**Economists and the Irish Economy from the Eighteenth Century to the Present Day** Antoin E. Murphy, 1984

Economists and the Irish Economy Antoin E. Murphy, 1983      A History of Irish Economic Thought Thomas

Boylan, Renee Prendergast, John Turner, 2013-03 For a country that can boast a distinguished tradition of political economy from Sir William Petty through Swift Berkeley Hutcheson Burke and Cantillon through to that of Longfield Cairnes Bastable Edgeworth Geary and Gorman it is surprising that no systematic study of Irish political economy has been undertaken In this book the contributors redress this glaring omission in the history of political economy for the first time providing an overview of developments in Irish political economy from the seventeenth to the twentieth century Logistically this is achieved through the provision of individual contributions from a group of recognized experts both Irish and international who address the contribution of major historical figures in Irish political economy along the analysis of major thematic issues schools of thought and major policy debates within the Irish context over this extended period      **The Oxford Handbook of Modern**

**Irish History** Alvin Jackson, 2014-03-27 The study of Irish history once riven and constricted has recently enjoyed a resurgence with new practitioners new approaches and new methods of investigation The Oxford Handbook of Modern Irish History represents the diversity of this emerging talent and achievement by bringing together 36 leading scholars of modern Ireland and embracing 400 years of Irish history uniting early and late modernists as well as contemporary historians The Handbook offers a set of scholarly perspectives drawn from numerous disciplines including history political science literature geography and the Irish language It looks at the Irish at home as well as in their migrant and diasporic communities The Handbook combines sets of wide thematic and interpretative essays with more detailed investigations of particular periods Each of the contributors offers a summation of the state of scholarship within their subject area linking their own research insights with assessments of future directions within the discipline In its breadth and depth and diversity The Oxford Handbook of Modern Irish History offers an authoritative and vibrant portrayal of the history of modern Ireland      **Irish**

**Culture and Colonial Modernity 1800-2000** David Lloyd, 2011-09-22 From the Famine to political hunger strikes from telling tales in the pub to Beckett's tortured utterances the performance of Irish identity has always been deeply connected to the oral Exploring how colonial modernity transformed the spaces that sustained Ireland's oral culture this book explains why Irish culture has been both so creative and so resistant to modernization David Lloyd brings together manifestations of oral culture in the nineteenth and twentieth centuries showing how the survival of orality was central both to resistance against colonial rule and to Ireland's modern definition as a postcolonial culture Specific to Ireland as these histories are they resonate with postcolonial cultures globally This study is an important and provocative new interpretation of Irish national culture and how it came into being      *English, Irish and Subversives Among the Dismal Scientists* Noel W.

Valone,Jill Marie Bradbury,2008 This book presents a series of essays that examine the ideological personal and political difficulties faced by the group variously termed the Anglo Irish the Protestant Ascendancy or the English in Ireland a group that existed in a world of contested ideological political and cultural identities At the root of this conflicted sense of self was an acute awareness among the Anglo Irish of their liminal position as colonial dominators in Ireland who were viewed as other both by the Catholic natives of Ireland and by their English kinsmen The work in this volume is highly interdisciplinary

bringing to bear examination of issues that are historical literary economic and sociological Contributors investigate how individuals experienced the ambiguities and conflicts of identity formation in a colonial society how writers fought the economic and ideological superiority of the English how the cooption of Gaelic history and culture was a political strategy for the Anglo Irish and how literary texts contributed to the emergence of national consciousness In seeking to understand and trace the complex process of identity formation in early modern Ireland the essays in this volume attest to its tenuous dynamic and necessarily incomplete nature David A Valone is an Assistant Professor of History at Quinnipiac University Jill Marie Bradbury is an Assistant Professor of English at Gallaudet University     Refiguring Ireland David Dickson, Cormac Ó Gráda, 2003 This collection of essays has been specially commissioned in order to mark the quite exceptional contribution that Louis Cullen has made to historical studies in Ireland and abroad over the last forty five years spanning economic social cultural and political history Introduction and Bibliography of L M Cullen David Dickson TCD     **Economics, Entrepreneurship and Utopia** Estrella Trincado, Manuel Santos-Redondo, 2017-07-20 In the early 1800s Robert Owen was a mill owner political figure and an advocate for social reform and his publications attained considerable circulation He believed that people need good working conditions in order to be encouraged to work and motivated to learn Despite the higher costs associated with this kind of operation compared to the traditional ones Owen s management resulted in increased productivity and profit His results caught the attention of men of wealth who were interested in social reform In particular at a similar time Jeremy Bentham was developing his own theories Owen and Bentham seemed to be based on some similar ideas that the greatest happiness creates the greatest results Their ideas developed against the backdrop of the Industrial Revolution and growing social and economic problems in England Owen and Bentham were forerunners of highly relevant current theories of economics marginalism entrepreneurship personnel management and constructivism They were acquainted with such important authors as James Mill Malthus Ricardo and John Stuart Mill However their economic theories were ruled out by classical economists who actively tried to silence perspectives different from the orthodoxy This book presents an innovative study of these two social thinkers and reformers who have rarely if ever been studied together This comparative study provides new context both on the social debate taking place during the Industrial Revolution and on the development of modern social thought in particular the relationship between socialism and utilitarianism Economics Entrepreneurship and Utopia will be of great relevance to scholars with an interest in the history of economic ideas the history of entrepreneurship and social reform in both historical and contemporary contexts     **Ireland, 1912-1985** Joseph Lee, 1989 About the history of Ireland from 1912 to 1985 focusing on political social and revolutionary events

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him.
