*A Passionate Usefulness* Gary D. Schmidt, 2004 In a literary environment dominated by men the first American to earn a living as a writer and to establish a reputation on both sides of the Atlantic was miraculously a woman Hannah Adams dared to enter and in some ways was forced to enter a sphere of literature that had in eighteenth century America been solely a male province Driven by poverty and necessity and aided by an extraordinarily adept mind and keen sense of business Adams authored works on New England history sectarian history and Jewish history using and citing the most recent scholarly works being published in Great Britain and America As a female writer she would always remain something of an outsider but her accomplishments did not by any means go unrecognized embraced by the Boston intelligentsia and highly regarded throughout New England Adams came to epitomize the possibility in a democratic society that anyone could rise to a circle of intellectual elites In *A Passionate Usefulness* the first book length biography of this remarkable figure Gary Schmidt focuses primarily on the intimate connection between Adams's reading and her own literary work Hers is the story of incipient scholarship in the new nation the story of a dependence that evolved into intellectual independence Schmidt sets Adams's works in the context of her early poverty and desperate family situation her decade long feud with one of New England's most powerful Calvinist ministers her alliance with the budding Unitarian movement in Boston and her work establishing the first evangelical mission to Palestine a task she accomplished virtually single handedly Today Adams still holds a place not

only as a female writer who made her way economically in the book business before any other woman or male writer could do so but also as a key figure in the transitional generation between the American Revolution and the Renaissance upon whose groundwork much of the country's later literature would build     *Edging Women Out* Gaye Tuchman, Nina E. Fortin, 2012 Before 1840 there was little prestige attached to the writing of novels and most English novelists were women By the turn of the 20th century men of letters acclaimed novels as a form of great literature and most successful novelists were men Here Gaye Tuchman examines how men redefined this form of literary expression     *Victorian Children's Literature* Ruth Y. Jenkins, 2016-09-22 This book reveals how the period's transforming identities affected by social economic religious and national energies offers rich opportunities in which to analyze the relationship between identity and transformation At the heart of this study is this question what is the relationship between Victorian children's literature its readers and their psychic development Ruth Y Jenkins uses Julia Kristeva's theory of abjection to uncover the presence of cultural anxieties and social tensions in works by Kingsley MacDonald Carroll Stevenson Burnett Ballantyne Nesbit Tucker Sewell and Rossetti

**Book Review Index**, 2003 Vols 8 10 of the 1965 1984 master cumulation constitute a title index     **Bibliographic Guide to Education**, 2001 lists publications cataloged by Teachers College Columbia University supplemented by The Research Libraries of The New York Public Library     □□□□□□ □□□□□□, 2011-06-01 2011 4 16 17     **Forthcoming Books** Rose Arny, 2003     *Childhood and Innocence in American Culture* James M. Curtis, 2023-08-01 This collection argues that the romanticized conflation of childhood and innocence in American culture has been on a steady decline at least since the 1960s largely due to postmodern critiques of overarching narratives involving both the child and the innocence of childhood Additionally this collection highlights and analyzes examples of children's literature and culture throughout the 20th century and into the 21st which pointedly defy traditional idealized notions of childhood Such an analysis serves to reiterate the idea that the romanticized notion of childhood which has pervaded American culture for over two centuries is little more than a cultural construction that bears little to no resemblance to the actual lived experience of American children
