Edinburgh John Mackay, 1980 The Anatomy of Scottish Capital John Scott, Michael Hughes, 2021-10-12 Originally published in 1980 this book gives a concrete description of the development of Scottish companies and Scottish capital through the 20th Century based on empirical study The study begins with the major companies of 1904 5 and examines their history and subsequent development The top companies in a number of periods are also examined and the study concludes with an investigation of the major companies of 1973 4 and their response to the then recent oil developments The book uses both detailed company histories and broad historical interpretations as sources drawing the data together into chronologically ordered sections Its focus is on the companies and people which make up the system of Scottish capital seen as a relatively distinct system with its own characteristics and its own pattern of development within the British system

Bennett, 2017-12-04 This book is open access under a CC BY 4.0 license This book provides the most in depth study of capital punishment in Scotland between the mid eighteenth and early nineteenth century to date Based upon an extensive gathering and analysis of previously untapped resources it takes the reader on a journey from the courtrooms of Scotland to the theatre of the gallows It introduces them to several of the malefactors who faced the hangman's noose and explores the traditional hallmarks of the spectacle of the scaffold It demonstrates that the period between 1740 and 1834 was one of discussion debate and fundamental change in the use of the death sentence and how it was staged in practice In addition the study provides an innovative investigation of the post mortem punishment of the criminal corpse It offers the reader an insight into the scene at the foot of the gibbets from which criminal bodies were displayed and around the dissection tables of Scotland's main universities where criminal bodies were used as cadavers for anatomical demonstration In doing so it reveals an intermediate stage in the long term disappearance of public bodily punishment
