Economic Transition In Central Europe And The Commonwealth Of Independent States:

Economic Transition in Central Europe and the Commonwealth of Independent States T. Mickiewicz, 2005-11-11 Fifteen years ago twenty seven countries in Europe and Central Asia embarked on their economic transition paths For some the outcome was a considerable success Several others are still struggling to shed the inheritance of the past and to correct more recent policy mistakes Why were post Communist recessions so long in some countries and growth disappointing Why was fiscal performance so different Was democracy a factor which facilitated reforms or rather slowed them down This book discusses these questions in the context of new empirical evidence including a critical examination of the main themes in the economics of transition literature *The Commonwealth of Independent States Economies* Marcus Goncalves, Erika Cornelius Smith, 2017-09-11 The year 2016 marks the 25th anniversary of the official inauguration of the Commonwealth of Independent States CIS a free association of sovereign states comprised by Russia and 11 other republics that were formerly part of the Soviet Union Although this loose association of states may not exist as a fixed entity on the globe it is believed that this bloc of countries will continue to build upon the various separate regions in the former Soviet space in the coming decade This book provides a regional analysis and a country scan of the CIS regional block economies It examines its history since the breakup of the formal Soviet Union and the formation of the CIS bloc including creation of regional agreements such as the CIS Free Trade Area and the Eurasian Economic Union which now represents more than 180 million people As a whole our text attempts to better understand current and future prospects for economic growth in the region as well as their individual national challenges **The Successes and Failures of Economic Transition** H. Gabrisch, J. Hölscher, 2006-08-25 This book takes a macroeconomic approach to the issue of transformation from communist economies into market economies At the centre of the analysis stands the role of the state and the definition within a dramatically changing environment Particular emphasis is given to the emerging role of money and the financial sector **Growth and Change in Post-socialist Cities of Central Europe** Waldemar Cudny, Josef Kunc, 2021-12-29 This book presents multidimensional socio economic transformations taking place in the post socialist cities located in selected countries of the Central European region The analysis includes case studies from the Eastern part of Germany Chemnitz Leipzig Poland d Kielce Katowice conurbation and peripheral urban centres from Eastern Poland Slovakia Bratislava Nitra the Czech Republic Olomouc Brno and from Hungary P cs The analysed urban areas have undergone far reaching political and socio economic changes in the last 30 years These changes began with the collapse of communism and the centrally planned economy system in the region of Central Europe The beginning of this period often referred to as post socialist transformation dates back to 1989 The consequence of the aforementioned political processes was the multifaceted socio economic and demographic changes that significantly affected urban areas in Central Europe This book presents an attempt to summarize the main long term processes of changes taking place in these urban areas and to identify contemporary and future trends in

Transformational Diplomacy after the Cold War Keith Hamilton, 2013-04-12 This book examines the Know How Fund Britain's bilateral technical assistance programme in post communist central and eastern Europe devised in response to the end of the Cold War The Know How Fund KHF was the technical assistance programme which Margaret Thatcher's government launched in the spring of 1989 to encourage Poland's transition from communism to democracy and free market capitalism It was subsequently extended to other countries of central and eastern Europe and might be considered a novel experiment in what the US secretary of state Condoleezza Rice would later term transformational diplomacy Drawing upon still closed records of the Cabinet Office the Department for International Development DFID and the Foreign and Commonwealth Office this book explores the political origins of the

KHF In particular the author examines its influence upon the transitional process in the lands of the former Soviet bloc its part in attenuating the potentially destabilising effects of revolutionary change in Europe the interdepartmental cooperation and rivalry to which its administration gave rise in Whitehall and the links forged between officials and the worlds of business finance and academe in project design and implementation The volume offers new insights into Britain's reactions to the collapse of communism in central Europe and the Soviet Union the role of aid in the making and conduct of British foreign policy and the significance of New Labour's establishment of DFID as a separate government department This book will be of much interest to students of British Foreign Policy Diplomacy Studies European history Post Communist Transitions and IR in general *Technology Transfer via Foreign Direct Investment in Central and Eastern Europe* J.
