Trends In Chemistry Of Materials: Selected Research Papers Of C N R Rao C N R Rao, 2008-07-21 In this collection the author has compiled a set of his papers representing some of the highlights of materials chemistry It features a section on oxidic materials which includes high temperature superconductivity colossal magnetoresistance electronic phase separation and multiferroics The author has also included novel methods for making gallium nitride boron nitride and such materials by using precursors and the urea decomposition route Moreover there is a section dealing with open framework and hybrid materials of which the latter has a great future since one can make use of the rigidity of inorganic structures and the functionality and flexibility of the organic residues to design materials with novel properties

Hellenistic Relief Molds from the Athenian Agora Claire Grandjouan, Eileen Markson, Susan I. Rotroff, 1989 Over 100 clay molds found between

1931 and 1977 in the fills within the three great Hellenistic stoas that once lined the Agora the Middle Stoa the Stoa of Attalos and the South Stoa are published in this book While the repertory of images that could have been cast using them comprising 25 subjects is relatively conventional the large size up to 30 x 60 cm makes their function a puzzle The author concludes that they must have been for the casting of cheap funerary substitutes at a time when a decree of Demetrios of Phaleron prohibited the building of costly burial monuments in Athens After the author's death in 1982 this volume was edited by Eileen Markson and Susan I Rotroff

Fractal Modelling Jaap A. Kaandorp, 2012-12-06 In this book methods from fractal geometry are applied to model growth forms taking as a case study a type of growth process which can be found among various taxonomic classes such as sponges and corals These models can be used for example to understand the amazing variety of forms to be found in a coral reef and to simulate their growth with 2D and 3D geometrical objects Models which mimic the growth of forms and the environmental influence on the growth process are also useful for ecologists as a combination of simulation models together with the actual growth forms can be used to detect the effects of slow changes in the environment
