The Countries of the Former Soviet Union at the Turn of the Twenty-First Century Ian Jeffries, 2004-01-08 Providing a unique level of coverage this book provides a comprehensive survey of the political and economic development of the countries of the former Soviet Union from the mid 1990s onwards

The Former Yugoslavia at the Turn of the Twenty-First Century Ian Jeffries, 2002-05-16 This book focuses on the recent political and economic events in the former Yugoslavia The author presents a clear detailed and accessible breakdown of the developments in Bosnia Hercegovina Croatia the Former Yugoslav Republic of Macedonia Slovenia and the Federal Republic of Yugoslavia Serbia and Montenegro The role of the West in the mor

The New Russia Ian Jeffries, 2013-12-19 The rapid changes in Russia since the collapse of the Soviet Union are often bewildering with many frequent highly significant changes in the different sectors of the economy and the political system There have been frequent changes of personnel in government and economic management and many changes have been reversed and sometimes forgotten or at other times reinstated What happened when Who was responsible for what Did such a change in one sector precede or follow a particular change elsewhere These are points not

easily remembered This book provides full details of the many changes and enables sense to be made of what would otherwise be a confusing situation Developments are arranged chronologically by sector and the book is unusual in extensively chronicling both economic and political developments and the crucial connections between them There is a generous introduction and overview to help the reader find his or her way around The material covers the period up to late autumn 2000 and thus offers a valuable guide to policies in the Putin era *Russia's Uncertain Economic Future* John P. Hardt, Robert F. Bennett, 2015-04-15 The contributors to this volume analyze the present state of the Russian economy and its future prospects which now seem brighter than at any previous time in the country's history The Russian economy is now showing positive GDP growth and a positive balance of payments portending a trend of sustained growth The record of the Putin presidency with respect to the establishment of market friendly legal and administrative environments is substantially positive On the other side of the ledger the contributors identify the persistence of monopolies in energy transportation and agriculture distortions resulting from corruption infrastructural inadequacies and the maldistribution of political power and decision making authority demographic decline and the erosion of human capital as manifested in the health education and welfare of the population Russia's successful development as a democratic society with a market economy is of great importance to its neighbors and to the global economy and specifically to the United States which is why the U S Congress commissioned these studies by expert analysts This edition includes a comprehensive subject index making the volume user friendly *OECD Economic Surveys: Poland 2000* OECD, 2000-03-01 This 2000 edition of OECD's periodic review of Poland's economy examines recent economic developments policies and prospects and includes special features on structural reform the health care system and reforming the tax system **Globalisation and Trade** Oliver Morrissey, Igor Filatotchev, 2001 The papers collected in this volume report the results of research on issues dealing with the failure of globalization to benefit poor countries They explain how exports could be improved for these countries and reveal the role that UK supermarkets play in African poverty **Innovation and Structural Change in Post-Socialist Countries: A Quantitative Approach** David A. Dyker, S. Radosevic, 2012-12-06 This book uses a range of S T and structural indicators to analyse the transformation process in particular the transformation of science technology and industry in the former communist countries The book originates from a sense of the tremendous need for quantitative indicators for assessing trends and performance in the post socialist economies S T systems in the region have passed through the first phase of rapid deterioration or as it is called by some analysts implosion After ten years of transformation we are witnessing a process of increasing differentiation of these countries in terms of general patterns of growth and structural change as well as specific lines of restructuring in their S T systems The question of sources of growth or indeed of stagnation is an increasingly urgent one from both the policy and academic perspectives In that context there is a pressing need for in depth assessment of restructuring patterns in science technology and industry in the region as a basis for understanding how restructuring in S T is linked to industrial

restructuring and to general economic and social transformation As the contributions to this volume show there is now a critical mass of quantitative data across the post socialist countries which deserves to be studied more thoroughly in a comparative manner The changes of the last ten years have produced varying patterns of adjustment which are now clearly visible in S T and structural indicators *Monetary Policy in Central Europe* Miroslav Beblavý,2007-02-08 Miroslav Beblavý an experienced policy maker examines monetary policy and monetary institutions in Eastern European and looks at monetary policy more generally in less developed but highly open and financially integrated market economies **The Politics of Europe** W. Bonefeld,2001-03-23 Assessments of the politics of European integration in general and monetary union in particular are many In fact the study of the European Union has become an academic growth industry This book contributes to the debate a specific theoretical focus and practical perspective The volume provides a critique of the political economy of European integration and its unique focus and scholarly analysis make it an indispensable contribution to a renewal of the Marxist critique of European integration **The Political Importance of Regional Trading Blocs** Bart Kerremans,Bob Switky,2018-02-06 This title was first published in 2000 This text addresses concerns about regional trade agreements From a variety of political and economic angles it explains the emergence of trade blocs their internal policies and politics and their effects on global trade It does not provide sequential descriptions and analyses of each of the world s major trading blocs The focus here is on a number of causal factors that help explain the emergence of trading blocs and the development of their relations to and effects on the multilateral trading system In each chapter attempts have been made to draw theoretical and case based generalizations that may apply to other trade blocs than the used in the empirical analyses

The Balkans Robert Bideleux,Ian Jeffries,2007-01-24 An excellent companion volume to the successful *A History of Eastern Europe* this is a country by country treatment of the contemporary history of each of the Balkan states Albania Bulgaria Romania Croatia Serbia Bosnia and Herzegovina Macedonia Montenegro and Kosova With a distinctive conceptual framework for explaining divergent patterns of historical change the book shifts the emphasis away from traditional cultural explanations and concentrates on the pervasive influence of strongly entrenched vertical power structures and power relations Focusing on political and economic continuities and changes since the 1980s *The Balkans* includes brief overviews of the history of each state prior to the 1980s to provide the background to enable all students of Eastern European history to make sense of the more recent developments Adjusting to EMU B. Ardy,I. Begg,D. Hodson,Imelda Maher,D. Mayes,2005-11-01 This book provides an original and wide ranging analysis of the impact of Economic and Monetary Union EMU on economic governance in the EU and in several key Member States within and outside the Euro area Its emphasis is on adaptation how EMU encourages change in national and EU institutions and in national economic regimes It brings together economic political science and legal perspectives to explain how national economies adapted the dynamics of policy making and the complex web of laws processes and actors in the EMU **The Baltic Sea Region** Witold Maciejewski,2002

The Russian Mafia Federico Varese, 2001 It also provides a comparative study making references to other Mafia the Japanese Yakuza the Sicilian Cosa Nostra American Italian Mafia and the Hong Kong Triads BOOK JACKET **The Return To Europe** NA NA, 2016-04-30 The Return to Europe examines the ability of the Central and South east European economies to withstand competitive pressures on entry to the EU These economies are still experiencing major structural problems inherited from communism A major gap still exists between the income levels and economic structures of the accession states and the existing members of the EU Trade relations largely involve the exchange of labour intensive goods produced in Eastern Europe for technology intensive goods produced in the EU The export structures of some Central European economies which have attracted foreign direct investment is improving Romania and Bulgaria have become increasingly dependent on export of labour intensive goods since the collapse of communism Will this create a permanent division of labour in an enlarged EU in which some regions of Europe fail to attract investment and become dependent on the export of low wage goods with implications for European security
