Economic Reform Policies And The Labour Market In Nigeria:

Economic Reform Policies and the Labour Market in Nigeria Tayo Fashoyin, 1994 Based partially on a survey of 508 enterprises from the public and private sectors and covers the 1980s **Reforms and Nigerian Labour and Employment Relations** Ootobo, Dafe, 2016-07-25 This collection of papers from twenty seven chapters is on aspects of reforms and labour and employment relations in Nigeria over the past three decades The Nigerian Journal of Economic and Social Studies, 1999 **Manufacturing Transformation** Carol Newman, John Page, John Rand, Abebe Shimeles, Måns Söderbom, Finn Tarp, 2016 This book addresses three questions Why is there so little industry in Africa Does it matter And what can be done about it It gives some of the results of a four year research programme by national and international researchers into what makes firms in low income countries more competitive and what makes countries more attractive to competitive firms The book fills an important gap in development economics and African studies There is no other book on the market devoted to such a comprehensive comparative cross country analysis of Africa's industrialization experience Both the policy conclusions drawn from the comparative analysis and the case studies in their own right will be of substantial interest to readers Policy makers in governments and international development agencies in particular will find the book useful and provocative This is an open access title available under the terms of a CC BY NC SA 3.0 IGO licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations **BEYOND OUR IMAGINATIONS** Simi Afonja, 2022-06-17 Beyond our Imaginations African Women's Realities is the product of dialogues on Gender and Feminism in the region of Africa It is the first in the series Feminism Visions of Society The book provides a balanced review of Western and West African theories and of participatory methodologies paying particular attention to the exclusion of grassroots feminism from the growing body of knowledge and action It builds on existing essentialist theorizing without disregarding the overlaps with feminism in other cultures Cultural knowledge is extended in discussions of grassroots women's loss of power and voice through changing gender images the declining culture of the Deification of Motherhood Women's Leadership in Modern Markets Female Traditional Rulership and Women's Influence in Community Development and Peace Building This book helps to understand why too often there are gaps between theory and the policies designed to improve African Women's lives There is also a repertoire of qualitative data about feminist practices and strategies at the household level in the workplace and the political domains as part of the patriarchal bargain in African cultures While the collection celebrates the importance of the imagination in building feminist knowledge it takes a more cautionary stand calls for methodological flexibility and sophistication as African scholars expand feminist knowledge **The Nigerian Journal of Economics and Social Studies**, 2004 *Global Industrial Relations* Michael J. Morley, Patrick Gunnigle, David Collings, 2006-11-22 Breaking new ground and drawing on contributions from the leading academics in the field this volume in the Global HRM Series specifically focuses on industrial relations Benefits and Costs

of Economic Reforms in Nigeria Nigerian Economic Society. Conference, 2006 **Food Production in Urban Areas** Kwaku Obosu-Mensah, 2018-08-20 Published in 1999 this book explores the emergence of contemporary urban agriculture as well as official attitudes toward this practice Using three theoretical models the author tells us who is more likely to be involved in urban agriculture In line with this he explains why contrary to expectations in Ghana there are more males than females involved in urban agriculture The author also addresses issues such as the influence of social inequality and the effects of social networks on urban agriculture Furthermore he identifies the problems urban cultivators encounter as city farmers and how they cope with such problems Finally the author predicts the future trend in urban agriculture This thought provoking book will be of interest not only to public policy makers and planners but also to students and teachers of African studies urban studies and sociology **L'impact des programmes d'ajustement structurel des années 80-90 sur la situation des femmes en Afrique**, 1998 *Macro-economic Model of the Nigerian Economy*, 2003 *The Future of Ecowas: Critical Perspectives* Mansourou El-Moumin A. Radji, 2020-12-18 The book delves into the regional organization in both form and content and pinpoints why since 1975 political dysfunction and self help undermine the economic arrangement within the sub region It highlights the most systematic analysis of how policies are half implemented and laws enacted to move the region forward failed to make any difference From China's imperialistic ambitions on West Africa the economic integration to Morocco's attempt and the single currency Mansourou takes readers deep into political criminality and relies on impressive quantitative analysis to reach compelling and unusual outcomes He argues against the tide of unnecessary Chinese Killer loans that is spreading across West Africa Encountering the Nigerian State W. Adebani, E. Obadare, 2010-07-05 This volume advances extant reflections on the state constituted as the Ur Power in society particularly in Africa It analyzes how various agents within the Nigerian society encounter the state ranging from the most routine form of contact to the spectacular While many recent collections have reheated the old paradigms of the perils of federalism corruption ethnicity etc our focus here is on encounter that is the nuance and complexity of how the state shapes society and vice versa Through this we depart from the standard state versus society approach that proves so limiting in explaining the African political landscape African Political Economy in the Twenty-First Century Ernest T. Aniche, Stephen N. Azom, Emeka C. Iloh, 2023-09-12 African Political Economy in the Twenty First Century Theories Perspectives and Issues edited by Emeka C Iloh Ernest T Aniche and Stephen N Azom fills the gap in the discourses on African political economy from an African perspective Since the end of colonialism in the second half of the twenty first century a wide ranging debate has opened on the future of African development and the nature and character of its political economy especially as it concerns its web of relationships in the international political and economic system Two decades into the twenty first 21st century the debate still rages on and is likely to continue for a long time This book contributes to the debate by addressing the important question of how African countries can strategically and tactically approach global political economy at multilateral continental and

regional levels in view of North South versus South South configurations African Political Economy in the Twenty First Century further suggests how African countries can effectively utilize global forces to Africa s advantage in advancing domestic regional and continental development objectives Trade Unions and Sustainable Democracy in Africa Gerard Kester,Ousmane Oumarou Sidibe,2019-05-23 First published in 1997 this volume sets out to open a dialogue with the trade union movement and its social partners including civil society political leaders and the scientific community The authors all of whom work closely with APADEP have drawn on their personal experience and have been guided by a simple yet flexible theme trends in the last few decades in their countries with the emphasis on transition over the last five years Part I consists of an overview of sub Saharan Africa based on selected documentation Part II is given over to an analysis of the specific situations obtaining in ten African countries in different geographical and language areas Each case study provides its own democratisation scenario Competence Utilization and Transfer in Informal Sector Production and Service Trades in Ibadan, Nigeria Susanna Adam,1995 Competence of the entrepreneurs is regarded as one of the factors which are most important for survival and development in the informal sector However an educational perspective alone would not have been an appropriate approach to this sector Therefore an interdisciplinary approach combining educational with socio economic research was chosen for this study The research included other important factors such as infrastructure financing marketing technology and informal relations **Rural Development** International Labour Office,1991 Entries in English and various other languages **Global Employment** Mihály Simai,Valentine M. Moghadam,Arvo Kuddo,1995 Macroeconomic Policy Formation in Africa - Country Cases Karl Wohlmuth,Achim Gutowski,Magda Kandil,Tobias Knedlik,Osmund O.
