcomes as well as the relationship between mission orientations and social capital Unruh and Sider introduce a new vocabulary for describing the religious components and spiritual meanings embedded in social action and provide a typology of faith based organizations and programs Their analysis yields a framework for Protestant mission orientations that makes room for the diverse ways that churches interrelate spiritual witness and social compassion Based on their observations the authors offer a constructive approach to church state partnerships and provide a far more objective understanding of faith based social services than previously available Preaching to Improve an Economic Deprived Community R. Lamont Smith (II.),2006-07 Nehemiah is used as a model for insight and directions in this must read text for preachers teachers and everyone concerned about their community Social Issues *Wellness City* Ari-Veikko Anttiroiko,2018-04-19 Addressing the continuous need for new growth sectors in post industrial cities this book considers the economic significance of wellness from a development policy perspective The author goes beyond personal health discourse to conceptualise wellness as an emerging industry presenting

empirical cases of community attraction and export orientated strategies around the world Combining holistic health urban governance and economic development this book will provide valuable reading for those studying policy tourism and the wellness sector as well as business entrepreneurs within this evolving industry God and Government in the Ghetto Michael Leo Owens,2008-11-15 In recent years as government agencies have encouraged faith based organizations to help ensure social welfare many black churches have received grants to provide services to their neighborhoods poorest residents This collaboration activist churches explain is a way of enacting their faith and helping their neighborhoods But as Michael Leo Owens demonstrates in God and Government in the Ghetto this alliance also serves as a means for black clergy to reaffirm their political leadership and reposition moral authority in black civil society Drawing on both survey data and fieldwork in New York City Owens reveals that African American churches can use these newly forged connections with public agencies to influence policy and government responsiveness in a way that reaches beyond traditional electoral or protest politics The churches and neighborhoods Owens argues can see a real benefit from that influence but it may come at the expense of less involvement at the grassroots Anyone with a stake in the changing strategies employed by churches as they fight for social justice will find God and Government in the Ghetto compelling reading Be In The World, Not Of The World!
